KLIM

Reverses Your Ideas About Milk

PURE pasteurized separated milk is converted from a liquid into Klim, a dry powder, by the well known "spray process." The valuable protein and rich food content of liquid separated milk is, therefore, concentrated in powder form.

Klim is pure, sweet and keeps fresh until used. It retains the natural flavor. Use this dry powdered separated milk instead of liquid separated milk.

Reverse your ideas and save time, trouble and money. Get it at your Grocer's.

We have five modern milk powder plants in Ontario.

LADIES ORGANIZE FOR THE COMING ELECTION

The Conservative ladies of Temiskaming District met last week in South Porcupine to marshal their forces for the elections that are impending. The officers for the coming year were elected and Committees for the different sections of the District appointed, and plans of action agreed upon.

Mrs. J. O. Thomas, Manager of "The Iroquois Hotel" at Iroquois Falls, was elected President, and Miss MacDonald, of South Porcupine, will be the Secretary.

The ladies will start their campaign in the near future.

IROQUOIS FALLS MASONS SEND ADDRESS TO PRINCE

Early in June when it was understood that His Royal Highness the Prince of Wales would visit Canada this fall, the Abitibi Lodge, A.F. & A.M., No. 540, promptly got together and appointed a committee to extend to him their fraternal greetings in the shape of an invitation to visit them at the big paper town. The committee was composed of Mayor S. G. McCoubrey, (Junior Warden), Town Clerk, A. J. Hodgson, (Chaplain), and School Trustee James R. Spence, (Secretary). Messrs Ryrie Brothers have completed the invitation which is engraved on vellum by hand, and it has been sent to His Royal Highness in care of Lieut.-Colonel Henderson, Private Secretary to His Excellency the Governor-General. The invitation has been done in duplicate, the second copy to be suitably framed and hung in the temple as a souvenir, while a number of photographic copies have been supplied for the officers of the lodge. Once more it seems that Iroquois Falls has taken an early lead in the matter of showing that the North Land is not only loyal but up-to-date and anxious that all should know the possibilities of this great country and its industries.

BIG TIME AT I. O. O. F. PICNIC THIS WEEK

Arrangements are now complete for the fifth annual Oddfellows Picnic, to be held to-day (Wednesday), August 13th, at Wilson's Farm, Golden City. There is no more pleasing spot in the whole North Land for such an event than good old Golden City. All that remains now to make the event an unqualified success is the right type of weather for the day. The train service now gives easy access to the Picnic for all the many who will go from Timmins, Selumacher and South End, while the returning train leaving the grounds shortly after five o'clock is also convenient for the majority. The Rosedale crossing is right alongside the picnic grounds so that the railway is convenient enough for all attending. The programme for the day promises to be a very enjoyable one. It will include baseball, and other sports, races for men, ladies, boys, girls, fat men, married ladies swimming races, canoe races, and other pleasing features. The past successes of these Oddfellows Picnics assure all attending that they will have a pleasant day's outing at one of the Porcupine's beauty and comfort spots and that the sports of the day will be interesting and keenly contested.

LACROSSE MATCHES ON THE DISTRICT SCHEDULE

The lacrosse match scheduled for last Thursday evening, to be played here between McIntyre and Timmins, was postponed on account of the Hollinger Dinner to Returned Men that evening. It is not definitely known when this match will be played off; indeed, it will likely be left until the end of the season, and that means that it may not be necessary or convenient to play it at all. Now, the games on the schedule are to be gone on with. On Friday of this week, August 15th, Timmins plays again at McIntyre and on Tuesday next August 19th, McIntyre is scheduled to play here. It is understood that the McIntyres have strengthened their team considerably and thus, with good practices in the meantime, will mean that they are prepared to put up a lively contest each game during the balance of the season. There are six games on the Lacrosse Schedule, only one of which has been played, Timmins winning easily from McIntyre, the score being 9 to 1. Counting the deferred game of last week there are still five matches to play and the McIntyre wisely believe that anything may happen before the end of the season, so they intend to "Keep toddling along" with victory in their eye.

FIGURING TIE PINS BY THE TON AT THE PAS

Formal announcement is made by The Pas Herald that Jim Fleming is going to have a gold nugget searf pin

made, and that the said searf pin will be worth about \$1.35. Jim got the nugget from Jacob Cook who in his turn secured it from Copper Lake where the recent gold discovery was made. The Herald figures that this nugget would assay \$135,000.00 in gold to the ton, but as a searf pin it will only be worth about \$1.35. There are several tie pins in the Porcupine that run over \$5.00 in gold each, when Officer R. Allen is not watching, and nuggets from the Croesus in Munroe would run even higher in value, and not be very large tie pins at that. There is considerable talk of the big gold find at Copper Lake, but according to all the information yet given out while the discovery indicates a high-grade proposition from the general viewpoint, it is not high-grade from the standard of the Porcupine. Here, for instance, the Hollinger is milling over 2200 tons of ore a day and all that immense quantity averages \$10.00 in gold to the ton. The find at Copper Lake is reported as giving no better assay than \$14.00 to the ton, while some of the samples run as low as \$9.00. These would naturally be picked samples, and if the "picked samples" were used of Porcupine ore, it would not take 100,000 small tie pins to make \$135,000.00 in gold to the ton. When one of the officials of the Hollinger a couple of years ago was questioned regarding a strike at the Hollinger assaying over \$5,000 in gold to the ton, he admitted that ore had been encountered at the mine that beat that figure about 50 ways. "But that is really of no importance," he said, "these little pockets of gold are not half as important as the fact that they occurred in a good sized body of ore that ran about \$100.00 a ton in gold." That is what the Porcupine would call high-grade—that \$100.00 a ton kind. For a gold find, the Porcupine will take a lot of beating yet.

IMPORTANT MEETING OF GREAT WAR VETERANS

An important meeting of the Goldfields Branch of the Great War Veterans Association is called for Sunday evening next, August 16th, at 8.15 p.m. sharp, in the Club Rooms, over King's Amusement Parlors. Special business is to be dealt with and as the posters say, "every member is not only requested, but expected, to be present for the welfare of the Association."
