AFTER TWO YEARS A SPASM OF MORALITY

Hits The Members of The United States Senate and Wm. Lorimer is Deposed

After about two years a spasm of morality has struck a small part of the United States, hitting one William Lorimer, junior Senator from Illinois, and after a long and bitter fight he loses his seat in the United States Senate for using corrupt methods and practices in his election.

The end of the long struggle to oust the senator came after six days of protracted debate in which Senator Lorimer himself had occupied the floor for three sessions, making an impassioned defence of his election.

The final vote upon the resolution offered by Luke Lea, senator from Tennessee, declaring the Lorimer election by the Illinois legislature in 1909 invalid. The adoption of the Lea resolution carried with it the senate's verdict that "corrupt methods and practices were employed in the election of William Lorimer," making his election invalid.

For more than two years the fight had been on to oust Lorimer from the seat in the senate as a representative of the State of Illinois. A constant newspaper agitation, investigations by two senate committees and one committee of the Illinois legislature, millions of words of testimony, and scores of speeches, have kept the case of Lorimer before the house.

Charges and counter-charges of bribery and corruption, crimination

and recrimination, indictments, trials and "confessions" galore, have filled the history of the case. The vote in the senate ended one of the most sensational legislative imbroglios that the country has ever known.

The vote ousting him was concluded at 2.05 o'clock last Saturday. The man who had occupied a seat in the senate since June 18, 1909, by the vote, passes out of the records and never officially has held a seat in the senate of the United States.

The staff and working force connected with the Big Dome mine are thoroughbred sportsmen. Their ball grounds and tennis court are about completed at an outlay of something over a thousand dollars.

ASSIGNEE'S SALE

In the matter of B. Burnaad, South Porcupine, Druggist.

Tenders are invited and will be received by the undersigned for the purchase of the stock of this estate up to six o'clock p.m., July 15th, 1912.

INTERESTING ITEMS FROM PORCUPINE

A canoe accident occurred on Sunday evening, when two young men were overturned on the east side of the lake. Beyond getting a wetting they escaped without further injuries.

By an error which occurred in last week's issue Messrs. Chapman and Tapp are reported to be building another Masonic Temple at Timmins. It should have read Messrs. Gordon & Davies at Schumacher.

It is expected that on his visit to Porcupine in August Mr. Rowell will be asked to pitch the first ball in a game to be played on the Porcupine ground on that date.

On the 11th inst., the anniversary of the great fire, Butch Burns rounded up a number of the boys and took them over to graveyard point to help fix up and somewhat improve the cemetery. To show the wholeheartedness into which they entered into the work a visit need only be paid to the ground. The names of those who helped the good work deserve mention. They are E. Connor, F. Roach, D. Dooley, W. Smith, A. Dooley, C. Glaneau, W. N. Burns, of the gasoline boat Marr, J. Paliser, F. Cassidy, H. Charlebois, H. Bentley and others.

A farewell banquet was tendered to Mr. Arthur E. D. Bruce, mining recorder of Porcupine, on his retiring from that position to join the colonization branch. The event took place on Saturday last at the Mulligan House and was attended by several well known men in the camp, who one and all came to express their sorrow on hearing of the departure of Mr. Bruce from Porcupine.

Mr. Bruce has been here since the camp was first started and has certainly done much towards the up-building of Porcupine. He was the first J. P. to administer justice in Porcupine, and no matter what the case was the parties were always sure of an impartial hearing. Mr. Bruce treating friend and foe alike, and never letting friendship stand in the way of his administration of justice to all parties. The above was fully borne out by the tokens of admiration and esteem towards him which was expressed by his hosts on Saturday last.

Several speeches were given in which all expressed their admiration of him as a recorder and the upright conduct he has always shown. Reeve Walsh was in the chair, while the vice was occupied by the Rev. Mr. Wakefield, English church minister.

Between the speeches some fine songs were rendered by Carl Evans, P. K. Gallagher accompanying at the piano, and some good selections of Scotch and other airs were well rendered by Mr. Scotty Carney. The visitors sat down to a splendid repast served in that excellent manner for which the Mulligan House is so well known. Among the guests were Messrs. Gordon Gauthier, Dr. McInnis, Newton Roach, C. Piercy, G. Preston, O'Brien, McDougall, Carl Evans, Chief Brennan, Geo. Murray, Chas. McInnis, R. Phyre, Capt. Rogers, Marshall J. Callanan, N. Pinder, N. Milne, Smith R. Sims, Foster, T. King, Capt. Anchor, Chief McInnis, P. K. Gallagher, J. Mulligan, Geo. Bannerman, Mr. Farrish, Mr. Norton, Mr. Riley, H. W. Clayton and several other gentlemen whose names The Advance was unable to obtain.

Radium Changed Precious Stones

Still another wonderful property of radium has now to be placed on record—the property of being able to change the colors of precious and semi-precious stones.

The change is effected merely by continued exposure to radium salts and the stones which give the best results are sapphires.

A young German chemist recently purchased several varieties of sapphires and placed them in a box with a small quantity of radium bromide. The astonishing transformation of the stones after only about one month's exposure to the radium are described as follows:

Original Color.	New Color.
White or uncolored Topaz,	like yellow
Blue	Emerald green
Violet	Sapphire green
Wine colored	Beautiful ruby
Inferior dark colored	Deep violet.

Scarcely daring to credit the evidence of his eyes, the chemist visited a jeweler from whom he bought the stones at an average price of 40 cents per carat, and asked what the jeweler would offer for the "new" parcel. The jeweler suspecting nothing even after a close examination, offered \$10 per carat for all the stones, with the exception of the small but exquisite ruby colored one, for which he said he was willing to give no less than \$100 a carat.

Jack Johnston Arrested Again

Jack Johnson, champion pugilist, who, with his wife, was recently indicted by the federal grand jury on a charge of smuggling a diamond necklace into this country, was arrested Monday afternoon charged with striking and intimidating Chas. Brown, a negro chauffeur, one of the government's principal witnesses in the case.

Brown was formerly employed by Johnson as a chauffeur. He is five feet 6 in height and slightly built. When Brown entered the pugilist's cafe, Johnson asked him what he told the grand about the diamond necklace, and when the witness declined to tell him, the pugilist is alleged to have struck Brown a blow in the face.

Johnson was arraigned and hearing continued after he had furnished a bond for \$5,000.

Chief G. E. Fairbairn of the fire department reports that a small fire occurred at the Italian Bakery on July 16th at 1.30 p.m. The blaze was put out by Constable Salle, using chemical extinguisher No. 17. The damage was slight and was caused by a burned out or defective pipe.

EDITOR C. C. FARR WRITES PLAIN ENGLISH

To People of Haileybury Who Do Not Support Their Home Paper

C. C. Farr, editor and proprietor of the Haileyburian, printed at Haileybury, has seen fit to reduce the size of his paper from an eight to a four page sheet, simply because the people and merchants of his town have not sufficient local pride and good sense to subscribe and advertise. He gives the following as his reason for the change in size:

The Haileyburian has an idea of going smaller. Hanged if I can see the sense of buying "boiler-plate" and wasting paper; to say nothing of paying other unnecessary expenses, when the merchants won't advertise and the subscribers won't pay their subscriptions. Four pages is good enough for mine, which, at first sight, appears to be ungrammatical. But how about the "wages of sin is death?" The Bible cannot blunder, in spite of the number of translations, and revisions that have been made. But we are going to cut out four pages, unless the merchants back us sufficiently to carry on eight. When they do, we could give them eighteen, or possibly a daily issue, if needed, though if they will buy the "boiler-plate" we can get it made up. I could do that myself, and I don't know the first thing about printing, except the fact that it is an expensive luxury for the man who has got to foot the bill, but I do not want to have one half of the paper printed in Toronto as is done by the New Liskeard newspapers.

The price of The Haileyburian is one dollar a year, except in the United States, where it is a dollar and a half, simply, on account of the fact that we have to pay fifty-two cents a year to get the paper there, leaving us forty-eight cents for the rot that we print. I am not going to do it. I am not going to give my cousins a paper like that just for their own enjoyment, and a pecuniary loss for myself, at least. The "flat" hath been issued, and I would not blame an American for ceasing to contribute towards the maintenance of a paper that is published by a "Green-horn Britisher."

Cards are being issued announcing the wedding of Miss Fennie Rosenbloom of Toronto to Sclomon Sky of South Porcupine. The wedding and reception will take place at the home of Mr. and Mrs. Martin David Sky at Niven street, New Liskeard, on Sunday, July 28th, at 7.30 o'clock in the evening.
