Refrigerators

\$9.00 to \$35.00

Tisdale Township Council Transacts Much Business

LIGHTS FOR MONETA, SCHUMACHER AND SOUTH END. GUARD RAIL FOR DOCK. DAIRIES TO BE WATCHED. \$41,750 ON ROLL THIS YEAR OVERLOOKED LAST ASSESSMENT.

The Tisdale Township Council had a busy session on Saturday evening with Reeve Sylvester Kennedy presiding, and Councillors Easton, Mackie and Boyle present. In addition to the routine business there were many matters of importance before the Council.

The Finance Committee reported that the 1917 credit had been fully approved by the Head Office of the Imperial Bank.

The Fire and Light Committee reported that certain lights had not been changed at Moneta, and the Clerk was instructed to write to Mr. Harrison asking for the installation of three lights at Moneta, two at Schumacher and four at South Porcupine, as soon as possible. They also reported that they were trying to arrange for a test of the Ford motor truck on June 5th.

The Public Works Committee reported that they had quite a large amount of work on hand, all of which was urgently required to be done. Councillor Easton stated that a guard rail was badly needed at the dock at the foot of Golden Avenue, and the road approach to the dock was in bad shape. The Clerk was instructed to write to the Department of Public Works, Ottawa, regarding the rails for the dock, suggesting a height of 30 inches above the square timbers. They reported that the bridge and corduroy on the Foley-O'Brien road would be repaired immediately, and the traffic diverted from the Dome Road until the bridge on the Dome Road could be repaired, as it was in a dangerous condition. The work on the sidewalk from Railroad Street to the Station would be commenced about Wednesday, as the water had gone down sufficient to allow of the repairs being executed.

Chief of police Roy submitted report for the month of May, which was accepted and ordered to be filed.

Inspector Donovan, of Moneta, reported that a site for a dump had been located on the property of the Inspiration Mines Ltd. and Mr. Sherrill would have to be seen about it. He was instructed to see that the garbage which had been dumped at Rochester Township by unknown parties be burned. He mentioned a road corner near Moneta where garbage was often spilled by passing wagons, and he was instructed to have this railed off.

Inspector Rayeroff, of Schumacher, reported that accounts had been collected to well over one hundred dollars for the sanitary department, also that the sanitary conditions were improving very much.

Inspector Charette, of South Porcupine, reported that three or four closets still remained to be cleaned up and some garbage to be taken away. He would like to have the restaurants build boxes for their garbage, and he was instructed to have this done. He reported over \$300 in collections.

Mr. G. Hazelton called the attention of the Council to the method of excavating the foundations for the new school at South Porcupine, and was referred to the Board of School Trustees.

Councillor Easton drew attention to the matter of dairies operating without permits to sell milk, and this matter was discussed, like-wise the subject of cattle pounds. The Clerk was instructed to call the attention of the Board of Health to the granting of milk permits, and Inspector Donovan was instructed to warn owners of dairies in Moneta that their cattle must be properly herded and not allowed to roam at large.

The Assessors reported that the assessment was now practically finished and they expected to turn in the roll by Wednesday, 6th instant. Property valued at the sum of \$41,750 according to this year's scale had been overlooked in last year's assessment. The date for Court of Revision would be fixed at a special meeting to be held probably on Wednesday.

Mr. D. Levinson stated that he had bought a lot at the Tax Sale last November, which was part of the site of the sidewalk from Railroad Street to the Station, and he offered it to the Council for the sum of Six Dollars. On motion this was accepted.

Co-operation was promised the Provincial Fire Ranger for this district.

Inspector Rayeroff mentioned the benefit of a Curfew Bell for Schumacher, and the Public Works Committee were asked to see Foreman Ryan about this.

On motion of Councillors Easton and Mackie it was decided to appoint two fence-viewers for the Township

at the next regular meeting of Council.

Councillor Easton called the attention of the Council to the cases of Mrs. Moreau and Mr. Geo. Watson, two elderly people who were in ill-health and in need of assistance and on motion the Clerk was instructed to render the necessary relief, and if necessary to have them removed to a hospital for treatment, the expenses of same to be borne by the Township.

On motion of Councillor Boyle, seconded by Councillor Mackie, the Clerk was instructed to purchase \$10 worth of MacDonald's chewing tobacco and have same forwarded to the members of the 159th Battalion, C.E.F.

The salaries for the half-month and the usual number of routine accounts were formally ordered paid.

On motion of Councillor Boyle, seconded by Councillor Mackie, the salary of Chief of Police Roy was increased to \$125 per month.

By-laws regarding traffic on highways and bridges, re amending the penalty clauses of certain by-laws, and regarding Public Morals, were given their required readings and passed.

MCINTYRE AVERAGE GRADE \$10.43 A TON

Interesting Figures in Report for First Four Months of Year.

The McIntyre Mine directors have just issued a statement of production and development operations for the four months ending April 30th, 1917. As former statements were for quarter years, the present statement is not so easily used for comparison, but it is quite evident that good progress is being made at the McIntyre and that the property is in the most promising condition. Despite the natural difficulties due to the situation generally obtaining throughout the country on account of the labor and materials market, the McIntyre is developing along the best lines and showing itself as one of the great producing mines of the Porcupine, with the sure promise of better things to come.

For the four months dealt with, the report shows 56,567 tons milled; value per ton, \$19.43; gross value, \$561,026; operating costs, \$281,452; costs per ton, \$4.97; operating profits, \$279,574.

The statement which is signed by the President, Mr. J. P. Bickell, says also:—

"Ore and bullion production during the period has been maintained. Exploration and development work has not progressed as rapidly as had been expected on account of the serious shortage of labor in the camp.

"The 800 and 900 foot levels of No. 5 shaft are being opened up, and drifting on No. 5 vein confirms the results obtained by diamond drill holes, which showed widths of from six to 23 feet of high-grade milling ore.

"Drift No. 1,026, on the 1,000-foot level of the main shaft, has been advanced through high-grade milling ore in the boundary vein to within 40 feet of the Jupiter line. The present face assays \$11.95.

"The Jupiter shaft is now being sunk to 1,000 feet, when a drift will be driven to the west to connect with the drift now advancing from the main shaft. A drift will also be driven to the east on this level to explore the Penanrum ground under option to this company."

THE WEATHER'S FINE! HOW'S YOUR SUBSCRIPTION?

A great many subscriptions happen to expire on May 31st. How about yours? All subscriptions to The Advance are payable in advance. If your subscription expires with this issue, or if you've been borrowing or swiping a copy of The Advance to read, or depending on the chance of buying a copy each week, send, bring, mail, or forward, (any old way as long as it gets here) \$2.00 for a year, \$1.00 for six months or \$3.00 for a year if going to the United States. As The Advance is discontinued to any address, unless the subscription is promptly received, readers who want to continue receiving their favorite weekly every week should favor The Advance with their subscriptions as soon as due. If your label reads '6-17' send the subscription at once.

LOCAL SCHOOL REPORT FOR MONTH OF MAY

May Report and Honor Roll.

Kindergarten—
Number of pupils enrolled, 36; half-days school open, 22; average attendance, 28.09.

Honor Roll. Junior Class—1, Annie Scott, 2, Dorothy McLaughlin, 3, Francis Woodbury, 4, Thelma Abrams, 5, Richard Mullen, 6, Kenneth Warren.

Directress, Miss Thomson.
Assistant, Mrs. A. Meyers.

Primary Department—
Number of pupils enrolled, 51; school open, 22 days; average attendance, 44.77.

Honor Roll. Junior Class—Roland Barnes; A. Arthur Marshall; B. (1) Durward Freeman, (2), Hazel Lawrence; C, Cybelle Anderson; Senior, Louis Jacobson.

Perfect Attendance.

Senior Second Class—1, Simie Kyllonen, 2, Edward Saneton, 3, Willie Roberts, 4, Percy Shippam, 5, Maggie Cole.

Teacher, J. I. Muirhead.

ALL-CANADIAN PICTURE TO BE SHOWN HERE

50,000 Troops, 3,000 Horses, Battleships, Airships, Love, etc.

At the New Empire Theatre on Friday and Saturday nights of this week, and at a matinee Saturday afternoon at 3 o'clock, there will be shown in Timmins the spectacular motion picture drama, "Self Defence," produced in Canada with the co-operation of the Canadian Department of Militia. The pictures were filmed in Canada by the United Films Limited, and the pictures and play bring forth from those who have viewed them such expressions as "thrilling," "appealing," "the greatest of all military spectacles." There are 50,000 troops, 3000 horses and a cast of 400. Battleships, aeroplanes, artillery, cavalry, infantry, are pictured. The story of the play includes love, adventure, romance and a great patriotism. The plot is based on the story of a young Canadian of wealth and good family who becomes a pacifist. This man, Gresham, starts a rabid propaganda of his pacifist ideas, and apparently wins many converts. Then French, a Victoria Cross man, who has been invalidated home, returns to find the evil being done by his friend, Gresham, who, of course, is being used by a paid German agent named Brunner. French starts out to re-convert the pacifists to sanity and he does it by showing them what the Huns did in France and Belgium, and impressing on them the possibility of an invasion of Canada by the Germans. Soon Gresham realizes that he has been duped by Brunner, and he makes his atonement for his erstwhile traitorism by promptly donning the khaki. Throughout the story there is the thread of attractive romances, adventure and love, while those who love the spectacular will be more than pleased.

Souvenir China

We have just received an ASSORTMENT of Souvenir CHINA of TIMMINS which is very ATTRACTIVE and which includes many useful articles. See our window for display.

The most beautiful watch in America

Note that the second hand, as in every Gruen Verithin, is at the bottom of the dial. When the second hand appears up towards the centre of the dial, it means that thinness has been obtained by patching a small lady's size movement in a man's size case. We carry also the beautiful Gruen Watch for Ladies: a very acceptable wedding gift. Let us show you.
