\$19,900,000 FROM PORCUPINE AND COBALT CAMPS

Estimates of Output, Prepared by
S. H. Logan of Bank of
Commerce, Cabalt

The combined production of Cobalt and Porcupine for the year will be \$18,900,000, according to estimates carefully and authentically prepared by S. H. Logan, manager of the Bank of Commerce. Porcupine contributes two millions to the above total. Cobalt's estimate shows an increase of over one million above last year. According to statistics, everything points favorably to the increase in production being kept up next year and for many years to come. The total production of Cobalt up to the end of the present year will be over \$87,000,000, and dividend disbursements \$41,000,000.

That Porcupine will produce this year two million dollars must be pleasing to those who have been anxiously waiting to see the camp produce some tangible results. The truth is that while the public have seemingly shown little interest, the big operators have quietly been ac-

complishing very satisfactory and promising results. With \$2,000,000 production this year, and probably \$6,000,000 next year, it is quite to be expected that public interest in the camp will shortly be more in evidence and be decidedly optimistic. Two million from Porcupine a year is more than double the previous year's gold production in the history of the Province.

Our Aim and Object

OUR OBJECT IN LEASING THIS ENTIRE PAGE IS FOR THE PURPOSE OF CALLING THE ATTENTION OF CAPITAL TO THE TREMENDOUS MONEY MAKING OPPORTUNITIES OF NORTHERN ONTARIO.

IT IS CONCEDED THAT THE GREATEST NICKEL DEPOSITS IN THE WORLD ARE LOCATED IN THE SUDBURY MINING DISTRICT; COBALT IS THE RICHEST, THE HIGHEST GRADE AND THE MOST LAVISH PRODUCER OF SILVER THE WORLD HAS EVER SEEN, AND WE, WHO ARE "RIGHT ON THE GROUND," HERE IN PORCUPINE, HAVE BET OUT LITTLE PILE, PINNED OUR EVERLASTING FAITH AND ARE WILLING TO STAND OR FALL BY THE PREDICTION THAT THE PORCUPINE GOLD DISTRICT WILL SOON PROVE TO BE THE GREATEST ON THE AMERICAN CONTINENT IF NOT IN THE ENTIRE WORLD.

THE MARVELOUS SURFACE SPECIMENS; THE IMMENSE BODIES OF GOLD BEARING QUARTZ AND THE BROAD DISTRIBUTION OF GOLD ENRICHMENT OVER AT LEAST A HALF DOZEN TOWNSHIPS HAS ATTRACTED MINING OPERATORS AND ENGINEERS FROM ALL OVER THE WORLD AND WHILE MILLIONS HAVE ALREADY BEEN SPENT AND MILLIONS TAKEN OUT, THE CAMP IS ONLY IN ITS INFANCY AND GREATER THINGS ARE TO YET BE.

THE OPENING UP OF THE GREAT PORCUPINE GOLD-FIELDS TOGETHER WITH THE GREAT NICKEL AND IRON DEPOSITS OF SUDBURY AND THE GREAT SILVER FIELDS OF COBALT, CONSTITUTE A TRIANGLE EMBRACING AN AREA WHICH MAY SAFELY BE REGARDED AS ONE OF THE RICHEST IN MINERAL WEALTH TO BE FOUND ANYWHERE IN THE WORLD.

NORTHERN ONTARIO IS TRULY "THE LAND OF OPPORTUNITY" AND ITS VAST RESOURCES ONLY AWAIT THE MAGIC TOUCH OF "CAPITAL." THE INVESTMENT POSSIBILITIES ARE ABSOLUTELY UNLIMITED AND TO THE MAN WITH NERVE, VISION, SAGACITY AND MONEY, THE FIELD IS LARGE AND THE REWARDS ARE GREAT.

Real Estate Department

FOR RENT:—Good stores, houses and offices at prices that are reasonable and right. Tell us your wants.

SPECIAL

Farm and Timber Lands

Northern Ontario will soon have a land "boom" like Western Canada has been going through during the past 3 or 4 years. Don't wait and buy land at top prices. Get in early. We are able to offer a few 160 acre tracts of good agricultural and TIMBER lands at from \$4 to \$10 per acre. This land is located close to the railroad and is BOUND to increase rapidly in value. If interested in a proposition of this kind send 10 cents to cover cost of mailing and wrapping and we forward post paid a copy of the 100 page handbook on "NORTHERN ONTARIO," published by the Ontario Government.

Opportunities For Capitalists and Promoters

FOR SALE:—Eight thousand six hundred and forty acres of Mineral, Timber and Agricultural lands. This big proposition consists of 54 "Veteran Claims" of 150 acres each, lying in the Townships of Murphy and Hoyle immediately adjoining Tisdale and Whitney Townships in the Porcupine Mining Division. These properties will be sold for the value of the timber and pulp-wood alone and the mineral possibilities are immense as they lie directly in the line of strike of the principle or bodies of the camp. These properties have never been prospected for mineral but have been cruised for timber value. To a capitalist or promoter able to handle a deal of this magnitude it is a sure thing from the stand point of timber values alone to say nothing of the immense mineral possibilities. Full particulars upon request.

WORKING OPTION:—We are prepared to offer to responsible mining men a working option good for six months upon a group of claims in the Porcupine Camp. These properties have large dykes of quartz and schist heavily mineralized and carrying consistent gold values right on the surface. No money need be paid on this option until the expiration of the six months and then only if satisfied. This is an unusually good opportunity. Write for further particulars.

FOR SALE:—A fully organized Porcupine Mining Co., having Ontario Charter, Capitalized for \$1,000,000, par value shares \$1.00 and owning 9 full claims or a total of 360 acres, is offered for sale. Property shows free gold in several places. Now being developed. This proposition offers excellent chance for stock brokers or promoters who want a good clean cut flotation. Properties, charter and entire capital stock can be delivered without any entanglements. Full particulars, maps, reports, etc., furnished on application.

MINING CLAIMS:—Mining claims in Porcupine, Cripple Creek, Swastika, Gowanda, Cobalt, South Lorrain and all mining camps of Northern Ontario for sale by us at prices ranging from \$100 to \$1,000,000. We especially solicit the business of Brokers and Promoters. Our intimate personal knowledge of the country together with our staff of correspondents and mining engineers in the various camps puts us in a position to give excellent service. Write us your wants.

UNDERWRITING PROPOSITION:—A large and favorably known mining and development company owning and controlling a number of properties in Porcupine, South Lorrain and Sudbury Mining Districts are at the present time willing to place 100,000 to 200,000 shares of their Treasury stock with a responsible broker or promoter to be underwritten at a low price. This is an unusually good opportunity for a broker who wants something to place before his clients with every possibility of making good. The organization and management of this company is especial good and this opportunity should not be overlooked. Write us at once.

Of Interest to Stock Buyers

The attention of the market trader is called to the fact that A. S. FULLER & COMPANY have been brokers of a good many years standing in Boston, New York and Chicago, and in addition to the experience we have had there in Wall Street, State Street and LaSalle Street, we now have the further qualifications in this particular instance of being "Right On The Ground" as far as Porcupine is concerned. We have been actively and financially identified with the camp for the past three years and are thoroughly familiar with every corner of it and the property of every mining company operating in the district. We feel, therefore, that we are in a better position to give you AUTHENTIC information regarding PORCUPINE STOCKS than outside brokers. Furthermore we are in direct touch by wire with the Toronto Exchanges and can give your buying and selling orders prompt attention. Our especial advantage, however, comes from our intimate personal knowledge of the actual working conditions of every mine here.

To Avoid Delays and Misunderstandings

IF YOU WISH TO SELL, send your stock to us by registered mail, properly endorsed in blank, with full instructions, i. e., state, if you desire to sell at the market or at a stated price. If the latter, state the price. We will acknowledge receipt of stock the same day it is received, and a statement of sale and remittance, to cover, less commission, will be forwarded to you immediately upon completion of sale.

IF YOU WISH TO BUY send us your order. We will acknowledge receipt of the money the same day it is received, and the day stock is bought we will mail you a statement. You can remit balance due us and we will immediately forward to you the stock, or we can, if you so desire, draw draft on you with stock attached for the balance due us, provided 25 per cent. is deposited with us. In placing orders, explicit instructions as to price, length of time for which order is good, transfer instructions, etc., should be supplied.

If the investor requires transfer we will attend to same, charging only the transfer fee we pay. This generally amounts to 25 cents for each new certificate. Where a trader buys for a "turn" it does not matter in whose name the certificate is issued.

Always in remitting, or settling your account, use accepted checks cash or money orders, otherwise we will be justified in holding certificates until collection can be made on checks. Your bank will not accept checks in payment of drafts therefore your broker is entitled to the same rule. Never ask a broker to place the stock in your name before it is paid for in full, or you have deposited funds in the bank to cover it. Reputable houses will never fill an order of this kind, as the stock certificate transferred in your name becomes worthless to the broker in case you die or are unable to pay for it upon delivery.

Add 25 cents exchange to all checks and drafts unless made payable at par at South Porcupine. On checks above \$100 add exchange at the rate of 1-4 to 1 per cent.

An observance of these rules will render mistakes impossible and establish a high degree of confidence between yourself and the house handling your business.

Always in ordering send remittance in full, or part, unless you have an account with us, or we know your financial standing. It is not fair to assume that the broker is to use his money to buy stock for you without some guarantee. The bank requires it of him and the investor should be ready to do his part.

Commissions

Our commission rates will be found to be much less than are charged by brokerage houses in Boston, New York and Chicago and other points, and are as follows:—

On stocks under 10 cents 1-4 cent per share; on stocks sold at 10 cents and under 50 cents, 1-2 cent per share; on stock sold at 50 and under \$2, 1 cent per share; on stock sold at \$2 and under \$4, 2 1-2 cents per share; on stocks sold at \$4 and under \$10, 5 cents per share; on stocks sold at \$10 and under \$25, 10 cents per share. On stocks selling at \$25 and upwards, 1 per cent of money involved. Minimum commission \$1.
