

TRAPPERS! For Your Convenience SHUBERT Has Opened a Depot at FORT WILLIAM ONTARIO

Trapper Bill says:
Shubert is a good
house for you.
They are always
looking out for the
interests of their shippers

ONCE more "SHUBERT"
comes to the front with a
convenience for fur shippers.
As usual, "SHUBERT" is
looking out for your interest.

In order to eliminate for you the necessity of obtaining
export permit and the payment of royalty—to make it possible
for you to get "more money"—"quicker" for your
furs, "SHUBERT" has opened a Fur Receiving Depot at
Fort William. All you have to do is PACK UP YOUR FURS AND SHIP
THEM TO A. B. SHUBERT, LTD., FORT WILLIAM, ONTARIO. NO
PERMIT REQUIRED FOR SHIPMENTS WITHIN THE PROVINCE.

"SHUBERT" is paying extremely high prices for Mink,
Beaver, Marten, Fisher and all other lawfully taken fur-bearers. We want all
the furs you can ship, but we must have them—QUICK—so get after 'em
and ship 'em to "SHUBERT" as fast as you get 'em.

TODAY IS A GOOD DAY TO GIVE "SHUBERT" A TRIAL

SHIP ALL YOUR FURS DIRECT TO
A. B. SHUBERT LIMITED
THE LARGEST HOUSE IN THE WORLD DEALING EXCLUSIVELY IN
NORTH AMERICAN RAW FURS
FORT WILLIAM DEPT. 137 ONTARIO

SKEAD GOLD MINES NOW GET READY TO INSTAL PLANT

Ground has been broken for the necessary buildings to house the new plant to be erected at the Skead Gold Mines. It will contain two 60-horse-power boilers, one 12 by 9 compressor, one 8 1/2 by 10 hoist, and five machine drills. It is proposed to sink a shaft to a depth of 500 feet. Tests are now being made of the ore at the Government laboratory at Cobalt. There are high values in both gold and copper. The country rock is an Andesite porphyry.

TWENTY STAMP MILL TO BE INSTALLED AT TRIPLEX

It is understood that the Triplex Mine has purchased a 20-stamp mill and intends to have it carted to the mines this winter and installed at an early date. This mill will have a capacity of 60 tons per day. The Triplex Mine was recently known as the Two-in-One Gold Mines and previous to that as the Tommy Burns. The property is in the Township of Shaw, some ten miles from South Porcupine.

SOME IMPROVEMENT NOW SHOWN IN PULPWOOD TRADE

The following paragraph is what may be aptly termed "glad tidings," or at least "good news," it is from the last issue of The Cochrane Post: "It is gratifying to notice that the pulpwood business is beginning to pick up again, and operations are going on now in various parts of the district. The demand for cars is coming in more regular now, and shipments are once more commencing to become regular, both along the T. & N. O. and C.N.D."

CENTRAL EXECUTION PLACE MAY BE AT BURWASH

The Farmers' Government is always taking the joy out of life. Their latest proposal to spoil the world for many is in regard to the proposal to have a central execution place for the bumping off of murderers and, perhaps, later, those who break the O.T.A. or the L.D.O., either of which breaches Hon. Mr. Raney considers much worse than ordinary murder. Burwash has been an ideal retreat for those who can no longer stand the tyranny and the narrow-mindedness of the boobs and rubes now domineering over this Province. The food at Burwash is of the very best in quantity and quality, the prisoners are all well treated in a kindly way, those in charge of the institution show very commendable good sense and humanity, and altogether Burwash has won very general esteem from those who have visited this resort. At Burwash only one guard is necessary at night; the men do not want to escape; all is peace and quietness at Burwash. And the Farmers' Government couldn't stand for people to be so contented, even in jail. So they are going to rack the nerves of the folk at Burwash by having executions there, scaffolds and dear knows what. It's a shame. Why not have that central execution place at the Queen's Park, Toronto?

Speaking at a meeting at Princeton in the campaign in the North Oxford provincial by-election, Hon. H. C. Nixon, provincial secretary, informed the audience that a proposition for having a central execution place for condemned murderers had been considered, and would in all probability be made the subject of legislation at the next session of the Provincial Legislature. The proposal, said Mr. Nixon, was to have this central place of execution located at Burwash, where it could be carried out without much additional staff or expense.

LIFE PRESERVER CO. EXTENDS SERVICE

Send Ever Warm Safety Suit
Throughout World.

Arrangements have just been concluded by the National Life Preserver company, of 11 Broadway, for the distribution in Great Britain and her colonies of the Ever-Warm Safety-Suit, the life preserver suit invented by O. A. Youngren, who is now president of the company.

Following its policy in organizing foreign fields, the company has now formed a subsidiary company in England, in which prominent business and financial men in that country are actively interested and which will handle the manufacture, sale, rental and general distribution of the Safety-Suits for the United Kingdom.

Similar subsidiary companies are being formed by the National Life Preserver company in the other countries of Europe, in South America and the Orient, which makes the production one of international moment, and gives the parent company an international chain of operating subsidiaries encircling the globe.

The Safety-Suit has been acclaimed as the most successful device conceived up to date for the preservation of lives at sea because of its unique feature of protecting the wearer from wet and cold, at the same time that it provides indestructible buoyancy sufficient to keep afloat indefinitely not only the wearer but a number of other persons besides. The suit in conjunction with the wireless telegraph now carried on all ocean liners, is declared to give a most complete guarantee of safety to water travelers, yachtsmen and marine men.

The history of the Ever-Warm Safety-Suit is a most interesting chapter in the record of sea life-saving. Mr. Youngren was inspired by the idea of a waterproof and cold proof suit while on an ocean trip a few years ago when through his experiences he was impressed with the necessity of protection for persons in an open life boat, exposed to wind and spray, or floating about in a cork belt, in the cold water of the sea. His ideas were further confirmed when in the Titanic disaster, it was found that of the bodies picked up a large majority had no water in the lungs, death having resulted from exposure.

With this invention completed, he came from the west to New York and after grappling with many difficulties such as usually confront an inventor full of ideas and with an empty pocketbook, he finally succeeded in 1918, in organizing the National Life Preserver company, and thus securing sufficient capital to protect the patents in other parts of the world and to start production of the life suit on a small scale.

A system of leasing the suits to ocean travelers for their trips also has recently been instituted and with these foreign connections completed with Great Britain, France and other countries, another American invention is placed on an international scale and with benefit to all mankind.—From Evening Mail, New York.

HOCKEY PLAYERS GIVEN TRANSFERS TO N.O.H.A. TEAMS

Last week the Ontario Hockey Association met in Toronto, with Mr. A. E. Copeland, president, in the chair, and Mr. Angus Campbell, Cobalt, representing the N.O.H.A. The executive granted a number of certificates to players giving them amateur standing. The senior schedule for the season was approved and adopted.

The following players were granted their transfer from the O.H.A. to the Northern Ontario Hockey Association; R. C. Green, Sudbury; Fred J. Cook and C. E. Stock, Sault Ste. Marie, Ontario; A. V. Koster, Porcupine; Andrew R. Patten, Little Current; George Foulis, Espanola; and A. Y. Gemmill, Cobalt; D. P. Spence, Cobalt.

FARMERS WANT THE GOVT. TO FIX THE FIGURES NICELY

At the U.F.O. Convention in Toronto last week a resolution was introduced asking the Government to prepare the financial statement of the Province in such a way that the receipts from Northern Ontario and the expenditures on this part of the Province will be clearly shown. The Government can easily and cheerfully do this. Some time ago Premier Drury quoted figures along this line. It is said that "figures do not lie." Also that "hars may figure." At this jovial season of the year no one would like to suggest that anybody else is a fabricator or falsifier, but a healthy politician can sure twist-naughts to make them look like eights and round out nines to make them look like zeros.

Timmins Gold Nugget Rebekah Lodge, No 173

Meets every 2nd and 4th Thursday in the Oddfellows' Hall, Third Avenue.
Visiting Brothers and Sisters always welcome.
