ENGLISH EDITOR AND M. P. SAYS "FLU" IS SWINE FEVER.

Horatio Bottomley, the noted English Member of Parliament and editor of the weekly journal, "John Bull," claims that the "Flu" is none other than "Swine Fever," and is caused largely by the eating of American bacon, though he asserts that once it gets a start in a district it may be contracted without the actual eating of infected bacon. He asserts that a Newcastle, England, doctor had four hundred "Flu" patients and treated them all for "Swine Fever," and the treatment proved successful in each case. Bottomley further makes the startling assertion in a recent issue of "John Bull" that French doctors discovered that the mysterious malady that attacked the soldiers overseas a year or more ago was the "Swine Fever" caused by the consumption of infected American bacon. The importation of American bacon was at once stopped and disease was then checked in the army. As the doctors admit they do not know much about the cause, cure or qualities of the disease, and as the newspapers even had to manufacture a name for it, editors seem to have a right to give opinions as to what the "Flu" may be. Bottomley's guess is that it is Swine Fever. Another guess might be that it is a form of poisoning of the type of diphtheria, though specially attacking the lining of the lungs rather than the membranes of the nose, ear and throat as in diphtheria.

The "Flu" epidemic at Elk Lake has been a very severe one, fully half of the two dozen Indians there dying from the malady, as well as two or three of the white men residing in the district. During the past few days, however, there has been a considerable improvement noticeable in the situation and the epidemic seems to be fully over now for Elk Lake.

Slight for the Township. There are three murder cases, two bigamy cases, and a charge of attempted rape to come before the court. The murder charges are in connection with the Tomstown murder last year. Hansen, the discoverer of the vein at the Newray bearing his name, is one of the two men who will answer to the charge of bigamy.

**We MUST provide for the need of the
Soldier and his family!**

It is absolutely necessary to ensure certain safeguards and comforts to our boys over there and over here, so that they may be re-established in Canada, strong in body and soul, contented that we at home have stood by them to the finish. What sacrifice can we make for the boys who were prepared to sacrifice everything for us?

What the Salvation Army Has Done

It has provided comforts for fighting men since the twelfth day of the War. Hundreds of thousands of parcels of food and clothing for the boys. Tens of thousands of beds in Hostels in daily use in France, England and Canada. 197 Huts for Soldiers. 1,200 uniformed workers. 45 ambulances. Thousands of War widows cared for. Looked after soldiers' families. Labored for the Master. Helped to preserve the home ties. Given the MOTHER touch to lonely men.

What Remains to be Done

Keep the Hostels open and open more, so that every returning soldier can get a clean bed and wholesome meals at a price he can afford to pay.

Provide comforts and safeguards for our boys, advancing into Germany, as well as those coming home and needing a place to eat and sleep, in Halifax, St. John, Quebec, Montreal, Kingston, Toronto, London, Chatham, Winnipeg or Vancouver.

Guide and assist soldiers' families, especially the widows and orphans.
