

## PUBLIC MEN IN TERROR OF DEATH

Suffragettes of London Have  
Public Men Scared of Their  
Lives--Guarded by Police

The female of the species is more dangerous than the male.

In the days of the French Revolution and reign of terror churches were desecrated, altars spoiled and priests and clergy butchered in the speed of a breath. Man was then on a rampage and lust and hatred held sway and dominated. Outwardly primitive man ruled.

The pendulum has swung about and in England today public men are in danger of their lives and completely terrorized by the suffragettes. They are being guarded as the czar is guarded at a time of Nihilistic activity in Russia. They are no longer worried by the risk of mere annoyance. They fear for their lives and the safety of their families.

King George's advisers have warned him strongly against any public appearance for the present. Scotland Yard's ingenuity and resources are taxed to the utmost to protect the members of the cabinet, their wives and children and their homes.

The police are convinced that the votes-for-women militants have entered upon a campaign of arson and homicide. There is no question that an attempt was made to burn the home of one member of the cabinet. The hangings of the Dublin theatre, where Premier Asquith spoke were actually set on fire. That the gunpowder found in the rooms of a party of suffragette demonstrators was intended to blow up the theatre the suffragettes themselves do not deny.

It is agreed that the heavy hatchet thrown by a suffragette at the premier in Dublin narrowly missed killing or seriously injuring him.

### FEROCIOUS THREATS.

The Women's Social and Political Union issued a statement commending all these demonstrations. It is feared that this will inspire further violence.

Premier Asquith, Chancellor of the Exchequer Lloyd-George, Home Secretary McKenna, Minister of the Navy Winston Churchill, and other cabinet ministers, have received the most ferocious threats descriptive of what would happen to them unless they declare for equal rights at the polls. Not only are they assured that they are in danger of being killed, but that the burning of their homes and the kidnapping of their children are planned.

"There is only one thing that will induce us to declare a truce," announced Miss Annie Kenny, who is acting head of the Women's Social and Political Union during the period of Mrs. Emmeline Pankhurst's convalescence from her recent experience as a hunger striker in Holloway prison, "and that is the passage of a law giving us the ballot."

## Real Estate Has Gone Up

According to old letters recently discovered at Palos, Spain, it cost the backers of Columbus about \$7,000 on his great expedition to discover the New World called America.

The armament of the little fleet cost 14,000 pesetas. Columbus and his officers spent about 2,000 pesetas on their personal expenses, and, including the expenses of the crew, 22,050 pesetas was spent for the eight months during which the voyage lasted.

The sum total for which America was discovered amounted to some 36,000 pesetas, or about \$7,000.

In spite of the small amount required, however, Queen Isabella was forced to pawn her jewels, it is related, to provide funds for the expedition.

Since the games at Stockholm, Sweden, the main topic of conversation among the athletic experts is the wonderful performances of H. Kohlemainen, the Finnish runner, Mike Murphy, the veteran trainer of the American teams, says that the Finn is the greatest all-round runner the world has ever known since the invention of spiked shoes and stop watches. He defeated Berna, Bonhag, Scott, Kramer and all the crack American middle distance runners in the 10,000-meter race, and after that he breezed past such speed marvels as Kivist, Scott and Taber in the 3,000-meter relay race. He has speed, endurance and everything that is essential to a great runner.

In the International League the leading fence breakers are Tim Jordan of Toronto, and "Cosy" Dolan, of Rochester, each having made eight home runs. Murray, of Buffalo is next with seven. Jake Gettman, of Baltimore, leads with 19 three-base clouts. Murray, of Buffalo, is second with 14, and Micky Coocoran next with 13. Barrow obtained 24 two-base hits. He leads Gorman by one and Lievelt two. The speed boys on the paths are led by Tommy McMillan, of Rochester, with 41 pilfers; Maisel, Baltimore, 37; Walsh, Baltimore, 29. Toronto leads the league in base-stealing with 187 thefts, twenty

more than the Birds, who are second. Wid Conroy, of Rochester, is leading the suicide gang, with 24 sacrifices. Jakey Atz, of Providence, is second with 20, and McMillan third with 17.

According to C. H. Hood Toronto delayed a little too long last year in starting their rush upward, but Manager Kelley apparently is not going to make that mistake this season. He may have laid up a "heat" or so in the early part of the campaign, but he is driving for all that is in him at present, and if the Leafs continue at the pace they have

struck they will be "breezing" when the home stretch is reached. No team in the league is travelling at anything like the pace that the Leafs have been going the last two weeks, despite the fact that neither Gaspar or Ducke have pitched the kind of ball expected of them. Every man is hitting in grand style, and fielding right up to the top notch. On the bases the club is the fastest in the league, having pilfered thirty more bases than Baltimore, who lead in team batting. With 15 home games in a row the Leafs should speedily land in first place.

According to a despatch from Jersey City, President Lillis, of the Pests, has gone to Richmond, Va., to arrange for the transfer of his club to the southern city. He has placed a valuation of \$30,000 upon his franchise, and is willing to sell at once, if he can get his terms. Jersey City has never been a winner from a financial standpoint, and even when the club was in front this season failed to draw up to the standard. President Lichtenhein, of Montreal, has arranged his difficulty regarding the managerial job by appointing Lush as scout, and placing Third Baseman Yeager in charge. The Royals will stick until the end of the season, but after that it will be "curtains" for Montreal. The only club in the league that is drawing well is the Toronto club. Buffalo and Rochester are doing fairly well, but the attendance in Baltimore, Newark and Providence has been below the mark.

South Africa was prepared for its fleet-footed policeman, K. K. McArthur, when he won the Olympic marathon. As soon as he finished McArthur was picked up bodily and a laurel wreath was placed upon his brow. McArthur has never been defeated in a marathon, and his friends were confident he would do the thing

he did.

The Transvaal wonder was never fully extended. He won practically as he pleased from Gitsworth, a team mate. Canada furnished three of the first sixteen to finish, in Duffy, who was fifth, Le Fabre 11th, and Forsyth 16th. Corkery, the hope of the Maple Leaf contingent, failed to finish.

In 1889, when only 16 years old, Johnny McGraw pitched a game of ball for East Homer, N. Y. East Homer won, 5 to 1. Johnny received \$2 for his services and rode home in a carriage. In 1912, when 39 years old, John J. McGraw is serving the second year of a five-year contract as manager of the Giants at a salary of \$18,000 a year.

Mugsey McGraw's band of giants, leaders in the National League, played an exhibition game of ball at Toronto yesterday against the Toronto sluggers.
