Why Were They All Printers?

The "Advance" is shy of even the sight of an ordinary printer this week. They may have gone out on a sympathetic strike with the miners, but so far as we are concerned it is an un-sympathetic one. Someone has said that there is a fool, a pup and some other name which we just now forget, born every minute, but why should they all have been born in the printing business? You can't answer it, God alone knows.

Panama Tolls For Shipping

President Taft has issued a proclamation fixing the rates that the foreign shipping of the world shall pay for passage through the Panama Canal. The proclamation, made under authority of the canal act passed by Congress in August, established a merchant vessel rate of \$1.20 per net ton of actual carrying capacity, with a reduction of 40 per cent. on ships in ballast.

The provisions of the proclamation are as follows:

1. On merchant vessels carrying passengers or cargo, 41.20 per net vessel ton—each 100 cubic foot—of actual earning capacity.
2. On vessels in ballast without passengers or cargo, 40 per cent. less than the rate of tolls for vessels with passengers or cargo.
3. Upon naval vessels, other than transports, colliers, hospital ships and supply ships, 50 cents per displacement ton.
4. Upon army and navy transports, colliers, hospital ships and supply ships, \$1.20 per net ton, the vessels to be measured by the same rates as are employed in determining the net tonnage of merchant vessels.

The secretary of war will prepare and prescribe such rules for the measurement of vessels and such regulations as may be necessary and proper to carry this proclamation into full force and effect.

American coastwise shipping was exempted from toll payment by Congress. It was to this provision of the act that Great Britain diplomatically protested.

"If It's Hardware---We Have It"

Christmas Shopping Time is Here.

Note These Suggestion For Suitable Gifts
