WEDNESDAY, MARCH 12th., 1919

MEET AND WELCOME THE RETURNING SOLDIERS.

Nearly every train now brings in one or more returning soldiers, and the people of the town should see that all the heroes coming back from overseas are given a hearty welcome home. It will be remembered how enthusiastically the crowds cheered the soldiers when they left the Camp to go overseas to fight for liberty, decency and the right. The pride felt in the gallant soldiers who left here should be far eclipsed by the pleasure now experienced by all in seeing them safe home again. Those who were so brave at cheering when the soldiers left should tune their voices to cheer double at the return of the brave men from overseas.

Two men standing at the side of the station the other night when some soldiers were being welcomed, laughed a little and said patronizingly, "Well, the cheers are not as lusty as they might be." "Why in blazes don't you join in and make them lusty then?" asked a passerby. It is true that on one or two occasions the crowd has not cheered as heartily as on some other occasions. Just to mention, however, is to do no good. The way to right it is for all to use their voices, not for superior criticism, but for cheering the returning soldiers. Cheer the boys! Hearty cheering will cheer them, and make them feel welcome home again

GOVERNMENT ASKED TO PREVENT "WILD-CATTING."

A deputation, gincluding ten prominent members of the Standard Stock Exchange, last week watted upon Hon I. B. Lucas, Attorney-General of Ontario, to seek for legislation and action that will prevent "wild-catting" and the general fleecing of the public through improper stock flotation. In view of the recent increased interest in gold and silver mining ventures on the part of the general public there is a danger that "wild-cat" schemes will become common again and that the investing public will be defrauded This will work in the end to great detriment of the legitimate mining industry as well as against legal and proper company promotion. The Ontario Government has now under consideration a bill to protect the public against the "wild-cat" style of company promotion, and the delegation last week submitted a number of suggestions to make the legislation more effective. The Attorney-General promised full consideration to the suggestions and some of tuem will likely be incorporated in the legislation to be passed this session. It is hoped to frame a law that will make it difficult to conduct companies that have only the one purpose of getting money from the public, while the issuing of false prospectuses and improper advertising literature will be dealt with in drastic manner. Whatever can be done to make the work of the dishonest promoter more difficult will make it easier for those with honest and above-board propositions.

CORPORAL HUTCHISON RETURNS FROM OVERSEAS.

Saturday evening among the soldiers returning here from overseas service was Corp. Hutchison, son of Capt. Hutchison, of Sixth Avenue, Timmins. Corp. Hutchison spent three years and seven months overseas and was through all the hard fighting of the war, having the good fortune, however, to escape injury. He has a brother still overseas, but who is expected home again shortly. In the absence of the Mayor who was out of town on professional business, other members of the Reception Committee welcomed the returned soldier home again to the Camp and escorted him to his home. Since he left here Timmins has grown much. "I would not know the town," said Carp Hutchison. At the station, Corp. Hutchison was given the usual three cheers and a tiger as a welcome from the people.

On Monday evening next, March 17th, there will be an Old Time St. Patrick's Dance at South End, the event being put on by the Hibernian Committee. There will be some novel features about the event and all are invited.

BALDWIN GOLD MINES OPENING UP THIS WEEK

Shaft to be Sunk to the 200-foot Level. Good Showings on Property.

The Baldwin Gold Mines are opening up on their property at Sesekinika this week and work will be pushed along energetically. Mr. Charlebois, formerly, manager of the Newray, is the manager in charge at the Baldwin Gold Mines and he will speed up the work on the property. The shaft is to be sunk at once to the 200-foot level, and cross-cutting is to be done at the 100-foot to cut the vein. The showings on the property have been very promising so far and there is every indication of a valuable mine. The company now in control has ample financial backing and development work is to be carried out systematically and energetically. This property was one of the favorites of the late "Lucky!" Baldwin who believed that it was one of the most promising properties that he even had any connection with. Another of the old-time prospectors who had faith in the Baldwin when others scoffed was H. Brooks who has since seen the others come around to his way of thinking, following several valuable finds on the property. The present work, started this week, will further prove up the property and show its actual value as a mining property.

PROSPECTORS GOING IN TO CLEAVER TOWNSHIP.

The reported finding of unusual showings of gold in Cleaver Township has stirred up some interest in prospecting work in that locality and a number of prospectors have gone in to look over the ground. Like most of the stories that start about big finds, however, there is little definite information obtainable as to what was found or who found it. Old-timers agree that there is gold in Cleaver Township all right, and many of them are taking a little trip in to see what is going on or if there is anything doing. "It may turn out like the find in Ogden last year," says one prospector, "but at the same time all these whispers are worth following up. That is part of the prospector's game. A man may follow a false trail a hundred times. But the next time he will land something big and good."

NEW JUDICIAL CENTRE

(Continued from page 1.)

After listening to the Town Solicitor's technical explanation of the procedure necessary the Council decided that in view of the absence of the Town Engineer who had been expected to be present with all the plans and details, it would be best to defer further consideration of the sewers and waterworks extension questions until the next meeting.

Some complaints having been made regarding the fact that many did not know the exact location of the dump and so might innocently place garbage or refuse on other property, it was thought by some of the Councillors that suitable signs might be erected for the guidance of all. The matter was eventually left in the hands of Councillor Studor to investigate the need for such signs and if he thought fit to have the necessary signs erected.

CLUB BUILDING AS WAR

(Continued from page 1)

it could not be financed this year, it would never be done.

Other speakers were Messrs. King and McKinnon, of the Miners' Union who were heartily in favor of a War Memorial, either a club building or an hospital; Councillor DeFeu, who took a similar view, illustrating the advantages of a good club building by reference to a successful one in a small British Columbia mining camp; Mr. R. J. Jemmett, who gave an interesting story of the usefulness and value of the Cobalt "Y"; and by Mr. Staples of the G.W.V.A., and G. A. Macdonald.

Mr. A. F. Brigham made warning reference to the inflated methods of finance of recent years, pointing out that it would not be so easy to finance big things to-day. This was the day when "paying" had to be done after the waste of war. However, he suggested a committee to determine definitely what was proposed and to consider its feasibility.

On motion of Mr. Longmore, seconded by Chief Borland, Messrs. G. A. Smith, R. J. Jemmett and J. W. Reed were appointed a Committee to select a larger committee to draft a definite proposal and see to its practicability This committee of three is already at work, and more extended announcement may be expected next week as to the plans and proposals.

168 CASES OF LIQUOR SEIZED AT COCHRANE.

License Inspector Blackwall had a pleased smile last week, but some other people had to go without their smiles. The License Inspector made a record seizure of liquor at Cochrane, where a carload of hay addressed to Calgary was searched. The car came from Montreal and was being shipped through closed to Calgary. In among the hay were fifty-six big boxes, each box holding three cases of liquor. Thus there were 168 cases of liquor in the car of hay. The liquor was seized, but up to date no one has made a claim for it or for the hay that covered it. While the Inspector was in town last week a great many here offered to keep part of the liquor for him, but he did not seem to think he needed this sort of assistance.

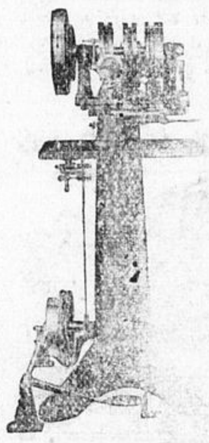
TIMMINS LOSES TO BOTH COBALT AND NEW LISKEARD

Timmins last week sent down a hockey team to play Cobalt and New Liskeard experts, and though some of the best players here were not able to take the trip the boys who did go put up a game battle ineach match. At Cobalt on Thursday night they were defeated by a score of 4 to2 after a hotly-contested game. The players for Timmins were McIntyre, Len. Smith, Lavereau, McGuire, Rice and Parker. At the end of the first period the score was a tie, one to one, and at the end of the second the Cobalt team was a goal to the lead, 3 to 2, the Silver City team making another goal in the last period. Leo. Racicot was Judge of Play, and H. Wallace was Referee for this game. At New Liskeard Timmins again put up a stiff fight but was again beaten the score being 11 to 7. Among the players going down from here, not above, were, P. Taylor D. Campbell, J. Belfavieux. The Timmins boys say that Cobalt and New Liskeard sports are the best of good fellows even if they did trim them, for they more than made up for this by the good time they gave them. There was a special dance after the game at New Liskeard for the hockey boys, and this was much enjoyed. It is hoped to have Cobalt and New Liskeard come up here for return games in the near future. From the financial end those taking down the Timmins team also lost in the game, but if the teams come up here the Gold Camp can guarantee better crowds.

PTE. LYONS WELCOMED HOME ON MONDAY NIGHT.

Pte. Lyons was welcomed home again on Monday evening, being the second of the Lyon's boys to reach here within a few days, after good service overseas. Mayor McInnis for the town and President Geo. Smith for the Great War Veterans were at the station to give official welcome, and the usual cheers greeted this returned soldier.

Word was received here this week of the death in Saskatchewan of Mrs. Mary White, sister of Mr. J. D. Maclean, of town.



SOME SHOES WEAR OUT QUICKER THAN OTHERS

But our repair work lasts the longest and looks the neatest because we use the highest grade materials and because we use "Champion" machinery. Your shoes were made by machinery, so if you want to keej them looking like new, let us repair them by machinery,—we fix them with the same kind of a machine in which they were made. Our Repairing is in a class by Itself—Best-Quickest.

Meets every first and fourth Monday evenings of each month, Oddfellows Hall, Third avenue. Visiting brethren always welcome.

L. W. Duscharm, W.M. — Otto Kabel, R.S.

Are You a Bolshevik?

Bolshevism is based upon violence, relies upon force, is deaf to right or reason.

To *force* the bowels to move by taking castor oil, pills, salts, mineral waters, etc., is to outrage Nature and "bolshevik" the body. Because drugs act by producing irritation.

Castor oil, for instance, is so obnoxious that the bowels make frantic effort to get rid of it. Other medicines, from senna to salts, provoke action by causing the bowels to try desperately to expel them first.

With such remedies therefore the removal of bowel waste is secondary and wholly incidental. Hence, the result is not to cure constipation, but on the contrary, to make it worse, more obstinate, harder to overcome.

On the other hand, Nujol is not a drug, does not act like any drug, acts mechanically, not medicinally; *persuades* Nature instead of *forcing* her.

Nujol supplies necessary moisture to soften intestinal contents and facilitate easy, thorough evacuation at regular intervals. Nujol makes easier and more effective the action of intestinal muscles. Nujol absorbs poisonous material.

Nujol is free from any deleterious after effects, forms no bad habits, can be used at any age, under any conditions, and overcomes constipation because it works hand in hand with Nature—with her laws, not against them.

Self-poisoning due to constipation causes over 90% of human illness. Get a bottle of Nujol from your druggist today, and send coupon for free booklet—*"Thirty Feet of Danger."*

Warning. Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may *suffer* from substitutes.
