

AN AGE-OLD SECRET

Suppose some famous beauty of the olden days had included in her diary, a list of toilet aids—we would probably read therein that the witchery of her smile she owed to "just a bit of charcoal."

CORSON'S CHARCOAL TOOTH-PASTE

is a wonderful new dentrifice, silver grey in color, velvety yet effective in action and extremely pleasant to use.

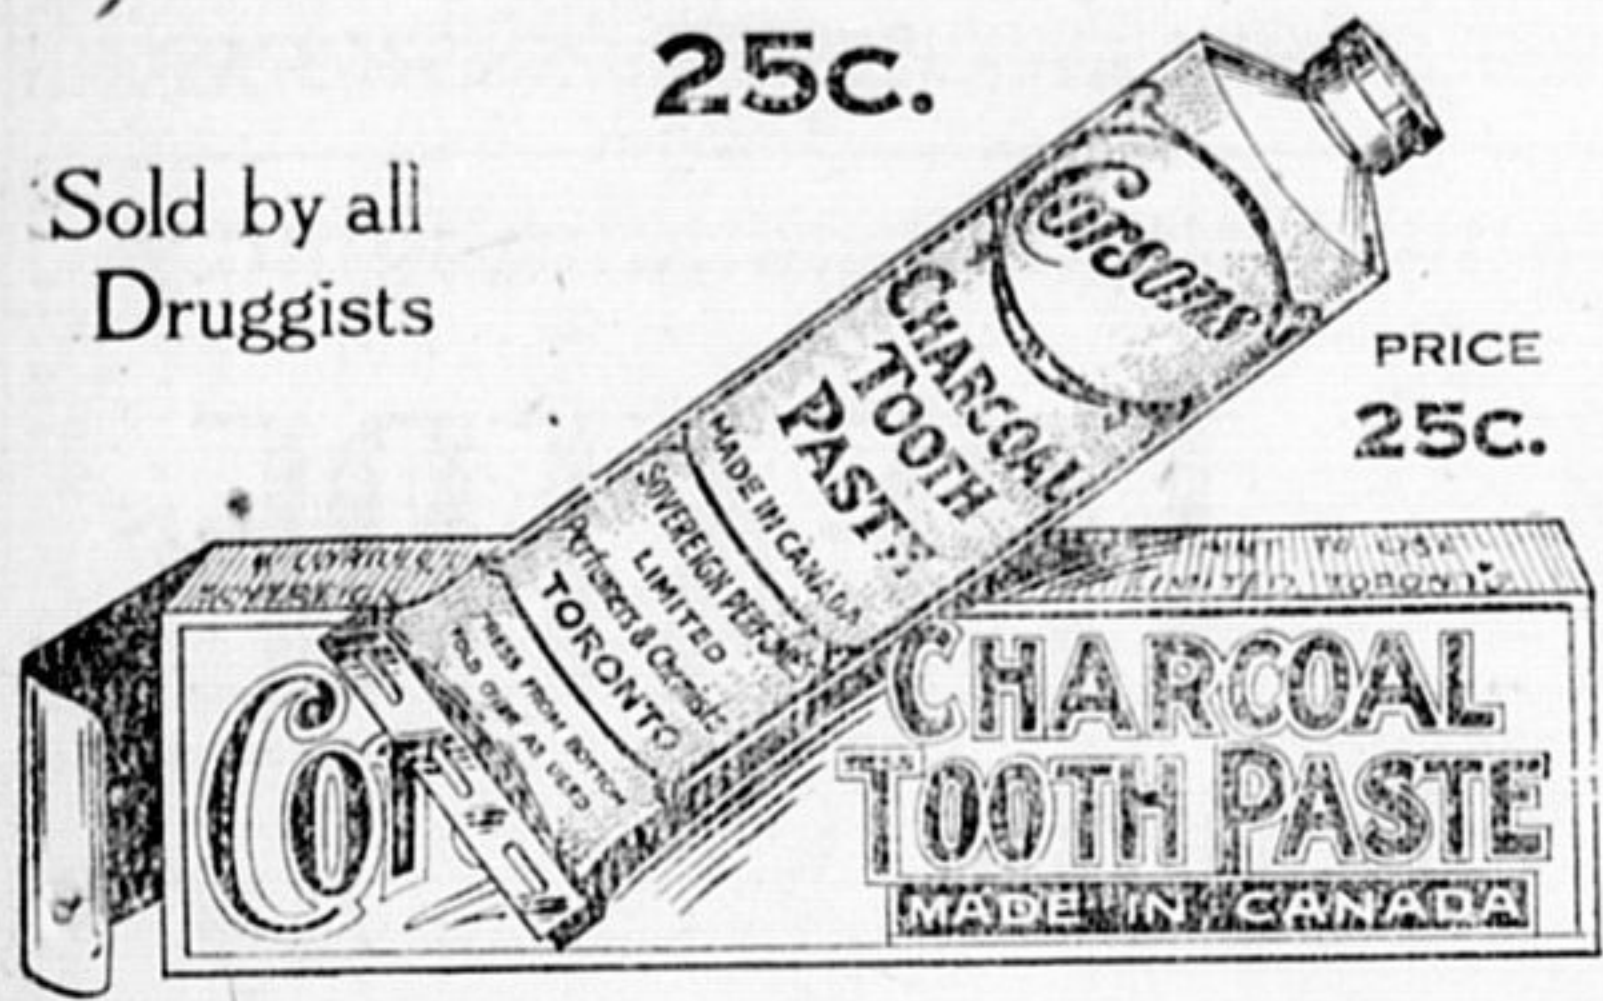

The refined charcoal in this Paste whitens the yellowest teeth, hardens the gums and gives to the mouth a sensation of sweet cleanness.

Just a day or so—you do not have to wait long for results—and you will note with satisfaction how white your teeth are getting.

Henry Ford May Run For Presidency

Henry Ford, of Detroit, will be nominated for President of the United States on the first ballot by the Prohibition party at its national convention in St. Paul to-day, if he will accept the honor, was the opinion of party leaders who held a conference in Chicago.

"I believe Mr. Ford would be the strongest candidate we could name,"

said Eugene Chaffin, a former Presidential candidate of the Prohibition party. "He would get many thousands of Labor votes, in addition to the solid support of old line prohibitionists."

The foolish virgins who spend nine tenths of their time in learning to decorate china, would do well to remember that a young man in search of a good wife is more likely to tie to a girl who knows how to decorate her china with a good square meal.

South Porcupine Patriotic Society

Seventeen members were present at the regular meeting of the South Porcupine Patriotic Society held on July 13th.

The minutes of the last meeting were read and adopted.

Treasurer's report for month June:

RECEIPTS	
Bal. on hand June 1st	\$ 301.00
Proceeds from tea	5.85
Membership Fees	.25
Subscriptions	85.60
Sub. Dome Mine Employees	162.75
Rebate, T. Eaton Co.	.20
	\$555.74

DISBURSEMENTS	
Wm. T. Lee & Sons (yarn)	\$ 100.20
Reamsbottom & Edwards	3.00
Sky Bros.	11.00

"The paper says we may expect some sticky weather," quoth the court jester.

"What paper?" demanded the king.

"Flypaper," replied the jester, making a lightning change to his suit of mail.

DEUTCHLAND MAY CARRY NICKEL MINED IN UNITED STATES

The attention of the Canadian Government has been directed to the statement that nickel, which, it is said, will be conveyed by a German submarine from Baltimore to a German port, is from Canadian Mines. This allegation is based upon the statement that no nickel is refined in the United States except what is derived from Canada. That this statement is entirely inaccurate is shown by the following report from Major Graham A. Bell, who, since the early months of the war, has had the duty of examining and supervising the destination and use of all nickel refined in the United States from Canadian ore. Major Bell's statement is as follows:

"There is a considerable quantity of nickel ore obtained through various copper mines in the United States and this ore is refined principally by the American Smelting and Refining Company. There is also nickel ore obtained from New Caledonia, which is refined by the United States Nickel Co., of New Brunswick, N.J. The quantity, of course, does not compare with the tonnage manufactured from Canadian ores, but there are some hundreds of tons of refined nickel produced yearly from these sources.

Measures taken by the Government of Canada to control the destination and use of nickel refined from Canadian ores have the complete approval of the British Government. It should be added that the Canadian Government have always been prepared to take any further measures for this purpose which the British Government might suggest, but the last-named Government is satisfied that the precautions taken are sufficient to prevent the enemy from receiving supplies from this source. As

a matter of fact, the factories in the United States which are manufacturing guns rifles and munitions for the allied nations depend for their supply of nickel almost wholly, if not altogether upon the Canadian production. The Munitions plants in the British Isles and in other allied countries are also supplied from the Canadian output.

Important Information To Red Cross Workers

A cable has been received from Col. Marshall, Chairman of the Executive, and Col. Hodgetts, Chief Commissioner Overseas of the Canadian Red Cross Society, who have recently returned from a tour of inspection of the Society's work in France and England, advising that the making and shipment of surgical pads, compresses and wipes and rolled bandages be suspended until further notice. This advice is based upon a knowledge of the large amount of supplies now in hand and of their adequacy to fill the need, and also of the very large demand for surgical gauze and cotton in bulk rather than prepared dressings.

The Executive therefore lay these recommendations before its local branches and auxiliaries, asking them to give up work of this character until further notice. Socks, pyjamas, shirts, dressing gowns, kit bags, comfort bags, housewives, hospital shirts, sheets, towels and pillow cases may be safely made as they can be stored on either side of the Atlantic as is most convenient and will not deteriorate by keeping, and all are in demand.

Owing to change of headquarters offices, the instructions to make no more surgical dressings, and to the difficulty in obtaining regular supplies of wool, warp and other materials, it has been decided to close the Supply Department for two months, from July 15th to September 15th.

"Canada First" Means "Safety First"

The Summer Camp is good, if ordinary care is exercised, but do not take chances on a local milk supply. Take "Canada First" Evaporated Milk with you. It is pure, sterilized, safe. Convenient for cooking, delicious with coffee or cocoa, splendid with cereals, good for the children.

Insist on "Canada First" Say "Canada First." Your Grocer Knows. AYLMER CONDENSED MILK CO., LTD. AYLMER, ONTARIO

We are so well known that we do not need to Advertise

is a Common argument a publisher often hears

The biggest and best known corporations in the world believe in publicity. They believe in keeping in touch with the people all the time.

Railroads, Mail Order Houses, Steamship Lines, Banks, etc. are well known and still they advertise

In fact successful houses all lay their success to the fact that

PERSISTENT PUBLICITY PRODUCES PROFITS

They all believe in using the Weekly Local Paper and spend thousands of dollars in thus getting in touch with the homes in each locality

Advertise in a Weekly

never escapes the eye. The reader takes it up in an hour of leisure, looks over it thoroughly and passes it on to the other members of the family who are always interested in a careful resume of the local events of the week

The Porcupine Advance is the only paper the covers Timmins and vicinity thoroughly. it is to be found in almost every home
