**NEW YORK INTERESTS TO CONTROL MONETA MINE?**

In the absence of official denial to the contrary, there is a general disposition to accept as a fact the report that New York interests are completing plans to take over the controlling interest of the Moneta Mine. It is understood that a block of half a million shares of treasury stock will be taken over by important New York financiers and ample finances put behind the development of the Moneta. The Moneta has given very promising indications from exploration work on the property and it will generally be considered as most favourably located. Accordingly, there has always been a special interest in this property and a general desire to see it under active development. It is generally understood that as soon as the New York interests are in control development work will be taken up on an extended scale. This will mean a very early opening of the Moneta under favourable auspices.

**MAJOR MAC LANG SITTING WITH INDEPENDENTS NOW**

Major Mac Lang, M.P.P., for this riding, according to advices from Toronto, is now sitting with the Independents in the Ontario Legislature, instead of with the Liberal members of the house as heretofore. According to a despatch from Toronto appearing in The Northern News of Cobalt, "Major Mac Lang, M.L.A. for Cochrane Riding, by sitting on the cross benches, heads a movement which will result in half of the Liberal members repudiating Wellington Hay's leadership, according to the best political gossip here. Other desertions are expected quickly, because of Mr. Hay's pro-Dairy attitude and these will include all of the Liberal members from Northern Ontario." Mr. Lang has not yet given any public announcement to his constituents in regard to his change of position in the House. This announcement, however, will likely be made at an early date and the electors of Cochrane Riding will no doubt then be given full explanation in the matter. In the mean time, however, the general tendency is to bank on Mac Lang. He is very popular in the constituency, and his vote in the elections is by no means confined to the followers of any one party.

Mr. J. H. Simms, formerly of Timmings, but for the past couple of years living at North Bay, has returned to the Camp.

**TRAVEL 'THE NATIONAL WAY.'**

The Canadian National Railways, Canada's all-Canadian trans-continental route, is the new way across the continent. In addition to the fact that the territory traversed is unsurpassed in scenic interest and grandeur the Rocky Mountains are crossed at the lowest altitude and easiest gradients of any trans-continental railway in America, and at the same time Canada's highest peaks, including Mount Robson are in full view from passing trains. "The Continental Limited" one of the finest long distance trains in the world is operated every day between Montreal and Vancouver. In its journey of nearly three thousand miles across Canada it traverses six of the provinces of the Dominion, and directly, or through its connections reaches all centres in Western Canada and on the Pacific Coast. This train is made up of all-steel, modern equipment and affords the traveller the opportunity of making the trip in a splendid tourist sleeping car at a minimum cost, or if taste dictates the more sumptuous standard sleeping cars or compartment-observation-library car may be enjoyed. The dining car service is unexcelled.

"The National Way" is the new way. Post yourself on its advantages when contemplating your next trip. For reservations and full particulars apply to Local Agent, E. & N.O. Ry., Timmings, Ont.

Mr. R. S. Cassels of Toronto was a visitor to the Camp last week.
