FIRE BRIGADE HAD TWO CALLS ON TUESDAY LAST
 Tuesday afternoon last the Fire Brigade had two calls, responding to both with the usual extra promptitude. The one was for a chicken coop at the rear of Mr. F. Mahon's on Balsam street. The cause of this blaze is not known, but it was a smoky fire all right. Mr. A. Taylor got the chemical tank from Mr. D. Laprairie's store and kept the blaze down until the brigade arrived. The result of Mr. Taylor's good work was that the fire did not get away at all and the brigade had no trouble and took little time to put it out altogether with chemical tanks. The other fire was at Mr. Laveroux's No. 1 Elm street. This was caused by a mattress on fire in the attic. The mattress was thrown out and the fire extinguished by another touch of the chemical tank. The origin of this fire is also unknown. Practically no damage was done in either case. The both little blazes were promptly reported as soon as noted. That is the way to prevent all chance of big fires. Take them in hand young! Also, the Fire Chief compliments the chemical tanks on their efficiency. "They are dead shots for small blazes," he says.

The Northern Lights Orchestra, of which Mr. F. Wolno is leader, made a decided hit at the Victoria Day Dance in the McIntyre Hall, Schumacher, last Wednesday evening. The Dance itself was a big success, about a hundred couples being present and all having a good time. The music was something special in the way of catchy dance music, according to the general verdict.

DISTRICT NOTES

The North Land, and particularly this northern section, will be satisfied with nothing less than the summer service that was given by the T. & N. O. last year.

The Holly Jazz Orchestra will furnish music at the Dance in King's Hall Saturday night. This is a new combination and Tom is giving them all a try-out.

It is understood that both the Hayden and McEnaney Mines in Ogden have recently acquired additional claims, thus adding to the potential value of both these promising properties.

A large party of those interested in the March Gold Mines in Deloro have been in the Camp this week, visiting the property. All were delighted with the prospects of the country in general and the March Gold Mines in particular.

Mr. John Callinan and a number of the directors and others interested in the Callinan-McKay Exploration Co. and other enterprises concerned with mining in this district are visiting the various mines and viewing different prospects and properties.

The Ladies of Charity are giving a Pie Supper and Euchre in the K. of C. Hall, Timmins, on Thursday (tomorrow) evening June 1st. For the cards there will be an attractive array

of beautiful prizes, while the Pie Supper will be up to the usual high standard set by the Ladies of Charity in the way of refreshments, etc.

The special feature at the New Empire Theatre on Friday and Saturday of this week, June 2nd and 3rd, is the play, "Rip Van Winkle," founded on the famous story of the same name. The story is one that is particularly adapted to the art of the motion picture and the film should be a specially interesting and pleasing one.

The Eastern Star observed the first anniversary of the founding of their lodge by a social evening at South Porcupine on Monday night of this week. The evening proved a delightful one, there being a large attendance and all having a very pleasant evening.

A man representing himself as connected with the Ontario Department of Education is reported as taking subscriptions for magazines at Burk's Falls, Sundridge and other northern points and when receiving cheques would have the cheques "marked" by the bank, after which he would "raise" them, thus defrauding the teachers concerned. The moral is that even teachers should not trust subscriptions to smooth travelling gentlemen. Indeed, it is the part of real economy, it seems, to subscribe for magazines through local agents. Any of the book stores will look after any subscriptions, and the subscriber will have the certain assurance that he or she will be the only one who will "raise" the amount of any cheques given.

ONE WAY TO MAKE AND SAVE MONEY

One little want advertisement in The Advance a couple of weeks ago netted the advertiser the round sum of \$200.00. Another man sold an article at a fair price when he did not want the article and he did need money. A lady got a maid, and a maid got a position, both very pleased. A stranger rented a needed room, and an old-timer found a convenient way of increasing his income. All in one week. And so it goes, from week to week, and in scores of different ways. Very evidently The Advance want advts are read and bring results.

It is the same way with the other advertising in The Advance. It brings results. You do your part and The Advance will bring results that will make and save you money. The public is becoming educated to the fact that only the firms that are not afraid to advertise are safe to do business with.
