The World Moves On

Printers thought the typesetting machine was not practical—

The horse breeder said the automobile would never be in general use—

The wire manufacturer said "wireless" was a dream—

Even congressmen said "heavier-than-air" flying machines were impossible—

The last to be disturbed by the wheels of progress is the single-record phonograph manufacturer, who says the playing of all records on one machine cannot be done."

"Cannot Be Done"

is now in the scrap heap, for—

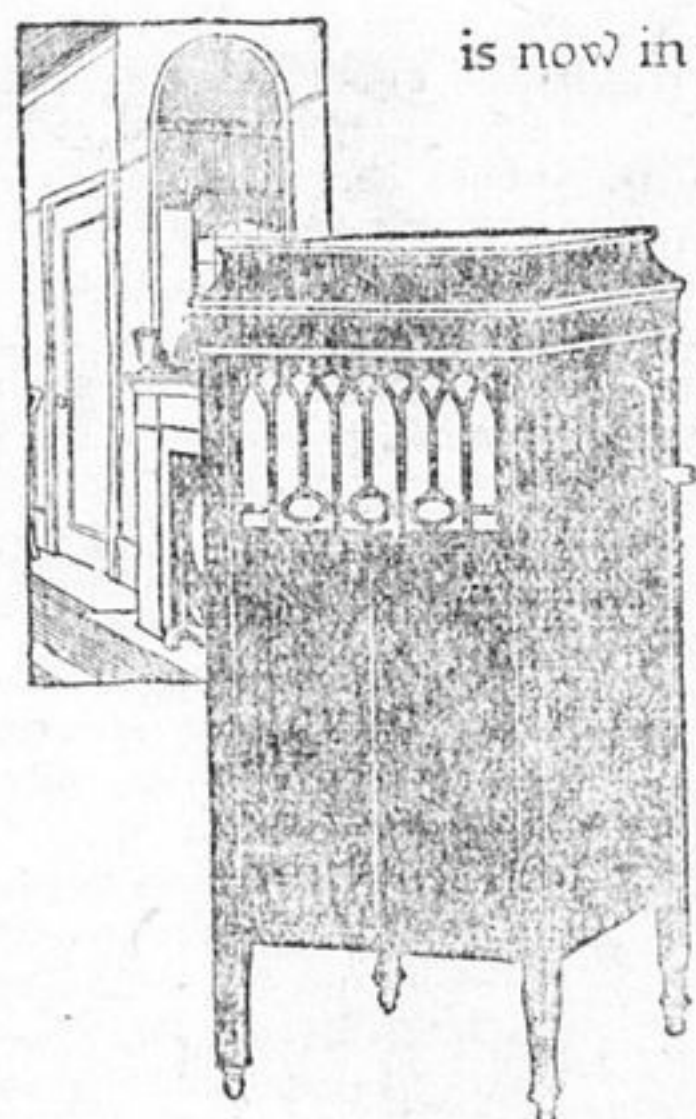

The Brunswick does it!

It attracts the eye. It pleases the ear.

It plays all records at their best.

It is All Phonographs in One

Hear the Brunswick First—Decide for Yourself.
