PLEASE, MR. T. & N. O. HURRY ON THE SUMMER SERVICE

The service on the T. & N. O. these days is proving sadly inadequate, especially on this Porcupine Branch. This is particularly true of the noon train from here which seems to be overcrowded every day. The overcrowding is so evident that nearly every day there are complaints that passengers have to stand after presumably paying for a seat. There are also complaints as to the inadequacy of the service in other ways, though no complaint has been made as to the insufficiency of dust in the cushions. It would appear that the T. & N. O. would do well to hurry on the resuming of the regular summer train service. A train service similar to that of last year would be welcomed by the public. The T. & N. O. Commission, as at present constituted, deserves credit and appreciation for the earnest way it has endeavored to meet the needs and desires of the public. It is to be hoped that it will continue this good record by improving the present inadequate train service at the earliest possible moment. Many thanks!
