**Dan McMillan a Broken Leg**

Dan McMillan a miner at the McEnaney mine had his leg broken between the knee and ankle while at work last Monday afternoon. The accident occurred after a round of holes had been fired and the break mucked away. Timbering was being done when a loose rock fell and the leg broken. A physician was in attendance at once who gave the injured man every care possible and

he was taken to the Mines Hospital at Schumacher, where he is now resting as easy as could be expected. The accident was one of those which at times are bound to occur and apparently without fault on the part of any one.

The Progress Store is being enlarged by Sky Bros., made necessary by the larger stock of goods which this firm is carrying.
