Timmins News in Brief

Mr. J. M. Cauley, of Timmins, has enlisted for overseas service as a locomotive engineer. He formerly was employed by the Algoma Eastern Railway, running out of Sudbury.

As will be noted by the advt. elsewhere in this issue and by the posters issued this week, Mr. J. H. Thomas is selling his household effects, preparatory to leaving in the near future for the south.

Mr. Alfred Wright of the London & Lancashire Fire Insurance Company, is making a tour of the North Land at present, and is at present visiting Cochrane and other northern points. He is expected in Timmins on Thursday of this week to make an inspection of the town and its fire protection facilities, in the interests of his company.

Mr. S. R. Craft's motor boat was sunk on the river last week. Mr. Craft was towing a barge of gravel and the barge getting caught on some rocks he had to go back to release it. He got the barge off the rocks all right, but just as he started his motor boat the boat itself ran against a couple of rocks or more tearing a couple of holes or more in the boat.

Lieut. Jack Munroe told the newspapermen in New York that the U.S. Government should commandeer the services of Jess Willard and Fred Fulton and have them put on some boxing bouts for the benefit of the Red Cross or other patriotic funds. Probably if Lieut. Jack were back in Timmins he would suggest a similar treatment for "the New Ontario Greyhound and his dog, Tiger Smith," as Mr. Frederick Finch has signed himself.

At the last meeting of the Cobalt Fire Brigade it was decided to hold three practice drills each week from now until July 1st, with a view to preparing for the big day's contests at Timmins on Dominion Day this year. New Liskeard, Haileybury, and all the other up-to-date towns in the North Land are also having their fire brigades get busy at the practice business so as to be ready for the great day here on July 1st under the auspices of the Temiskaming Firemen's Association.

A. Gentil left on Tuesday morning for Haileybury. The case against him for the alleged securing of a marriage license under false pretences had been laid over from the Fall Assizes to the Spring Assizes, but a speedy trial before the District Judge has been asked for on Gentil's behalf. Accordingly the case comes before Judge Hartman this week, and many will hope that it will be finally disposed of. Gentil has had a number of charges to answer to in connection with his marriage over a year ago to Annie McIntyre. He has been acquitted of any wrong-doing in all the cases but this one of false pretences, which seems to be the last in a rather long series.

The members of the D.Y.B. Club held their regular weekly meeting at the home of Mrs. James W. Reid on Monday evening, May 13th, when a very pleasant evening was enjoyed by all present. A further letter of appreciation for the continued support of the Club has been received from Captain Mary Plummer, of the Canadian Field Comforts Commission, Shorecliff, England, in which she acknowledges the safe arrival of a box shipped by the D.Y.B. Club in December last. The girls will meet on Thursday afternoon at the home of Mrs. M. A. Ellis for the purpose of packing a further consignment of comforts for shipment overseas. The next meeting of the Club will be held at the home of Miss Laura Poitras next Monday, May 20th. Work taken in—40 pair socks.

At the Ontario Provincial Women's Missionary Society held in Toronto last week, Rev. J. D. Byrnes, Superintendent of Presbyterian Missions, made a very strong plea for more workers and better paid missionaries in New Ontario. He said that the four New Ontario Presbyteries are working this year with \$26000 less and 40 men less than five years ago, although since 1913 the work is 35 per cent. greater. Some of the pastors of mission churches in the North Land, according to Mr. Byrnes, are working for \$800 per year, and have to pay \$200 a year out of this amount for keeping a horse. Some of these preachers are kept so poor that they can not afford to buy meat at all, says Mr. Byrnes. Mr. Byrnes referred to the fact that in the North Land there are about 60,000 foreigners and he emphasized the need for schools and churches as the only "white man's hope" up in this great growing country.

Mr. John W. Fogg spent the week-end in Toronto on business.

Mr. Wallingford, Sr., is going to build a new saw mill at the river, near where the Hollinger mill used to be.

Mr. S. T. Rizzuto ("Tony"), formerly proprietor of the Ideal Poolroom and Rooming House, opposite the Theatre, is over from Erie, Pennsylvania, on a visit to the old Camp here.

Mr. Sutcliffe, of the firm of Sutcliffe & Neelands, is in town this week in connection with the preliminary work of planning for a general water supply system for the whole camp some time in the future.

The two paid members of the Fire Brigade, together with the fire team, assisted more or less by Charlie's dog, are at work this week near the fire hall on the levelling of Fourth Ave., and are making very satisfactory progress, with promising results.

Mr. and Mrs. D. Curtis, of Haileybury, came to town this week and will take up residence here. Mr. Curtis is equipping his new, up-to-date drug store on Third Ave., near the Theatre, and will open it for business on Saturday, May 25th.

A sale of work, under the auspices of St. Matthew's Sewing Guild, will be held at the Rectory on Thursday afternoon, May 16th. Afternoon tea will be served. In the evening, moving pictures will be shown, a musical programme rendered, and refreshments served. The evening admission fee will be 25c.

Lieut. K. Bigelow, of the Royal Air Force, came to Timmins on Sunday for a brief furlough with friends here prior to going overseas. Lieut. Spence is expected here also shortly. Lieut. Muirhead, of the R. A. F., was also to spend a furlough here this week, but orders came for overseas service before his furlough commenced.

Moneta's fine new motor fire engine truck is now stationed at the new fire hall in Moneta, and Constable McInnis is getting the running of it down to a fine art. The new fire-fighting apparatus looks well, and better still will be of material assistance in the curbing of any fires that may occur in Moneta or the other suburbs of Timmins.

Early Sunday morning Constable McInnis placed an Austrian in Moneta under arrest for neglecting to report. This Austrian has lived several months without reporting or registering. He claims now to have lost his card in Montreal six months ago. He was discovered when the police were raiding a boarding house for gambling. He is out on \$100 bail and will appear before Magistrate Atkinson.

Chief Clark this week picked up an Austrian who did not report last week and who says that he lost his card three weeks ago, but apparently did not bother applying for another one. As the Chief suspects that some cards have been "lost" recently and then used by other alien enemies to travel elsewhere where, he would like to discourage the losing of cards, or at least the failure to report the loss properly. The Austrian will come before Magistrate Atkinson on Thursday in the matter.

The visit of Bert Dewar, of the So. Porcupine Nurseries, to Timmins last Friday with a wagon load of flowers and house plants, etc., was necessarily postponed on account of the very unfavorable weather. If the weather is favorable this week, however, Mr. Dewar will be here with the load of flowers, plants, etc. Mr. Dewar has a fine supply of English Wallflowers grown right in this North Land. He is the only man ever able to grow them successfully in this country, and they will be an interesting feature of his exhibit here this week, weather permitting. The exhibit will be at Dalton's Corner.

Automobilists and others who have run over and over again the road to the river until they were tired, and the road to South End until they were sleepy, will be delighted to learn that there is a new road that will bear travelling upon in this district. This is the road into Deloro to the Gold Lake mining camps. It has been graded and stumped and is now in good condition, and will furnish a new auto route for autos and carriages. Prospector John Jones says that the scenery is magnificent and that all the black flies are stationed too near the camps to bother those using the road. A bridge has also been built across the Wealthy River by John Jones, this being another of the signs of progress down Deloro way.

As The Advance has persistently suggested, the Daylight Saving idea can be adapted to practically anything with just as wonderful results. The Haileyburian suggested that the mercury in the thermometer to be set a few degrees higher, so that we could get summer earlier and later winters. It would mean a great saving in coal. Parliament will no doubt get busy at once.

FOR SALE—TWO HOUSES, WELL located. Phone 129. W. Armitage, Timmins. 26-27p
