

# CHRISTMAS VOTING CONTEST

Prizes—\$50.00 in Cash—Prizes

First Prize \$25.00 Cash  
 Second Prize \$15.00 Cash  
 Third Prize \$10.00 Cash

Contest open to all children—boys and girls up to the age of 15 years.  
 Each 10c purchase means one vote; Each 50c purchase means 5 votes;  
 Each \$1.00 purchase means 10 votes and so on.  
 Save your votes for your favorite boy or girl.

Contest starts Thurs., Nov. 6  
 and continues until Evening of December 24th

Lists with names of ten leaders will be posted up every day in our store and each week in the Advance.  
 Entry forms may be had at our store, or form may be used that is in corner of this advertisement.  
 Prizes will be given out the night before Christmas.  
 Every purchaser is entitled to the number of votes, according to amount of purchase.  
 Children who are entered in the contest should get all their friends to save votes for them, as every vote will count.  
 Votes as collected should be deposited in ballot box, which will be placed in our store. This will enable us to keep the lists up to date.

ANDREW WILSON & CO. TORONTO and MONTREAL

## Timmins News in Brief

The success of the 1919 Victory Loan campaign is absolutely necessary to combine prosperity with peace.

Mr. D. Ostrosser recently moved into his new residence on the hill, purchased some weeks ago from Mrs. W. H. Wilson.

Readers should remember that the bidding on the stove at the Taylor Hardware closes on Nov. 15th. The Taylor Hardware has placed a fine \$60.00 range to be sold to the highest bidder. Anyone can bid any amount on the stove and the highest bid made takes the stove after Nov. 15th.

His innumerable friends in town will be delighted to hear that Mr. J. D. Maclean is making very satisfactory progress to complete recovery under the medical treatment being given in the General Hospital at Toronto. Last week Jack underwent an operation that brought gratifying results and he has been making even better than usual progress since that operation. It was intended in this operation to insert a section of bone in the spine to repair injuries there, but during the operation it was found that this grafting would not be necessary, as Jack's vitality and recuperative powers had been of such order that during his stay in the hospital under treatment the injured bone had healed itself and thus laid the way clear for an early recovery without the expected delicate grafting operation.

In the Victory Loan campaign Mr. Kitchen, of Schumacher, made a record last week. He is chairman of the canvassing committee for Schumacher, and the Town's objective being set at \$5,000 he more than made the objective early last week, his returns on Tuesday evening totalling over \$5100.00. And he is still "on the job," tempted now, perhaps, to make a new objective for himself. As the McIntyre team will canvass the greater part of the people of Schumacher, it was naturally believed that the Town itself could not be expected to give very large contributions to the Victory Loan apart from what would come under the McIntyre team. Mr. Kitchen, however, set the right sort of example in the matter and if all the other teams achieve their objective and then keep right on, then this district will win a big victory in the 1919 Victory Loan campaign.

Mrs. E. Stevens left last week for a visit to Waverley, Mass., U. S. A., and other points south.

It is understood that Iroquois Falls intends to erect a fine new closed skating rink this year in readiness for the season's hockey.

Mr. R. T. Shillington, of Haileybury, was a visitor to the Camp last week. Mr. Shillington left this week for Texas to visit the oil fields there in which he is interested.

District Deputy Grand Master W. M. Whyte, of South Porcupine, together with other District officers, will pay an official visit to the Timmins Lodge of the I. O. O. F. on Tuesday evening next Nov. 11th.

Duncans Limited, wholesale dealers in fruits, vegetables, confectionery, etc., have moved into their new premises in the Lawrence block, opposite the post office. Watch for their advertisement in these columns next week.

Messrs. Jos. Treco and Pete Blondino are reported as having been drowned in Kirkland Lake on Saturday. They failed to appear after setting out to cross the lake and searching parties found their canoe upturned and their hats and coats floating on the water. Blondino is a brother of Mrs. Treco, so if the men are drowned as it is now feared they are Mrs. Treco will be doubly bereaved by the tragedy, losing both her husband and her brother.

At the Division Court sittings here last Thursday in the Union Hall there were 37 cases coming before Judge Hayward. Practically all of the cases were regarding outstanding debts. Four of the cases were adjourned to next court, the others being duly disposed of.

Mr. R. Stewart, district manager of the Canadian Explosives Company, is a business visitor to the Camp this week. The Canadian Explosives Company this year as in the past is showing its interest and attachment to the country by its bond purchases. This year the Company has purchased \$15,000.00 worth of 1919 Victory Bonds at its Cobalt office, while here at Timmins another \$15,000.00 worth of bonds are being bought.

## BOWLING! THE PASSPORT TO HEALTH.

Baseball is the national outdoor game of this country. Bowling is the national indoor game. In practically every city in our country one can find hundreds, if not thousands, of both sexes and all ages, enjoying bowling.

One reason why bowling is so popular is because it is so interesting. The element of luck does not predominate in this game but is just enough of a factor to make the recreation intensely fascinating. The unexpected is continually happening. Every frame in a game of bowling is like a chapter of an exciting story. One can hardly wait to see what is to come next.

But bowling is primarily a game of skill and science, and therefore develops accuracy, and a strong, keen and quick mind. It makes no difference how much one bowls there are always new combinations to solve. No one has ever yet or ever will become a perfect bowler. Like any of the sciences, there is always more to learn.

While perfection at bowls is impossible, yet bowling is the only popular game in which one is able to secure a perfect score.

There are no professional bowlers. A professional bowler would be one who made his livelihood by bowling. But one who had to earn a living by bowling would not live long. Bowling is a clean sport and the only popular recreation which is absolutely free from professionalism.

Bowling is one of the most social games known. Every bowling alley is a social centre which radiates sociability. No one can become a frequent or of bowling alleys without becoming more companionable. Short lived is the grouch who would bowl.

It is a scientific fact that bowling is one of the best exercises known. The thumb and finger which fit into the two holes of the ball will always give out before the bowler can over-exercise. They act as an indicator, always keeping the player posted on how much exercise he is to take.

Bowling is a mild exercise which tones up practically every muscle in the body, without, as already indicated, overtaxing any. It increases the circulation of the blood, acting as a tonic without any deteriorating after effects. A great many people do not care for the more strenuous forms of recreation.

If you wish to enjoy the benefits and pleasures of bowling call at **KING'S AMUSEMENT PARLORS.** We will look after you.
