Here's Lighter Weight—Longer Wear—Better Value

Wearing rubbers all day is tiresome, but since rubbers are necessary, why not wear Ames Holden Rubber Footwear? Each pair combines the least weight with the longest possible wear.

This longer life is built into each pair with pure rubber, pressure cured, and extra strength where the wear comes. See the heavy ribbing under the laces. This is only one of the many special features that make it possible for us to back up the sweeping guarantee on every pair.

The men who design and make these shoes have been working out your footwear problems for years. Their knowledge of materials and rubber shoe-making makes Ames Holden Rubber Footwear the greatest value you can buy. Let us fit you with

Look for the Ames Holden mark on every pair

AHM System

foundation where it can be neither jarred nor tainted, then, to the success which it cannot help but attain. To get these results we must first of all have UNITY, and to get this my idea would be to have all amateur sports controlled and financed from one body composed of one representative from each club and one from our Town Council and one from the Board of Trade. I think that if the Town of Timmins adopts some such a plan as this, then we cannot help but have far better success in the future than in the past, with less expense to everyone concerned. I do not think I will have anything more to say at present, but I would like to hear what some of the other sports lovers of this town think about the present system of athletics and their hopes of the future. Thanking you in advance for the space in The Advance hoping to advance, I will sign myself at present,

Note:—The writer of the above has taken a liberty in the choice of the nom de plume, "Advance," as there is only one "Advance."—The Porcupine Advance, and the writer of the letter has no connection with this paper, except as a subscriber and good friend, and of course does not advance the opinions of The Advance, except in some particulars. However, he does advance for good ideas for the advance of the sports of the district and so may be forgiven his presumption in adopting the pen name he had the temerity to take. Whether his plan of having one central body to handle the finances of all sports in the town is practical or possible at the present time is certainly a matter that will be questioned by many who feel that each sport should depend upon its own support and the efforts of its organizers to enlist public interest. At the present time there is a central body.—The Timmins Amateur Athletic Association,—to oversee all sports though each club looks after its own finances. With the idea that "In Unity there is strength," there will be very general agreement and all good sports will support The Advance and this new Mr. "Advance" is working for this unity and co-operation that means advance in the line of all good sports.—Editor The Advance.

RUMOR THAT HENRY FORD HAS BOUGHT NICKEL PLANT

A rumor is in circulation to the effect that the famous Henry Ford of Tin Lizzie fame has secured control of the British-American Nickel Corporation whose property is at Murray, four miles from Sudbury. It is understood that Mr. Ford will build a mixer factory there and will manufacture the road teasers for North Land users. Mr. Ford is the gentleman who made automobiles famous the easy way,—by advertising. He has undoubtedly a long head and recognizes the possible and probable rapid growth of the North Land. Accordingly the idea is that he is taking time by the forelock and getting in on the ground floor, as it were.

HOUSE FOR SALE—6-room bungalow to 82 Elm street. —2-5p. low, all hardwood throughout; cement basement, with furnace. Apply to
