TO CALL FOR TENDERS FOR EXTENSION NEXT MONTH

Contract Probably Let in January, 1922, for T. & N. O. Line On To Oil Can.

The final survey of the route of the T. & N. O. Extension to Oil Can, seventy miles north of Cochrane, is not yet completed, though the first sod of the extension was formally turned last week by Premier Drury. It is hoped, however, that the final survey will be sufficiently advanced next month to call for tenders. Thus tenders may be called for in December and the contract let in January. The contract will be given, if at all expedient, for the whole work. It is also hoped that work will be started as soon as the contract is let.

The extension is hoped to tap a wide area of country. It will give access to the Little Abitibi River district where there are said to be vast tracts of pulpwood. The erection of new pulp mills, etc., are also looked for, following the completion of the line. The route of the extension is given as follows:—northeast by north through Glackmeyer township from Cochrane; north through the eastern part of Blount; northwest to the Abitibi River, crossing at the Long Sault Rapids; due north up the west side of the Abitibi, about 5 miles from the river, coming in at Oil Can Portage.

The country to be traversed is very little known. The general geological knowledge of the country is confined to the reports issued by the Department of Mines. These reports would not cause any special "rush" of prospectors. Surveys made this summer by Sutcliffe & Neelands show the terminal to be 6 miles nearer Cochrane than existing maps placed it. This is one sample of the general lack of knowledge of the country. Further north the country made be said to be unexplored for hundreds of miles east and west. The latest maps, for instance, are now quoted as showing all but the main rivers in sketchy fashion and the lakes as dotted blobs.

SHOWS AT NEW EMPIRE
NOW TO START AT 8.15 SHARP

The New Empire Theatre having found that the plan of having two shows each night is not exactly what the public convenience requires has made another change in the matter. Commencing on Monday next, Nov. 7th, the shows will start each evening at 8.15 sharp. There will only be one show each night, but for the benefit of those who find 8.15 too early for them the first two reels (comedy) will be repeated after the feature picture. This will give those coming at half-past eight or even later, an opportunity to see the whole show. Under present conditions the plan of having two shows a night has not exactly suited the purposes for which it was designed. The first show is a little too early for the majority and the second show a little too late. By the plan starting on Monday,—having the show start sharp at 8.15 p.m., with the first two reels for the evening repeated after the feature picture for those coming late,—it is believed the general accommodation will be met. Commencing on Monday next, Nov. 7th, accordingly, the shows at the theatre each evening will commence at 8.15 p.m. sharp.

LIQUOR CHARGES FOLLOW
SHOOTING DOWN THE LINE

Last week brief reference was made in these columns to a shooting affray at McIntosh Springs. A man named Charette was badly wounded in the leg by a rifle shot and the men with him at the time of the shooting were at once sought by the police. In the work of securing particulars as regards the shooting affair, Provincial Inspector Moore and Constable Rayeroff discovered a number of other matters of interest. Briefly the result of their work was that a man named Ringuette was arrested at McIntosh Lake by Chief McInnis and Constable Rayeroff on a charge of breach of the liquor laws, and another man named Labrosse was charged with wounding Charette. The police court on Thursday Magistrate Atkinson sentenced Ringuette to a term of six months for unlawfully making liquor, with an additional fine of \$500.00 on three months on another count. The police secured a liquor-making outfit on Ringuette's premises. Labrosse was remanded for a week on the charge of shooting Charette. Charette is in Haileybury hospital and is reported as perhaps seriously injured.

Mr. Frank Lendrum, of the North Bay Times staff, was a visitor to Timmins last week, spending some time with friends here on his way back from Cochrane where he attended the ceremony of the turning of the first sod in the T. & N. O. extension to Oil Can or Tin Can.

THOMPSON-KRIST TO DEAL FURTHER WITH PORC. CROWN

Last week at the meeting of shareholders of the Thompson-Krist the directors were all re-elected and asked to "carry on." There was no criticism of the work of the directorate. The meeting was a well-attended one and all the proceedings were harmonious and in a spirit of co-operation and good-will. The mine will be kept in shape for a re-opening in the spring, though no work is contemplated for this winter. It was pointed out at the meeting that the Northern, the holding company now of the property,—is desirous of doing extensive development work on the Thompson-Krist.
