## Timmins News in Brief

Capt. T. Magladery, M.P.P., was a visitor to the Camp over the week-end.

Mr. Walter Borland left last week for a vacation to London, Woodstock and other Southern Ontario cities and towns.

Mr. W. S. Ackroyd, who resigned from the Provincial Police some weeks ago while stationed at South Porcupine, in now at Vancouver, B.C., where he is on the city police force as a traffic constable. Mrs. Ackroyd and daughter intend to leave next month for the Coast to join him there.

Mrs. Gladstone Taylor, formerly Miss Pansy Brewer, daughter of Mr. and Mrs. Geo. L. Brewer, of Cobalt, was the first to die in Cobalt from pneumonia following an attack of the Spanish Influenza. She died last week at the home of her parents with whom she had been visiting. Her husband was away with a surveying party in the Nipigon region and much difficulty was experienced in getting word to him of the sad news. The death of Mrs. Taylor is the first break in her parents' family circle of ten children.

Mr. Jos. Sullivan, for several years connected with the Dalton Livery and Auto business in this Camp, left last week for Winnipeg. Mrs. Sullivan had previously gone to the West and Mr. Sullivan was delayed in joining her by an attack of grippe which kept him here for several days beyond his schedule time for the trip. He intends going into business in the west in the boot and shoe line, and his many friends here will wish him the greatest success and prosperity while regretting his departure from the Camp.

Pte. M. J. Kenny, of Cobalt, who enlisted in Timmins about a year ago, is now reported as dead of wounds.

Mr. Jean Pare returned on Saturday evening from Toronto where he had gone to take the examinations for entrance into the Royal Air Force, Cadet Branch. He successfully passed the tests, was accepted and enrolled and placed on the Reserve, to be called for active service at a later date.

Following the vagaries of the Spanish Influenza scare, last week Haileybury closed down its market, but allowed public assemblies, while Cobalt closed down public assemblies, but allowed its market to run full swing. It's a funny world,—this North Land And, also, the Spanish Influenza is a queer affair.

Public School Inspector Bannister read to the Teachers' Institute at Monteith last week a poem he had written on the North Land. The official press report of the institute says he gave a "vision of teeming cities, smiling farm and garden, and the happy laughter of many children, for the North Land. And just to be a helper in it all! Should one wish more?" The Institute was so pleased and impressed with the excellence of the poem that a resolution was passed that in case of any change in the Ontario Public School readers, Mr. Bannister's poem of the North Land should be incorporated therein.

FOR STLE—SECOND HAND COAL  
Stove, base burner, as good as new.  
Apply J. W. Reed, 24 Hemlock st.,  
Timmins.

Officers Meinnis, Burke and Allen raided the house occupied by a German Pole in Moneta on Sunday evening and found a number of men there playing card games contrary to the Lord's Day Act. The keeper of the house, John Galinski, and four others were each fined \$20 and costs by Justice of the Peace Montgomery on Monday night.

While at his post at the McIntyre Mine on Friday afternoon Mr. M. A. Ellis was taken suddenly ill and had to be taken to his home where for some time it was feared that his condition was serious. His many friends, however, will be pleased to know that this week he is practically recovered, and with a day or two's rest will be as well as ever.

Figures published last week show that Magistrate Atkinson has dealt with 1073 cases and imposed fines totaling \$32,143 since the beginning of this year. These cases included the police court events of Cobalt, Haileybury, the Porcupine, and other North Land centres of justice, and it is safe betting to wager that Timmins has taken more than its share in making this record.

The Haileyburian last week says:— "Lieut. W. H. Montgomery and Sergl. Geo. Hendry arrived home last week. Lieut. Montgomery went overseas with the 159th Battalion and was on active service in France until trench fever sent him to hospital in England where he remained for some months prior to his returning to his home here. Sergl. Hendry will be remembered as an athlete of note, particularly in the football line. He is a son of Mr. and Mrs. J. Hendry, of Haileybury." Lieut. Montgomery is a brother of Mr. H. E. Montgomery, Clerk-Treasurer of Timmins.

Among the former residents of the North Land passing away last week from the effects of the Spanish Influenza were Alex. Bookalam, formerly of Cobalt, who died at Montreal, and Wh. Laird who died in Toronto. Mr. Bookalam is survived by a widow and three children. Mr. Laird was one of the pioneer barbers of the North Land, opening up business in 1906. His widow survives.

Capt. B. W. Hartley of Haileybury has invented a new and particularly promising device in automobile tire chains. This chain is a non-slipping device, fitting the tire snugly all round and is claimed to absolutely prevent skidding sideways, backwards, frontwards, edgeways or any other old ways. It is easily adjusted, made in 10-inch sections, any of which may be quickly and easily replaced. It is so constructed as to entirely eliminate the bumpiness and rattle so common to other chains. Patents are pending in Canada, Great Britain, the U. S., and Australia. Capt Hartley has some fame as an inventor, one of the shells invented by him being in use by the Allies in the present war.

The D. Y. B. Club met on Monday evening at the home of Mrs. H. Peters where they gave a linen shower to Miss O'Connor, one of the popular members of the Porcupine Telephone Co. Staff. Miss O'Connor was honored by her fellow members of the D.Y.B. Club in view of the approaching marriage, and many and sincere were the good wishes extended to her Monday evening. Miss O'Connor and Mr. Ray Swayne, formerly of Timmins, but recently of Iroquois Falls, are to be married this month, and the innumerable friends of the popular couple will join the D.Y.B. Club, in extending to the groom heartiest congratulations and to the bride the best of good wishes.

## USE A Disinfectant

Use plenty of  
Chloride of Lime  
Carbolic Acid  
Creoline, Sulphur  
Formaldehyde  
Etc.

They are all good  
and should be  
used regularly in  
times of epidemics

A throat gargle  
and mouth wash  
is a good thing  
to use, as it keeps  
the throat and the  
mouth clean and  
kills any germs  
that may enter.

Use Curtis'  
Throat Gargle.  
It sells at 25 cents  
a bottle.

Use Antiseptic  
Throat Pastilles.  
They are effective  
and can be used  
at any time.

We have a fine  
Eucalyptus  
Throat Lozenge  
in 25 cent boxes.  
They do the work

Have your  
Prescriptions  
brought here  
They will be filled  
by competent  
dispensers at  
moderate charges

THE  
CURTIS DRUG  
COMPANY  
TIMMINS - ONT.

# PRECAUTIONS TO AVOID INFLUENZA

Avoid contact with other people so far as possible. Especially avoid crowds indoors, theatres, and other places of public assemblage.

Avoid persons suffering from colds, sore throats, and coughs.

Avoid chilling the body or living in rooms of temperature below 65° or above 72° F.

Sleep and work in clean, fresh air.

Keep your hands clean and keep them out of your mouth.

Avoid expectorating in public places and see that others do likewise.

Avoid visiting the sick.

Eat plain, nourishing food and avoid alcoholic stimulants.

Cover your nose with your handkerchief when you sneeze, your mouth when you cough. Change handkerchiefs frequently. Promptly disinfect soiled handkerchiefs by boiling or washing with soap and water.

Don't worry. Keep your feet warm. Wet feet demand prompt attention. Wet clothes are dangerous and must be removed as soon as possible.

What to do for Influenza and Colds:

Oftentimes it is impossible to tell a cold from mild influenza. Therefore:

If you get a cold go to bed in a well ventilated room. Keep warm.

Keep away from other people. Do not kiss anyone. Use individual basins, and knives, forks, spoons, towels, handkerchiefs, soap, wash plates and cups.

Every case of influenza should go to bed at once under the care of a physician. The patient should stay in bed at least three days after fever has disappeared and until convalescence is well established.

The patient must not cough or sneeze except when a mask or handkerchief is held before the face.

He should be in a warm, well ventilated room.

There is no specific for the disease. Symptoms should be met as they arise.

The great danger is from pneumonia. Avoid it by staying in bed while actually ill and until convalescence is fully established.

The after effects of influenza are worse than the disease... Take care of yourself.
