TIMMINS SCHUMACHER
SOUTH PORCUPINE

Timmins News in Brief

Miss Inglis spent the week-end at her home in Engelhart.

Rev. Mr. Armes, of South Porcupine, will occupy the Presbyterian pulpit next Sunday.

Mr. L. Haleperin returned on Friday from Montreal where he was the delegate from the North Land to the big Jewish Congress.

Mr. E. J. Meyers has to have the assistance of a crutch to walk these days, having fallen from some packing boxes while unpacking goods at his store last week. He sprained his ankle badly in the fall.

Miss Laronde, of Sudbury, came up to Timmins on account of the illness of her sister, Mrs. Lawlor. Her many friends will be pleased to know that Mrs. Lawlor is now well on the way to complete recovery.

Important meeting, Porcupine Consolidated Patriotic Club, Council Chamber, Timmins, Friday, March 28th, at 4:30 p.m., for the winding up of the work of the Club and the final disposition of the funds on hand.

The Haileyburian last week said: "There is no race suicide out around John Metcalfe's hoggery. Recently one of his lady pigs presented its master with nineteen little porkers, all healthy and full of grunts. Though nineteen were born, John found that there were places at the table for only fourteen, so five had to die, that the others might live."

Subscribers to the funds of the Porcupine Consolidated Patriotic Club should make it a point of being present at the special meeting of the Club called for Friday afternoon at 4:30 in the Council Chambers, Timmins, for the winding up of the affairs of the society and the final disposition of the funds.

Eugene Gillandrio was before Magistrate Atkinson on Friday morning charged by Officer R. Allen with illegally having a quantity of gold and silver ore in his possession. His defense was that the ore belonged to his brother who had passed away. Magistrate Atkinson found the accused guilty, but allowed him to go on suspended sentence.

According to a citizen recently returned from Toronto where he had an interview with Mr. J. L. Englehart, Chairman of the T.N.O. Commission, the latter is credited with saying that actual work will be commenced on the construction of the spur line to the Mattagami River within the next week or two.

His many friends here will regret to learn of the serious accident recently happening in the city of Detroit to Mr. Sanders, formerly senior partner in the firm of Sanders & Petchersky, grocers, Timmins. Mr. Sanders in some way or another fell down the cellar while at work in the store in which he is now employed. His leg was broken in several places and he also sustained other minor injuries. According to latest reports Mr. Sanders is making satisfactory progress to recovery and all wish him an early and complete return to good health again.

Mr. Chas. P. Grill, in charge of the W.N.P.H. Stock jewelry store here, has been appointed Watch Inspector by the T.N.O., for Timmins. A wire will be run over to the Stock store so that Mr. Grill will receive T.N.O. time each day. There will also be a chronometer in the Stock store window to give the correct time for public use. Previous to this Timmins has not recently had an official T. & N.O. Watch Inspector. The appointment of Mr. Grill will be a great convenience not only to the many T. & N.O. employees making Timmins their headquarters, but to the general public who will profit from the special services now given "on time."

Birch street is suffering from the usual spring flood. The fire engine went down last night and an effort was made to pump out the water to relieve some of the water from running into cellars and houses, but the water was pouring along in such streams that the fire engine pumping made little difference. When someone joked the Fire Chief about this he had his answer ready. "I always emphasize the fact that it is better to prevent danger than to fight it," he said, "and if channels were made to carry off the water, before the floods came, there would be no trouble." Last year steels were driven down below the frost line, a little powder used, and the water found means of draining itself away underground.

Born—To Mr. and Mrs. Frank Hamilton, West Dome, on Wednesday March 19th, 1919,—a son.

Division Court will be held in the Council Chambers, South Porcupine, on Thursday of this week, March 27th.

Mr. Roy Pearce, of the Canadian Swift Co., who has been making his headquarters in Timmins, went home on Sunday to Stratford on account of illness.

All will be pleased to learn that Mrs. A. G. Carson, who has been ill for a week past with la grippe, is making satisfactory progress to complete recovery.

Mr. A. Woolner, Sales Manager of the northern division of the Canadian Swift Co., is in the Camp looking after the company's business during the absence of Mr. Roy Pearce.

All will be pleased to learn that Mrs. J. E. Wilson who has been ill with Influenza, is now making the best progress to recovery from that still prevalent malady.

Next Tuesday evening, April 1st, the Timmins I.O.O.F. will hold a Social Evening for Oddfellows only in their hall here after the regular lodge meeting. The program will include speeches, songs, and other music, smokes, and a lunch, and a pleasant time is assured for all at this Stag Party.

In order to increase the efficiency of the pulpit as a resolver of doubts, a question box will be placed in St. Matthew's Church for the use of those who desire to hear special subjects discussed. Further particulars will be announced by the Rector on Sunday evening. The usual Lenten service will be held on Friday evening at 7:30.

The subject for discussion at the Timmins Open Discussion Club in the basement of the Presbyterian Church on Thursday evening of this week will be the live, and possibly "lively" one of "Prohibition." Mr. M. B. Scott will lead the discussion, and there is a probability that the discussion will not be confined to those only who believe in Prohibition.

Pte. Herbert Parson, who gave good service overseas in the Railway Construction Battalion, came to the Camp last night and will reside in Timmins. He was given the usual welcome at the station, being met by the Mayor, the President of the G.W.V.A., and other members of the Reception Committee, and being heartily cheered by the crowd.

A man at South End last week was fined \$5.00 and costs by Magistrate Atkinson for attempting to use the meat of an animal that had apparently died from some disease or injury. No harm had resulted from the use of the meat, but the Magistrate imposed the fine to emphasize the fact that it is strictly against the law to use or attempt to use for human food the flesh of any animal that has not been slaughtered while in a healthy condition and under proper regulations.

"Amateur Night" at the New Empire Theatre last Wednesday evening was another successful event. The program of dances, songs, novelties, etc., was a long one and a good one and much enjoyed by the audience as a variation from the screen. The attendance, as usual, was more than large, many having to be turned away though the house was crowded to capacity.

Mr. A. S. Fuller returned this week from his visit of several weeks to the south, where he spent some time in New York and other centres in connection with his many mining interests in the North Land. He found a general interest in the gold industry in the south and prospects good for the attracting of much capital to the Porcupine and other parts of the North Land for the development of the resources of this great mineral country.

The following from the last issue of The Pas Herald will be of interest to the Camp, the three men named being well-known in the Porcupine. George White was one of the party going out with Mr. H. M. Paul to the Pas district more than a couple of years ago. The Pas Herald says:—"Geo. White and Gus Rosen are the finders of the 60-foot vein of quartz containing free gold, on the northeast arm of Schist Lake, according to the former, who informs The Herald that Pete Davidson is not the finder as stated." As George himself would likely say at the time, "it doesn't matter much who finds the gold, so long as it is found, but it is just as well to get things straight and fair and according to the facts."

Sergt. Geo. Drew sends a post card from Brussels, Belgium, with a view of the Statue des Comtes d'Egmont et de Hornes. On the card Sergt. Drew writes:—"Enjoying a few days in this burg, and hope to be soon on my way for home."

According to the last word received from Corporal P. Bardessono, he is still in England, and will not be back here for some weeks. In a card just received from London he says:—"I am on a 10-day leave-London, Glasgow, Ireland. Am fine and fuzzy."

Up to Tuesday evening this week there were fourteen cases of smallpox reported in Cobalt, with one death, that of an infant. A nurse at the Mines Hospital is one of the patients and a number of children are also said to be affected. The Board of Health, Town Council and the authorities in the neighboring municipalities had a conference this week to plan measures to prevent an epidemic. The type of smallpox is said to be a mild one, but precautions are being taken to prevent any spread of the disease.

A SUCCESS

Built on Superior Prescription Service

If you will observe successful drug stores in any community, you will find that most of them owe their success to the development of some special department of the business.

Some of the modern drug shops give more attention to side lines than they do to the dispensing of drugs or to the compounding of prescriptions.

Our principal success has come through our Prescription Department. This is true because we have a reputation for providing the best and purest drugs and unexcelled service. We have never permitted side lines to detract from our original and most important business Pharmacy.

Let us fill your prescriptions and supply your other drug needs
