Mr. and Mrs. John Murtagh, of Hillcrest Road, are entertaining relatives from Sturgeon Falls.

Will Ran is giving a reception to his dancing pupils.

Mr. Ira Hunter, chief freight clerk for the T. & N.O. commission for some years here, has been transferred to the office at Cobalt.

A meeting was held at the Town Hall on Tuesday night for the purpose of electing delegates to the Convention at Cobalt.

During the past week there has been a considerable rush for the new houses. The management has many things to take into consideration. Perhaps all will not be satisfied. However an honest effort is being made to make our people comfortable.

Mr. T. Phillips rendered very effectively at the United Church on Sunday evening that old song, "The Holy City." Mr. Phillips will be quite an acquisition to the musical circles of the town. He is not only able but willing as well.

ANGLICAN CHURCH

It would seem to us to be patriotic to burn wood until the extreme cold weather sets in. We do not anticipate an actual shortage of coal here, but the question of transportation might be serious enough. When a steady heat night and day is not needed, our citizens will find the wood the more economical fuel.

A special meeting of the male members of the Anglican Church was held on the fifteenth instant to consider the financing of further funds to complete the Church building. Very encouraging reports were submitted both as regards the progress of the building operations and the additional funds required. An additional amount of eight hundred dollars had to be raised and with this end in view eight members of the congregation promised to be responsible for the collection of one hundred dollars each. It is anticipated that the Church will be ready for the opening service in about three weeks' time.

DOINGS AT THE BACHELOR'S CLUB.

THE IROQUOIS FALLS HUNTING AND SOCIAL CLUB.

A new organization has just lately sprung into being in town—"The Iroquois Hunting and Social Club," in which the Town Council is fully represented. The inauguration meeting was held and if reports are true it had a very enthusiastic send off, the musical abilities of one of the members being especially prominent. Another "meet" was held on Sunday last when much fishing, shooting, etc., was indulged in and thoroughly enjoyed, particularly the latter. One of the Club's crack shots is reported as having shot a feather off a wood-pecker, but up to the time of going to press the report lacks confirmation.

The two Norwegian Superintendents, Bunke and Thue, certainly look scrumptious in their new togs, but they can not for the life of them figure out why Doc Charlton had to borrow Bunke's breeches. Who ever gave him a license to dress up like a horse?

Everyone present had a fine time at the party given by the Bachelor's Club last Monday. Messrs. Bunke and Horsburgh acted as chefs for the evening, their methods of serving were very original. Doc Charlton did most of the singing, but Mrs. Horsburgh's song entitled, "Put on your slippers and fill up your pipe, you are not going Bye Bye to-night," was the hit of the evening. Next came a shooting exhibition by Harry Bunke, tis a sad tale. The evening's entertainment was closed by a Bridge Building competition entered into by every remaining member of the Club.
