LOCAL RELIEF LEAGUE
HOLD FINAL MEETING
And Decide to Hand Over Funds
to Local Red Cross Society—
Statement of Accounts

The last meeting of the Schumacher-Timmins Branch Ladies' Patriotic Relief League was held on September 7th in the Masonic Hall, Timmins. About 15 ladies were present to consider the advisability of transferring the funds of the Patriotic Relief League over to the Red Cross Society, and on a motion proposed by Mrs. Reid, seconded by Mrs. Skavlen, it was unanimously carried that the funds of the Patriotic Relief League be turned over to the Red Cross Society.

A motion made by Mrs. Longmore and seconded by Mrs. Sancton, was unanimously carried, to dissolve the Patriotic Relief League.

The regular meeting of the Red Cross Society will be held on Tuesday, September 14th, 1915.

Yours truly,
 E. J. Reid, Secretary.

The following is the Financial Statement of the Patriotic Relief League:

Kiltie Bagpipers Were
Regular Highlanders

Comment was made last week regarding the Kilties Band of bagpipe players which accompanied the Tom Marks show while on their successful visit to Timmins Empire Theatre. It may be interesting and also a matter of information to some unfortunates to learn that the five players who were in the gold camp are part of a band of 23 Highlanders from Renfrew. This was originally gathered together by George Carruth who was in Timmins last week and the other four with the show were Messrs. Jno. McMillan, J. Young, Stewart Aileck and Dave Dick. From the statement of Mr. Marks all these boys are members of the 42nd Highlanders and all were too young to be allowed to go to the front. The next best way in which their services have been made use of to their King and Country was by working for recruiting purposes in various parts of the country, and their efforts were met with great success.

A criticism in a contemporary asserting that the use of the uniform was a "flagrant offense of good taste" was, in the opinion of both Mr. Marks and the Highlanders themselves, written with very little knowledge of the real facts. There are cases known all over the Dominion and in fact the old country where bands similarly attired—in fact some with full regimentals which was not so with these Renfrew players—are playing for advertising purposes to a much larger extent and the patriotic work of the visitors of last week has been much in excess of advertising for the show which they accompany.

NORTHERN ONTARIO
GIVEN PROMINENCE

By Exhibits at the Toronto Exhibition in the Government Building--Mineral Display is Best Ever Yet Displayed

That Northern Ontario is being well advertised at the Toronto Exhibition is proved by the announcement in one of the Toronto dailies which says as follows:

"Occupying the most conspicuous position in the government building is the Northern Ontario exhibit, arranged under the direction of Hon. G. Howard Ferguson and Hon. James J. Duff. This exhibit has several features. Designed first to convey to the people of the province and the outside visitors at the Exhibition an idea of the natural possibilities of Northern Ontario, it shows as well the diversified character of the country and the opportunities that are open to the enterprising settler.

These objects have been well accomplished. The agricultural section of the exhibit is intended to give some idea of the potentialities of the country to the prospective settler. This is demonstrated in a unique model farm—a clearing in the bush, showing the land under cultivation, the settler's barn equipment and comfortable home. Without exaggeration this display is quite representative of conditions that exist on many farms in the north. In saying this it should be borne in mind that the agricultural extent of Northern Ontario is not alone confined to the "clay belt" which contains alone some 16,000,000 acres. Here and there all through the country are large arable sections and added to these more than 4,000,000 acres of the choicest agricultural land is found in the Rainy River valley, a district which can truly be said to be without rival in any part of the broad Dominion.

Best Ever Seen.

Never before have the mineral resources of their character and extent been so well displayed. Not even the Panama-Pacific Exposition in San Francisco exceeds in comprehensiveness this display. Perhaps the most interesting feature of this branch of the exhibit is some gold ore from the Dominion Mines in Munro Township near Matheson on the T. & N. O. Railway. The value of this ore which assays \$60,000 to the ton, is placed at \$8,000. Still dealing with precious metals there are 35 bars (each weigh-

ing 90 pounds) of silver from the Deloro mine valued at \$21,000. There are products also of cobalt metal and of nickel cobalt. The Coniagas Reduction Company have sent interesting samples, and the Temiskaming Mine is represented by a half-ton sample of high grade ore. The Porcupine district has contributed samples from the Hollinger, Dome, Vipond and McIntyre Mines that vary in quality but give a concrete example of the extent of Ontario's mineral bearing area.

Mine Specimens.

Practically all of the operating mines in northern Ontario have taken advantage of the department's invitation to send specimens to the exhibit. These include the Canadian Copper Company, at Sudbury; iron ore from the Helen Mines and Magpie Mine, owned by the Algoma Steel Company; silver from the Pen Canadian; talc, crown gypsum and graphite. It is worth while in this connection to note that Ontario furnishes a large proportion of the raw tale supplied to the trade in the form of talc powder. Building stone, ornamental stone, mica and pressed brick are other products that maintain the mineral superiority of Ontario.

As is generally known, this exhibit is the preliminary to a widespread campaign to be conducted by the government to direct immigration to northern Ontario. It starts with the Canadian National Exhibition, but will be continued throughout the length and breadth of Canada, and in other countries where the opportunities offered for settlement in Ontario are bound to be appreciated.

The exhibit is in charge of Messrs. Albert Stewart and Geo. E. Palmer, representing the department of agriculture, who are in constant attendance, and will cheerfully give information and distribute literature to all who are interested, while Mr. W. K. Neil has particulars regarding the mineral branch at his fingers' ends.

Mayor Walters, of Hamilton, has threatened to take action against some landlords in the city who are disposed to deal harshly with soldiers' wives.
