

## TENDERS CALLED FOR T. & N. O. EXTENSION

Contractor Will be Required to Complete Road by the End of 1923.

According to despatches last week from Toronto, the T. & N. O. Railway Commission after a long conference with the Drury Government, decided to call at once for tenders for the construction of the proposed 70-mile extension of the Provincial Railway to Tin Can or Oil Can, on the road to James Bay. Contractors will be invited to submit bids for the construction of the whole line, including all preparatory work and everything entering into the completed railway. Further, according to these Toronto despatches, Chairman Geo. W. Lee, of the T. & N. O., said that tenders must be in by January 8th, 1922, and that the successful tenderer will be required to complete the first 40 miles from Cochrane to the Abitibi by the end of 1922, and the whole line by 1923. The cost is expected to be \$3,000,000.00. All this, of course, applies only to the section as far as Oil Can Portage some 70 miles from Cochrane. The

rest of the way, on to the Bay, is a different lay, or so they say, and many a day, will pass away, ere the line has sway, from Bay to Bay,—a shut-up. Still further Chairman Lee is credited with saying that the new extension will open up one of the finest agricultural areas in the north country, also great timber areas and almost unlimited water powers. It is estimated that at Tin Can Portage where the present proposed extension is to stop for this time, there are water powers that may give 200,000 horse power.

At the conference in Toronto between the T. & N. O. Commission and the Government, it is understood that the electrification of the T. & N. O. Railway was discussed, but this is not likely to be more than considered and discussed for some time.

In addition to the agricultural, timber and water power possibilities of the territory to be served by the T. & N. O. extension on to Oil Can, the advocates of the extension also believe that some of the greatest gypsum deposits will be opened up, and that waters of James Bay, open eight months in the year, will create a prosperous fishing industry. As to these things all in the North Land will very sincerely hope they are so, and even more so.

## "GOODLESS MEN" AT THE NEW EMPIRE THIS WEEK

For the first time in the history of this well-conducted theatre "Goodless Men" will have full swing at the New Empire Theatre on Friday and Saturday of this week. After these two nights of "Goodless Men" the theatre will no doubt go back to its record of law-abiding gentlemen.

"Goodless Men" is quoted as the best sea picture ever made. Its plot is out of the ordinary, based on emotions that go beyond love or hate. The chief character is "Black Pawl," a skipper hated and feared on the seven seas. His first mate is his son, "Red Pawl," reared in hatred and bitterness, and like a wolf-cub, awaiting his chance to overpower his father and take command himself. There is a terrible fist fight between father and son. The father wins but is struck down from behind; then come thrilling scenes as the ship battles with storms and danger; and a climax not easily to be forgotten. Helene Chadwick takes the only woman character in the cast. The supporting cast is a particularly strong one.

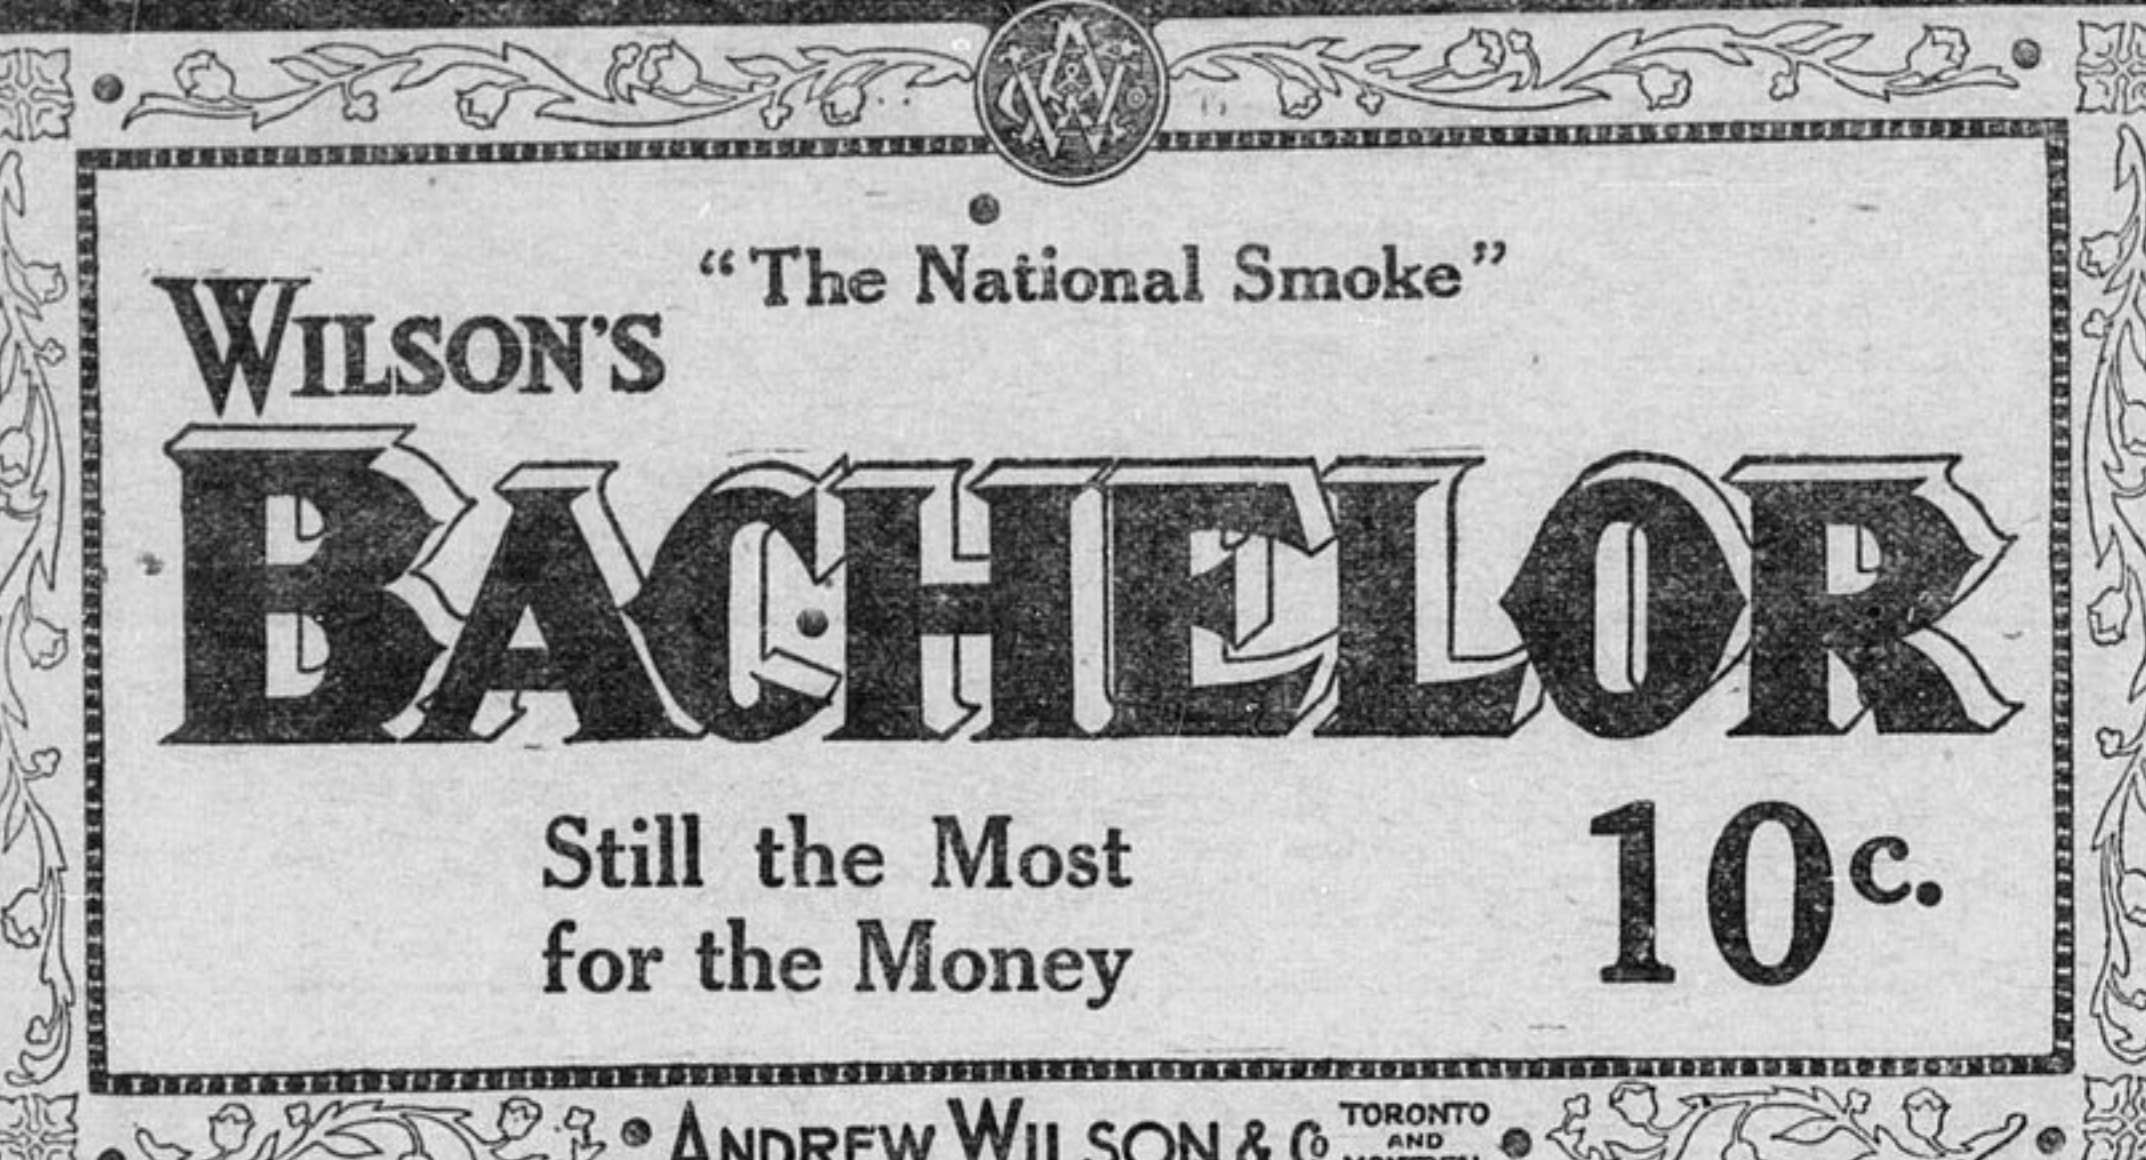

Mr. D. Allen, of the Northern Ontario Light & Power Co., Cobalt, was a Timmins visitor last week.

## MR. BERTRAND AND 64 OTHERS TO LOSE DEPOSIT

Mr. D. Bertrand, of South Porcupine, who was an Independent Liberal Farmer candidate in Temiskaming at the late lamented Dominion election is not the only one to lose his deposit, though he loses by a somewhat larger majority than most of them. The law requires that a candidate should receive at least one half of the total vote cast for the successful candidate. Mr. Bertrand only polled about 150 votes, while the winning candidate in this riding received close to 6000. Accordingly Mr. Bertrand will not get back the \$200.00 that each candidate has to put up on nomination day. This money goes to the Crown, there being a special fund to receive it. Mr. Bertrand's two hundred dollars will make a good showing, being chiefly in one and two dollar bills and other paper money of small denominations. And there will be many other \$200.00 contributions, no less than 65 candidates losing their deposits in the Dominion in this election. Thus the treasury is enriched to the tune of \$13,000.00. There were 19 Progressives, 18 Independents, 12 Conservatives, 9 Labour, and 7 Liberals to lose their deposits through the small number of votes polled.

The Crown Reserve are diamond drilling on some claims in McVittie Township, Larder Lake area.

At a special meeting of the Sudbury Board of Trade last week a resolution was passed requesting that Provincial Police Inspector Storie be retained with headquarters at Sudbury. As noted in last week's Advance a re-organization of the Provincial Police transfers Inspector Walter Moore, now of Cobalt, and formerly of South Porcupine, to Sudbury with charge of the Provincial Police in Sudbury, Nipissing, Temiskaming, Macitoulin and Algoma, Inspector Storie going to another district with headquarters at Belleville. It is easy to see that the Sudbury people do not know Inspector Moore or they would be as anxious for him to go there as this part of the North Land is regretful to lose him.
