### Attractions at The Empire Theatre

The management of the Empire  
Theatre for Friday and Saturday of  
this week, presents the thrilling  
drama of "Protea III," featuring  
Mme. Josette Androit in the leading  
role of "Her Race With Death."

War has been declared and the  
famous engineer, Sinclair Fairfax,  
has invented a powerful screw-propeller,  
the plans of which have been  
stolen by spies in the employ of the  
German Government and have hid-  
den them in France.

The task of running these mis-  
creants to earth and the recovery of  
the specifications has been entrusted  
to Protea, who at a great risk of her  
life and many hairbreadth escapes,  
finally emerges with victory by find-  
ing the documents at the bottom of  
the sea.

This is a very interesting and  
fascinating film, and everyone should  
avail themselves of the opportunity  
of seeing a picture that is full of  
thrill and adventure from start to  
finish.
