## Picture Show For Schumacher

Realizing that there are enough lovers of picture plays in Schumacher to warrant the presentation of them three nights a week the management of the Empire Theatre have leased a new building which is being erected at that place for this purpose. This is close to the railway track and will be about 65 feet in length with 40 in width thus affording ample space for comfortable seating accommodation. A date cannot yet be named for the actual opening but it is learned that the same service of excellence as that provided in Timmins will be extended to patrons in the Schumacher house of amusement.

### HOW TO HELP A TOWN.

The man who has the welfare of his town at heart should remember that level-headed practical business men comply in a code of words which are called to mind by the following crumb dropped by Horace Greely in an address delivered in an ambitious western town:

Order your goods from New York.

Buy of peddlers as often as possible.

Go to some other place to get your job printing done.

Contribute what news you have to any but home papers.

Glory in the downfall of some man who has done much to build up the town.

Patronize out of town papers to the exclusion of your own and denounce them for not being as large and as cheap as city papers.

Attend the services of some minister who lives in a bigger town and has a bigger salary, and let the home preacher live on sawdust and needles. It's fashionable you know.

The work of the clean-up and the paint-up campaign can be made a great success by everyone taking part in it. Cleanliness is one of the most essential things in right living so let us give heed to the clean up movement.

There are other forms of foot-and-mouth diseases besides those treated by veterinarians. For instance, the statesman who overworks his mouth and gets his foot in it.

The evolutionists have for a long time been trying to find the missing link—just where the ape drops his caudal appendage and turns to a man. They have never been able to propagate that species, but the inventor has been more fortunate for he has found the missing link in the farm implement business. The time was when the small farmer boy's dreams were haunted with the thought of when harrowing time came; and when it did come he felt at night like he was worn off up to the knees, but that time is past. Now the old man can harrow, seated on his harrow cart, and do better work and with all ease.

Now is the time for you to paint and fix up and make home look as if there was a little enterprise around you. Take the garden rake and collect all the old rubbish of 1914 in a pile and set fire to it—don't burn the house down in the operation—and let it be burned up and never to collect there again.

Ask your dealer to duplicate the price of the strolling merchant or agent and see with what clarity he will do it and then, don't you see, if the goods are not right on the mark as represented he is right here to make it right; the other fellow, where is he?

Now is a good time to take a glance over your back yards and devise some plan to estrange the fruit cans and rubbish which have accumulated since the last installment was removed.

"Would you love me as much if father lost his wealth?"  
"He hasn't lost it, has he?"  
"No."  
"Of course I would, you silly girl!"

## LIVE BOARD OF TRADE EXISTS IN TIMMINS

### Delegation of Members to Meet Council on Monday to Discuss 'Roads Question'

That the Timmins Board of Trade is becoming a live organization is borne out by the fact that the various members show such active interest in its doings and attendances are very encouraging.

At the last gathering President D. Ostrosser presided when a resolution was passed directing the secretary to write Mr. A. J. Parr, of the T. and N. O. Railway, drawing attention to the fact that it would be a privilege in this vicinity if week-end tickets would allow of returning the date of issue or any time before the date of expiration.

Another letter to be sent to Mr. Parr will refer to the matter of tourist tickets as, at present, these are not issued to Timmins, for some reason or other not definitely

known, while South Porcupine is extended the privilege.

In order to discuss the question of roads with the Timmins Town Council the following delegation from the Board of Trade was appointed to meet the Council at their next meeting on Monday night the 7th, Messrs T. King, George Preston, H. J. Marshall, and P. M. McLaughlin.

The Board of Trade meetings are called regularly for the first Friday in each month and therefore to-night will be the occasion for this month's gathering. Unfortunately, so far as a report of this meeting is concerned, The Advance will have been issued but next week's edition will contain all particulars.

### THE "SPOILERS" SHOWN IN MOVING PICTURES

As was anticipated by the management of the Empire Theatre at Timmins the announcement that the "Spoilers" would be presented by photoplay met with eager endeavours by the picture loving community to witness the production.

Crowded houses were seen at the first presentation on Thursday evening and are made up in nine reels, will be thrown on the screen to-night and to-morrow.

It is claimed that this photoplay was the first motion picture ever shown in Canada and consequently its popularity must have been extraordinary when its presentation continues to draw such large bookings. Specially interesting it is to this part of the country because the scenes are laid in the mining district of Alaska. Among the sensational features are the dynamiting of a whole town—specially interesting just now because of the recent narrow escape of Cobalt—a volcanic earthquake extraordinary. Those who have not already paid a visit to see the "Spoilers" this week should take advantage during these last two evenings of the production.

### MISS GERTRUDE WHEELER NOW MRS. A. MANSFIELD

The English Church at South Porcupine was the scene of a pretty wedding last Tuesday evening when Miss Gertrude Wheeler, daughter of Mr. and Mrs. S. Wheeler became the bride of Mr. Archibald Mansfield.

Rev. U. A. Brown was the officiating clergyman and there were present over sixty relations and friends of the contracting parties.

The bride, who was attired in white silk with veil and carrying a bouquet of white flowers, was attended by Miss Frances Tripp, of Cobalt, and the groom was supported by his brother, Mr. Cyril Mansfield.

Following the ceremony a wedding supper was held at the house of Mr. and Mrs. Wheeler to which a large number of friends had been invited. Both Mr. and Mrs. Mansfield are well known in the vicinity, the groom being connected with the T. and N. O. Railway. They intend taking up residence in South Porcupine.

### No Booze For The Training Soldiers

Niagara-on-the-Lake is made dry for a period of five months by an action of the Ontario License Board on the solicitation of the military authorities. The fact that this district will be made a perpetual training-ground throughout the year for military units, and that a number of hotels were in close proximity, influenced Colonels W. A. Legie and H. M. Elliott to ask the support of the board in protecting the men. After considerable deliberation, Chairman Flavell and his colleagues decided to close all the hotels from June 1 to October 31.

### Six Licenses Gone.

There are five hotels and one shop concerned. The ones which will close are as follows: Queen's Royal (H. Winnett, prop.); Niagara House (P. J. O'Neill); Lakeview (F. Addison); American House (T. Emright); Doyle Hotel (George E. Frizzell), and the shop of H. R. Doyle.

The action of the commissioners follows a statement made some time ago by the chairman to the effect that the board was prepared to co-operate with the wishes of the military authorities in protecting the soldiers from excessive drinking. It is not known whether similar steps will be taken in other quarters or not.

A raw boy without a dollar, present or prospective sparking a regular and talking about marrying is a spectacle for God and men. He should be reasoned with, and if he will not quit it until he is able to support a wife, and to know whom he loves, and the difference between love and chicken pox, he should be quarantined or put in a convent erected purposely for such cases. Nine-tenths of the unhappy marriages are the result of green human calves being allowed to run at large in the society of pasture without any yokes on them.

### GERMANS HAVE ANTI-GAS REMEDIES.

London, June 3.—A special to the Daily Telegraph from Copenhagen says: A Danish surgeon and scientist of the highest reputation has discovered what the German soldiers use to protect themselves against asphyxiating gases.

They employ a mask of twist or oakum, which they saturate with a liquid made of 10 per cent. hypophosphite of sodium and either a saturated solution of bicarbonate of sodium or 1 per cent. lime-water. To deal with the breathing difficulty they use a milligramme of atropin in the form of subcutaneous injection and oxygen gas.

### IN HUMOROUS VEIN.

Bob Davis stood under the dripping portico of a London hotel, peering out into the rain. He had then been in London for two weeks and he had almost forgotten how sunshine looked. A wet cab driver stood against the wall trying to keep out of the downpour.  
"Good gracious!" said Davis. "Does it always rain here?"  
"Oh, no, sir," said the cabman, "last Wednesday it hailed."

A Glasgow lawler was touring the provinces, offering for sale his marvellous cure-all mixture, and one day, when about to uncork a bottle for his audience to sample, he found to his disgust that his cork screw was missing.  
"Is there any gentleman in the crowd belongs to Glasgow," he asked, looking over his audience.  
"Yes, I do," came a reply, in an unmistakably Glasgow accent.  
"And me your cork-screw?" was the quick rejoinder.

Why don't the bank have big iron bars across the windows, asked a little boy of his father. "Hush," was the answer, "that is so the cashier will get use to them."
