## U.S. EDITORS PLEASSED AND IMPRESSED WITH VISIT

Send Mayor Letter of Appreciation Regarding Visit to Timmins.

The following letter from the party of the National Editorial Association of the U. S. A. on their tour of Eastern Canada this year explains itself and makes interesting and pleasing reading. About 150 members of the National Editorial Association visited Timmins on Thursday, June 24, and last week Dr. McInnis, Mayor of Timmins, received this letter as an expression of their attitude regarding the visit here.

En Route at Windsor, Ontario, June 29th, 1920.

Dr. J. A. McInnis, Mayor of Timmins, Ont.

Your Worship:—The reception tendered to the National Editorial Association of America while guests in your community was one of such cordiality and so strongly expressed your feeling of friendship that we wish you to know we appreciate most heartily the many fine things you did for us.

You and your committees left nothing undone to make our stay a pleasant one and we carried away memories of Timmins that will never be forgotten.

Your cordiality in particular has had much to do with giving us new ideas concerning the relations of Canada to citizens of the States; it has done much towards cementing that friendship which will always endure and will grow more intense as time goes on.

Through your zealous solicitude for us and your pronounced endeavour to show us the advantages and vast resources of the Dominion, we leave for our homes with a far broader knowledge of the industrial and social life in Canada than we possessed before.

We are confident that our sojourn in the Dominion will bind more closely by ties of lasting fraternity the peoples of these two great countries whose interests are so largely mutual. Though we live under separate flags, may our hearts always beat as one.

Yours Sincerely,

Will Wilke, President.  
Geo. Schlosser, Secretary.  
J. E. Junkin.  
W. J. Smith.  
L. S. Whitcomb.  
Geo. W. Merble.  
Geo. P. Collins.

### WHERE SHALL I GO ON MY VACATION TRIP?

This is the question of the hour. But those who know the charms of the Great Lakes have already made plans for their annual pilgrimage to America's Wonderland, Lake Erie with its incomparable fleet of magnificent passenger vessels is especially attractive to travelers, and plying its waters you will find some of the largest and most palatial steamers.

Of these the Great Ship "Seeandbee," operating daily between Cleveland and Buffalo, is undoubtedly the most popular. The "Seeandbee" is the largest and most costly steamer on inland waters of the world, and her immense proportions and luxurious appointments prompts passengers to call her "The Floating Hotel."

The traveler finds rest and comfort via this lake route. By boarding the steamer at Cleveland or Buffalo at 9:00 p.m. (Eastern Standard Time) he may break the monotony of his all rail journey, enjoy a night of refreshing sleep and reach destination the following morning at 7:30.

The annual convention of the Northern Association of Baptist Churches, embracing a territory from Cochrane to Sudbury, met last week at Sudbury with about 50 delegates present, including Rev. J. W. Edwards, of Cochrane, the Moderator, Rev. H. B. Cummins, Home Missions Superintendent, Toronto, and others.

## Read this challenge—

by the Edison Laboratories, and come in to hear the phonograph which stands behind it.

We have it in our store—the Official Laboratory Model specified in the challenge.

Read the "Invitation to Talking-Machine Manufacturers." It's printed here, just as the Edison Laboratories sent it out.

## The NEW EDISON

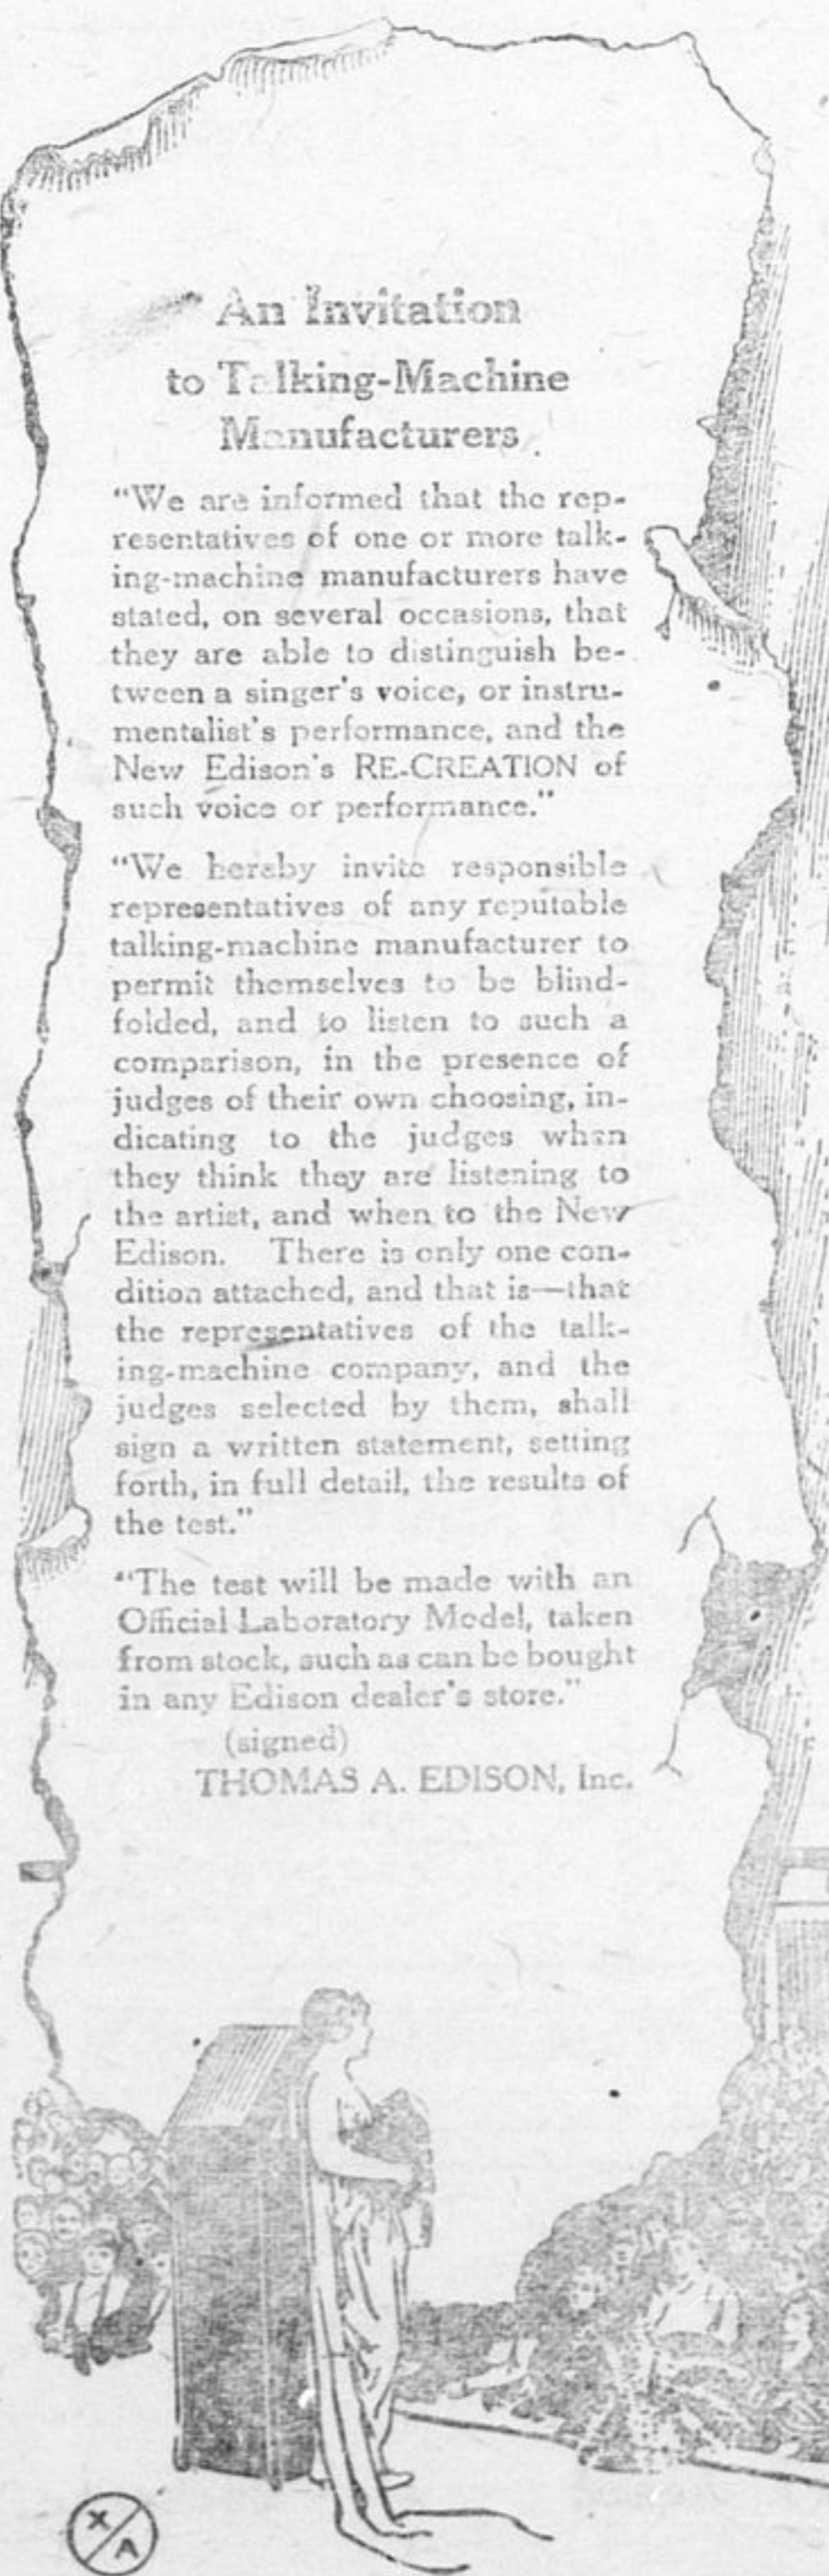

"The Phonograph with a Soul"

The Official Laboratory Model has proved its Realism in 4000 Comparison Tests, made before 3,500,000 people all over the United States and Canada. For instance, in Los Angeles recently, an audience of 1,500 people was unable to tell the difference between the living voice of Miss Marie Morrissey, world-famous contralto, and its RE-CREATION by the New Edison.

There's a way for you to test the wonderful Realism claimed for the Official Laboratory Model in this sweeping challenge. We give Mr. Edison's Realism Test. Come in and let us give it to you.

The price of the new Edison has advanced less than 15% since August 1, 1914. Mr. Edison has absorbed the bulk of the increased cost of material, skilled labor, and taxes. He is determined to keep the New Edison within the reach of everyone. But conditions may force a price-advance. Buy your New Edison now! Our Budget Plan makes it easy. It is system applied to spending. Ask about it.
