

MASS FOR HIS HOLINESS, THE POPE, AT R. C. CHURCH

Masses for the repose of His Holiness the Pope were said this morning at St. Anthony's R. C. church, large congregations turning out for the services.

EXPERT SAYS JACKPINE USEFUL FOR NEWSPRINT

Mr. Maurice Neilson, of the Belgian Industrial Company Limited, in an address to the technical section of the Canadian Pulp & Paper Association at its annual meeting in Montreal last week said that it is quite feasible to use jackpine in the manufacture of newsprint paper. He stated that his company had been carrying on extensive experiments with jackpine, under both the sulphite and wood-ground process, and had met with considerable success. The point was brought out in discussion that available spruce forests were being rapidly depleted, and that the consequence was longer hauls, more expensive wood and a higher-priced wood at the mill. Jackpine, on the other hand, is plentiful, cheap and attains commercial size forty years earlier than spruce, according to the reports of the discussion at the meeting.

If Mr. Neilson's contention is correct and jackpine can be used for papermaking it will mean considerable to the North Land.

INTERMEDIATE SCHEDULE BEING RE-ARRANGED

The Intermediate Schedule of hockey games has been slightly changed. As a result of the changes for the general convenience of the three clubs concerned, the game scheduled here for last night between Cochrane and Timmins has been postponed, as has also the game scheduled between Timmins and Cochrane at Cochrane on Friday of this week. These games will be played later, the dates to be announced shortly. Last week Cochrane played at Iroquois Falls and this week the Falls plays at Cochrane.

HOCKEY SPECIAL TO FALLS THIS EVENING AT 5.15

The hockey special for the game, Porcupine vs. Iroquois Falls, at the Falls this (Wednesday) evening, will leave Timmins at 5.15 p.m. The special will leave the Falls for the return trip, immediately after the conclusion of the game. The fare for the return trip is \$2.65.

This game will be a rip-snorter, as the Porcupine team is going down all set for a win. A swift and well-contested game is assured, and the winners, Porcupine or Falls, will have to go some to win. Everybody that can go from Timmins and district should take in the trip and help in the cheering on to victory of the Porcupine team. There is sure to be a big crowd on the trip as the game promises to be the liveliest yet.

SEE THAT YOU HELP ON THE ADVANCE OF THE ADVANCE

How is your subscription this evening? Is The Advance in shape to continue to advance to your address? Look at your label! The first figure after your name refers the month, the second figures to the year. For instance, if your label reads "John Brown 2-22," that means that your subscription is paid to the second month of the year '22, or in other words to February, 1922. That also means that prompt action is necessary to continue the advance of The Advance to your address. The rule of The Advance is to stop all subscriptions as soon as they expire. The only way that we can be sure you wish the paper continued is by your sending in your little two dollars if you live in Canada, or your little three dollars if you live in the U.S.A. Look up this matter at once. If you wish The Advance to continue advancing to your address, advance that subscription at once. In short, do it now. Say it with two dollars or three, as the case may be.

IROQUOIS FALLS WON 9-1 FROM LISKEARD SATURDAY

On Saturday evening last Iroquois Falls maintained its winning streak by another victory over New Liskeard on the farmers' own ice, the score being 9 to 1. Those seeing the game, however, do not consider the score any real indication of the play. The best team won all right on the play of the evening, but they had no walk-away. The Falls had to work every minute for the victory. Had it not been for crack goal tender of the Falls, Corbould, the score might easily have been much different. Corbould had great support from Brydye and Wilson on defence. They know how to keep them back. Fahey on the front line played an effective game for the Falls, scoring three out of the nine goals. Flaker and Quesnell each are credited with two goals. Yankoski and Chirooski each played a good game. For Liskeard Spence was the best man, his stick-handling and checking being features of the game. Thompson was checked so closely that he had no chance to get going. Epplet, Burns, Robertson and Wilder worked hard for the farm lads. Fred. Bailey of North Cobalt, and Ken Carmichael, of Haileybury, were the officials for the game and one of their first moves was to stop the rough stuff by prompt penalizing of those responsible. Without them the game would likely have been rough, much of the rough stuff having been seen at the opening.

FALLS STARTS OUT WINNING IN HIGH SCHOOL LEAGUE

Iroquois Falls has a sure-enough winning streak on this year in hockey. The Falls has apparently a half a dozen different teams in different series in the district and they all seem to be coming out ahead. The Falls school team is even heading the High School hockey league. In this league the Falls boys played here on Saturday evening and defeated the Timmins boys by a score of 5 to 2. There was a big crowd out for the game which was an interesting one, though the Falls team had the locals pretty well outclassed on the play of the evening. The Falls boys showed the effects of practice and coaching and put up a nice brand of hockey. The centre man on the Falls forward line was specially worthy of note. He was a clever stick-handler, a speedy skater and seemed to have lots of hockey brains. The Falls team also was blessed in a clever goal tender. Timmins team did not appear so seasoned in the game, but there is lots of promising material and as the season advances the boys may be expected to give a mighty good account of themselves. They all showed a right spirit of good sport and worked hard. The line-up for Timmins High School was as follows:—Downey, goal; Neill and Boyd, defence; Sterling, Lawrence and Kari, forwards; Bradburn, Studor and Racicot, spares. Now that they have started they will carry the game through and the Falls will have to look to its laurels in this league.

Mr. W. G. Smith gave general satisfaction as referee.

Mr. J. W. Day, Principal of the Falls School brought the boys over here for the game. The previous Saturday this Falls team had been scheduled to play at Monteith, but when they got as far as Porquis Junction they found no trains running on account of the wreck on the T. & N. O. "We should not disappoint the Monteith boys; they expect us," was the way the Falls boys looked at it. So they WALKED the seven miles to Monteith; playing the school team there and defeating them at that, coming back home on the evening train. A bunch of boys like that take some beating in sport, eh?

SAW DOUBLE

A Scotch minister and his friend, coming home from a wedding, began to consider the state in which their potatoes at the feast had left them. "Sandy," said the minister, "just stop a minute till I go ahead. Perhaps I don't walk steady, and the guid wife might remark something not right." He walked ahead for a short distance and then called out: "How is it? Am I walking straight?" "Oh, aye," answered Sandy, thickly, "ye're a' reecht—but who's that with ye?"

THEY SWAPPED

While visiting friends in Montreal, a young Torontonian was presented with a quart of whiskey. He decided to take it home in his suitcase. As the train neared Toronto he became more and more nervous. Finally, in desperation, he confessed his fears to a fellow traveller. This kindly individual offered to trade suitcases and assume all responsibility. The young man was vastly relieved, and the change was made. An hour or two later the two met outside the Union Station, on Front Street. The young man was exceedingly grateful. "By the way," he observed, as they exchanged again, "you must have a lot of things in your suitcase. 'It's awfully heavy.'" "Yes," said the stranger, "I have twelve quarts in mine."

Stan. Burgoyne, who coached the Iroquois Falls N.O.H.A. team last year and the Sudbury team the year before, is coaching the Preston, Ont., hockey team this season.

Provincial Inspector Blackwall is said to be the very first automobile owner in the North Land to secure an automobile license for 1922. Apparently the Inspector intends to be right ready as soon as the break-up comes.

THE WEAKER SEX

Is that portion of the human race that goes down town in zero weather. In a half-mast lace waist and pumps To buy a muffler and woolen socks So her husband can go to work.

COLD STORAGE SPORT

The sportsman went for a day's shooting. Not being a particularly good shot, the bag was nil, and as he did not like to return empty-handed, he bought a hare in the town on his way home.

He presented it his wife, who, after expressing her thanks, thoughtfully remarked:

"It was a good thing that you shot that hare when you did, John; it wouldn't have kept another day."

BOTH IN

"We get some sad cases," said the attendant at the lunatic asylum to the visitor, and opened the door of the first cell.

Inside was a man sitting on a stool and gazing vacantly at the wall.

"Sad story," said the attendant; "he was in love with a girl, but she married another man, and he lost his reason from grief."

They stole out softly, closing the door behind them, and proceeded to the next inmate. This cell was thickly padded, and the man within was stark, staring mad.

"Who is this?" inquired the visitor.

"This," repeated the attendant—"this is the other man."

This week a general meeting of fraternal societies, church members and other organizations, and the public generally, was called for last night at Cobalt to arrange the best methods of relief for the out-of-workers and other sufferers in Cobalt.

MEN AFRAID OF CRITICISM—HENCE CONVENTIONAL ATTIRE

W. L. George, the English novelist insists that women are not afraid of conspicuous fashions because it makes others stare at them. (Hear! Hear! Cry all the men,) although this is the governing reason behind man's conventional clothes. The mere matter of another's likes or dislikes play a considerable part in the acceptance or rejection of a garment. Men go in deadly fear of what their fellow men think of fashion, which is the reason the bravest refuse to change a straw hat for a felt one until the appointed hour.

A woman serves her own rebellion against law and order by wearing furs in summer and chiffon in winter. Women are restless and men are content with things as they are. It is this acknowledged restlessness that finds its semi-annual change in fashions. And how and where is the time for the change; not the decisive change which always appears about March, but the swing from the clothes we have worn since September to the kind we hope are forerunners of what we are to wear next summer.

Man would go on content from season to season, taking his old clothes from the closet and thanking heaven he does not have to buy a single garment; woman welcomes the month of February because it gives her a chance to blame the climate and buy new things for another climate.

WELL! WELL!

Willie—"Mother, my Sunday school teacher never takes a bath."

Mother—"Why, Willie, who told you that?"

Willie—"She did. She said she never did anything in private that she wouldn't do in public."

NORTHERN DEVELOPMENT BRANCH

Seed Grain

NOTICE TO SETTLERS

Registered patentees or locatees may obtain Seed Oats and Wheat at the lowest cost price, not exceeding \$100 in value for each settler.

Forms of application may be obtained from the Crown Lands Agent, or the District Representative of the Department of Agriculture, or from the Northern Development Branch, Parliament, Buildings, Toronto.

The applications must be properly filled in, and returned to the Local Crown Lands Agent not later than March 1st, 1922.

BENIAH BOWMAN, Minister of Lands and Forests.
