

## A SIMPLE REMEDY FOR INDIGESTION

There's nothing complicated about the way REDMAC overcomes stomach trouble. It neutralises the harmful acid that's doing the mischief, and does it instantly. With the stomach free from this acid, there's no chance of fermentation, and the digestive organs can do their work unhindered. The following extract from a letter is typical of many written by grateful users:

Redmac has saved me so much pain, and it is so nice to feel I can eat quite what I fancy instead of just plain food.

(Signed) A. SHEPHERD.

It makes no difference whether your trouble is Indigestion, Dyspepsia, Flatulence, Gastritis or Palpitation, Redmac is what you want, and what you must have if your stomach is to be put to rights. Get a bottle of this wonderful Herbal Tonic to-day from your druggist.

Sold in Porcupine by Burke's Drug Store.

## SAD SUNDAY PREVAILS NOW ALL AROUND THE PORCUPINE

Some days ago the ice cream parlors and other similar places in Moneta, Schumacher, South End, etc., were notified to see to it carefully that their places were tightly closed on Sundays so as not to annoy the pious Atrocity-General of the Province. The places along the Mattagami Road and at the River had been similarly notified previously. Consequently, Timmins is now a desert island on the Sadder Day entirely surrounded by similar Sad Sundays. Thus children are learning the greatest moral truth of all time—that next to breaking the O.T.A., the most heinous crime is to buy a chocolate bar on Sunday.

## MAN BADLY STABBED AT THE WYE, IROQUOIS FALLS

Sunday evening Carl Stoehr of the Wye, Iroquois Falls, was called out of the house by a couple of men, and while talking to these men in the yard they attacked him. He was stabbed about a dozen times, receiving one bad cut in the neck and nine cuts in the ribs. The police are working on the case but so far the two men concerned have not been apprehended.

## ANOTHER "BIG STRIKE" REPORTED IN BRISTOL

Last week reports were received of another big strike said to be made in Bristol Township. Bristol Township has not yet been very thoroughly prospected, practically all the exploration there being done by prospectors "passing to or from some other section of interest." These passers-through Bristol have on more than one occasion found very encouraging spots in that Township and there have been several flurries among prospectors regarding the possibilities of this township. No particulars were given out as to the reported find last week, further than on a claim where the formation seemed unusually favourable rich values had been found, with free gold and other evidences of possible richness. The prospector making the find last week is understood to be proceeding with further work before making any special announcement as to location and particulars of the find reported.

## DOMES PURCHASES CAR OF NEW EXPLOSIVE, "THOMPSONITE"

After a trial of a few cases of the new explosive, "Thompsonite," the Dome Mines have purchased a carload, containing 532 cases for use. Another carload of "Thompsonite" is to be sent into Porcupine soon for trial from the factory at Deseronto, and a car is also to go into the Kirkland Lake camp. The advantages credited to the new explosive include the claim that it will not run in hot weather nor freeze in cold, and that men can go back to the face ten minutes or less after a charge has been shot, there being no poisonous fumes from this new explosive.

## VERY SUCCESSFUL AT HOME GIVEN BY REBEKAH LODGE

A very successful and enjoyable At Home was given in the Oddfellows Hall on Thursday evening, Sept. 29th by Gold Nugget Rebekahs. The hall was prettily decorated for the occasion. Progressive euchre was indulged in till 10.30. Refreshments of sandwiches, pie and coffee were then served, after which the Empire Orchestra played for dancing. Kitchener Rebekah Lodge, of South Porcupine, was well represented at the event, Mr. Grewcoe having brought out 20 members in his motor lorry. The verdict of all was that the event was a most pleasant and jolly evening, despite the dismal, damp weather.

## PROVINCE APPEALING FIRE DAMAGE AWARDS

Last week at Toronto, Premier Durney announced the decision of the Ontario Government to appeal the Matheson Fire Arbitration award. This award, it will be remembered, followed the sittings of a Board of Arbitration to enquire into the causes of the destruction of Matheson by fire in 1916. The theory of the Government and the others was that the destruction of the town of Matheson was due to bush fires that raged in the North Land that year. On the other hand many of the prominent people of Matheson at that time claimed that the fires really originated from fires more or less carelessly allowed to get headway on the T. & N. O. right-of-way. The Matheson people wanted to sue the T. & N. O. for the loss caused. As the T. & N. O. is a government-owned concern ordinary lawsuits were not possible, so the Arbitration Board was appointed. The Government, of course, had its part in the selection of the Board of Arbitration. Some governments might feel bound to abide by the decision of such an arbitration board, but the Government's reply to this would be to point out that to do so would mean the paying out by the Province of about a quarter of a million dollars to the sufferers from the Matheson fire. It is very wicked for employees or employers to refuse to abide by an arbitration board when they have a dispute to settle, but it is all right for a Farmers' Government so long as they go to church on Sunday and guard any liquor that may come their way. The Arbitration Board had many sittings and considered a great mass of evidence, much of which was conflicting. Their decision when finally given some months ago suggested a liability for the Province, as suggested above, that would run near the quarter million dollar mark. To avoid this expenditure the Government is appealing the decision of the Arbitration Board and the case was expected to be heard in a higher court starting this week. It is now over five years since the people of Matheson suffered loss through the big fire. For these five years they have been stalled off from any redress that might have been due them. Now, through the Government's appeal, the matter will be likely sidetracked for another few years, provided the Matheson people are able to spend the money to see the question further through the courts.

## ARRESTED CARRYING GOODS TO POLICE HE SAYS

At Thursday's police court Gusler Elmer will face a charge of stealing 7 pairs of blankets and a comforter from the new Hollinger hospital. Elmer is reposing in the cells this week and the police are enjoying any spare moments they may have by hearing what he may have to say. According to one of the stories told to the police they did not use Elmer quite properly. He says he found the blankets and comforter on the street and believing they were stolen from the hospital he returned them, but then he got thinking that another thief might come along and swipe them again. "I was afraid they would not be safe in that building all alone," says Elmer, "so I decided to take them to the police station for safety. I was just on my way when those two night cops came along and run me into the coop. None of my explanations seemed to satisfy them." Officers Grenier and Macaulay found Elmer on the street at 3 o'clock Sunday morning. They also found the blankets and comforter and took man and goods in charge. The lawyer defending Elmer thinks the story about him being on the way to the police station all right, and, "anyway," he asks, "what right had the police to be wandering around Fifth avenue at three o'clock in the morning in a respectable town like this?"

## AN ARGUMENT FOR LARGER MANHOLES AT THE McINTYRE

A reader calls the attention of The Advance to an incident at the McIntyre last week in which Mr. Dan Roach took a large part. Friend Dan is hoistman on the 1500-ft. level, and the door being off the day in question, he had to climb through, with the manholes well known to be on the small side. As Friend Dan is in the 275 lb. class and there isn't much give to a manhole in a mine, there was some tight old squeezing. An Irishman at the mine says that Dan's tight squeeze through is another argument for larger manholes, but a Scotsman at the mine suggests that it is an argument rather for smaller men. But the men at the McIntyre say they make the manholes as big as double shafts before they'll lose Dan.

BORN—In Timmins, on Sunday, Oct. 2nd, 1921, to Mr. and Mrs. O. Seguin,—a daughter.

## AIREDALE PUPPIES FOR SALE—

Pedigree stock. Seventeen champions in dam's pedigree. If you are looking for one of those wonderful dogs that can do anything—this is your chance! These puppies are priced low for quick sale. Leonard P. Heil, Timmins, Ontario.

## Commercial Weekly Bulletin

The Principal of the new Timmins Business College is hard at work these last two weeks. Students are progressing wonderfully, the only thing the college regrets is that a lot of the young people of the town have not yet awakened to the fact that they are missing a grand and glorious opportunity of being efficient Book-keepers and Stenographers by not taking a few months course in this school.

We are just giving you a TIP. We will have lots of positions for our graduates, and if you want to be one of the fortunate ones, you must be trained.

Full information has been received by the Principal this week from the noted penman, A. F. Sprott, of the Commercial Text Book Co., Toronto, regarding the awarding of Progress Certificates and Writing Diplomas to students of the Timmins Business College, and Penmanship classes will be started this week.

Information regarding the Gold Medal Annual Writing Contest has not yet been received, but it is understood that the Timmins Business College is to be one of the Colleges in this contest.
