Gone Are the Days

Couriers on horse back were good enough in '61 but they gave place to despatch bearers on motor cycles when Pershing flattened the St. Mihiel salient in forty-eight hours.

Castor oil, salts, mineral waters, pills and such purgatives were good enough in their day. Today they are giving place to Nujol. Nujol is entirely different from drugs as it does not force or irritate the bowels.

Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant. Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. All druggists. Insist on Nujol. You may suffer from substitutes.

ANDREW WILSON & CO. TORONTO AND MONTREAL

DOMESTIC SCHOOL REPORT SUMMER PROMOTIONS.

To Jr. Primer:—Irene Rowe, Carson Young, Mobra Smith, Meba Melville, Hilda Rowe, Vivian Ray, Florence Murphy.

To Sr. Primer:—Bobby McWilliams, Joe Smith, Gladstone Ray, Gordon Coleman, Vera Doran.

To Jr. First Class:—Betty Dowsett, Clifford Young, Hubert Doran, Viola Doran, Bertha Miller.

To Second Class:—Cornie Carlson, Christine Coleman, Beatrice Miller, Clauvenc Ray, Delmas Smith, Cameron Smith, Patrick Murphy, Mary Murphy, Leonard Trueliff.

To Senior Third:—George Mason, Luvinia Hodgins, Walter Coleman, Genevieve Carlson, James McWilliams, Isabella McWilliams.

To Senior Fourth:—Myrtle Spiers, Augusta Carlson, Wesley Hoekley, Dorothy Dowsett, Kenneth Dowsett. Average Attendance, 40.7.

M. J. LYNCH, Teacher

NORTHERN LEAGUE TO PLAY COBALT AND DISTRICT

Arrangements are being completed for "home and home" games between the Northern Ontario Football League and the league that has been established for Cobalt and district. The secretary of the Northern Ontario Football League, (including Timmins, McIntyre, South Porcupine and Iroquois Falls) has recently been in communication with the secretary for the Cobalt and district league, and both districts are ready and anxious to have home and home matches later in the season. It is likely that the Cobalt and district league will bring up here a team picked from the best players in the league games down there to try conclusions with a team of the best available men from Timmins, Schumacher, South Porcupine and Iroquois Falls teams, and then a team from up here will visit Cobalt under similar conditions. These games should be of special interest.

MCINTYRE-LOSE FIRST LEAGUE GAME TO FALLS.

Friday evening and Saturday last there was considerable talk of a rough and desperate game at Iroquois Falls on Friday between the McIntyre and Iroquois Falls football teams in the Northern Ontario Football League series. According to these stories there were fights innumerable and a general horrible time; the referee was "rotten," and the home team were bent on murdering all the McIntyres; and so on. The McIntyre team arrived home on Saturday morning with four or five of the players a little crippled for the time being, and so giving a certain air of truth to the stories. The official report of the McIntyre Football Team gives an altogether different version, the article as received this week by The Advance being as follows:—

The McIntyre team journeyed to Iroquois Falls on Friday last and in a keenly-contested game came out second best, the score being 1 to 0, in favor of the Falls. The visiting team were unfortunate in losing the services of Northey, their left back, early in the game, owing to an injured ankle, but the result of the game was in doubt up to the last, the Falls scoring a goal with about 15 minutes to go, and in spite of strenuous efforts the McIntyre bunch failed to equalize the score. A good number of rooters of both sexes went in with the visiting team and stayed over night at the Big Paper Mill Town. The game was featured by good, clean, sportsmanlike play on both sides the good-natured rooting of the Falls bunch, and the hospitality shown the visitors was greatly appreciated by all who went in. The Referee, Mr. E. Burton, handled the game with rare skill and judgment, his decisions meeting with unusual approval. We doubt if any game could be played under more pleasant conditions than the McIntyre-Iroquois Falls game was, and the day will be long remembered by all lovers of good Soccer who were present.

PAYING OUT MORE THAN PRODUCED AT KIRKLAND

A correspondent at Kirkland Lake calls attention to the fact that at the time the strike was recently called in the Kirkland Lake district, the mines of that camp were paying out about \$50,000.00 per month more than received for the gold produced. The gold production for the camp was approximately at the rate of \$100,000.00 per month, while \$75,000.00 per month was taken for the payroll and about \$75,000.00 more for supplies, machinery, etc. The mines were thus expending about \$150,000.00 a month in gold for a production of \$100,000.00 a month in gold, or, as the correspondent figures it "the shareholders were applying their funds towards maintaining the mines for the benefit of the mine workers, but they were also obliged to contribute an additional amount of \$50,000.00 a month to meet the payroll." This may sound all right, if said quickly enough, but when said slowly, and considered, it does not sound very logical or fair. Only two or three mines at the Camp have reached the real producing stage, and of these the Lake Shore has been responsible for the bigger part of the production so far. And taking into account all charges, the Lake Shore Mine is now on a dividend-paying basis. The point is that the majority of the mines in the Kirkland Camp are still in the development stage when money must be expended in the hopes of getting dividends later on. It is not likely that the shareholders are spending their money just to make work for the men. Even the strikers at Kirkland Lake would not suggest such a reflection on the prospects of the Camp. Money is spent, without return at the time, that good profits may be realized later on. But the fact that present money is being spent in the hopes of future returns is a good enough reason why the employees should not rush too far in demands of this or that. In the days when the employers are "taking chances," it is well for the men also to cultivate the "wait a little" spirit. When money is going out faster than it comes in, it takes a lot of "showing" to induce increased expenditures.

TWO LADS MADE 470,000 LOAVES IN FOUR MONTHS

A paragraph in the Beckenham and Penge Advertiser publisher at Beckenham, England, would be of general interest on account of the unusual working record made by two lads, but to readers in Timmins it will have a special interest on account of the fact that one of the young men concerned is a brother of Mr. Wm. Field, of this town. Under the heading of "An Interesting Presentation," the Beckenham Advertiser says:— "On Tuesday last Mr. F. Godbold, baker and confectioner, of Churchfield Road, Beckenham, presented, two employees, Arthur Field, 15 years, and John Willis, 13 years of age, respectively, each with a silver watch suitably inscribed for their excellent work during his recent severe illness. Arthur Field has worked whole time for Mr. Godbold since leaving Churchfields school, and John Willis out of school hours. Mr. Godbold states that during four months these two boys turned out no less than the almost incredible number of 470,000 loaves, and he desired to recognize such magnificent efforts. The presentation took place in Churchfield School before a large number of boys, and Mr. Dixon, the headmaster, drew attention to the value of such an example to all boys, and the grandness of spirit which prompted such actions. Complimenting Mr. Godbold upon having such workers, Mr. Dixon said he most heartily congratulated the boys also in having such an excellent master. Both the boys and their master were heartily applauded."

The record made by the two boys over so lengthy a period is certainly both unusual and most creditable. The record of 475,000 loaves turned out in four months is a remarkable one, meaning an output of around 4000 loaves each day. For two men to handle this work would be worthy of mention, for the steadiness and attention to duty implied, but for two mere lads to continue for four months on such a standard is deserving more than passing mention. Some people on this continent would have the world believe that all the hustlers and workers are on this side of the ocean and that no matter how sure folks may be in the old land they are a "little slow." There does not seem to be anything "slow" about the record of these two lads and if any "hustler" on this side of the sea can better the record let him "speak now or forever hold his peace" regarding the "slowness" of old country folks.

The school here closed last week for the summer vacation. The Entrance to High School examinations are on this week.

It is Different Because It is Dry

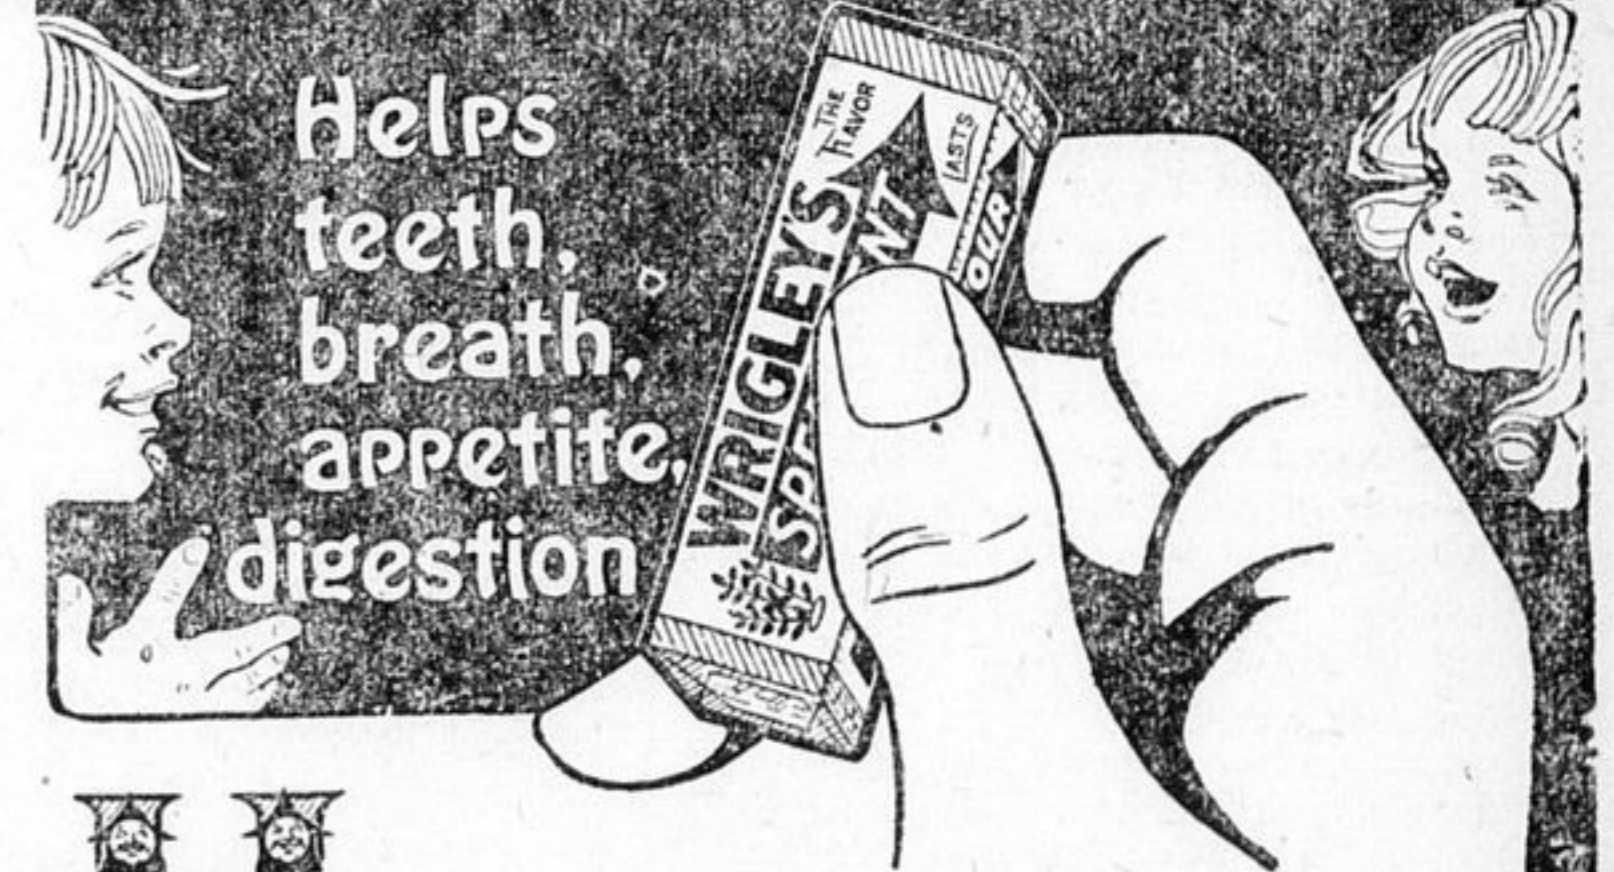

IN the last few years, powdered separated milk has become almost a necessity in Canadian homes in the dry form—KLIM. It is so easy to order Klim from the grocer and use it from the clean tin as needed. There is no waste with Klim; it remains sweet and fresh until all used. Saves bottle washing, sour milk waste and delayed meals waiting for the milkman.

Try a tin from your grocer.
