THE IDEA OF KNEE PANTS STILL AMUSES.

(From The Broke Hustler) Clothing manufacturers have been able to forget some of their troubles in the amusement afforded by the imported idea of introducing knee pants as one means of saving woolen material. The suggestion was made in Eng-land and cabled over as food for thought for the clothiers in this coun-try. Aside from the fact that the manufacturers here can hardly con-ceive of the picture of full-grown men attired in knee breeches, some of the clothing makers take the matter seri-ously enough to point out the disad-vantage of the plan. Said one of these sober minded persons recently: "At present by the tailor's artifice we are able to hide that ordinary de-formity, bowleggedness, but it would take a miracle to do so with the pants reaching only to the knee."

GOOD LECTURE BY J. MILLER MCCORMICK.

Mr. J. Miller McCormick, Superin-tendent of the Church of England Camp Missions, was a visitor at the Anglican Rectory last week. He ex-pects to return to the "Falls" for the opening services at the New Angli-can Church and to give his popular Lantern Lecture "The Sky-Pilot on the Frontier."

Report n last week's Broke Hustler that Mr. John McLennon of the Mech-anical Department had gone to Tor-onto to consult an eye specialist was an error, he really left here to return to his old home in Scotland. Dr. Dorsey made sure his vision was O.K. before letting him start on this long journey.
