### NAVY LEAGUE CONCERT NETTED NEARLY A HUNDRED

Good Attendance and Interesting Programme in Campaign Here.

Last week exigencies of space prevented due reference to the concert given on the previous Sunday evening in connection with the campaign in Timmins for the Navy League of Canada. The event, however, should not pass unnoticed. The theatre was well filled for the occasion, and the collection taken at the door netted close to one hundred dollars. Dr. McInnis, Mayor of Timmins, presided, and in opening the meeting explained that Timmins had not reached its objective in the Navy League campaign and that he felt that the people here would not wish to let the matter drop until the objective was reached. Timmins had never failed before in any of the calls made upon the town for good causes and he was sure that this community would not fail in this one,—for the sailors and their dependents. He emphasized the outstanding advantages and the vital necessity for interest in naval matters, and showed how Canada's prosperity could be established and assured on trade built up through a mercantile marine.

The programme was furnished largely by pupils of Mr. H. F. Schroeder. There were excellent violin selections by Henry Martin, Corona Laporte and J. Slotnick, while an attractive piano duet was well rendered by Misses Sara and Doris Slotnick. Mr. Schroeder played the accompaniments for the violin selections. The Timmins Citizens' Band also furnished fine music during the evening, while another outstanding feature much enjoyed by the audience was the cornet solo by Mr. W. J. Browne. The audience insisted on an encore from Mr. Browne, and it was quite evident that his good work as a cornet soloist was much appreciated. Another special feature of the evening was the singing of Master Frank Carnow. All lovers of music were delighted with the beautiful soprano voice and the sweet singing of this gifted lad. Mrs. J. W. Faithful played the accompaniments.

The picture showing the gold industry and the Hollinger and other mines, and the film of paper-making at Iroquois Falls were put on the screen during the evening and proved interesting items on the evening's programme.

In closing the meeting the Mayor thanked all for their attendance, the theatre management for the free use of the hall, Mr. Schroeder for his kindness, and all on the programme for their valued assistance.

### MORE PLANT AND MORE WORK AT ASSOCIATED.

There will be difference of opinion no doubt in regard to the Associated Gold Fields until the property is proven a mine or something else happens, as the case may be. Some think it will develop into a world beater, while others have doubts about it generally. Some of the claims made for this Larder Lake property seem very strong, but many even of the old-timers appear to have the opinion that the property will eventually justify the optimism now shown. In any event work is going along on the property, and statements credited to the management, and the criticism aroused by these statements, all go to advertise the Associated Goldfields and keep it in public notice. Work is now announced as resumed on the sinking of the three-compartment shaft. This is the shaft in which spectacular values were encountered, the samples assaying \$25.00 per ton, and liberal quantities of free gold being in evidence. A new compressor has been installed at this shaft. The Associated Goldfields is also developing a water power capable of supplying a total of 5,000 horse power at Windego Falls, and machinery and supplies have recently been taken in for this work. The work of cutting a flume in the rock alongside the falls is now going along satisfactorily.

### HELLO! TEMISKAMING HAS THREE THOUSAND PHONES.

Figures published last week by the Haileyburian show that the Temiskaming Telephone Company have now in use about 2000 phones. Perhaps The Cobalt Daily Nugget will claim that Haileyburian show that the Temiskaming from The Nugget, but The Advance will not believe this unless the figures are incorrect or shamefully twisted. The figures show that the Temiskaming Company has 1879 telephones in its different exchanges. Cobalt and New Liskeard each have 522 instruments; Haileybury has 506; Englehart, 118; and Charlton 96. There are also exchanges at Pearson's Landing and at Ville Marie, while many farmers through the districts served by the Temiskaming Telephone Company are also supplied with phones through private lines. The district served by the Temiskaming Company will easily include 2000 phones. This further north section will account for another 1000 phones. In addition to the smaller exchanges, there are exchanges like Timmins, South Porcupine, Cochrane, etc., to be considered. In Timmins, Moneta and Schumacher, all served by the Timmins Exchange there are close to 300 phones. The last telephone directory showed a list of 253 phones in the Timmins Exchange. More names have been added since then. In addition the list includes private exchanges like the Hollinger Gold Mines and the McIntyre-Porcupine where there are phone connections with all the different departments of the offices and plants. The South Porcupine exchange has a list of nearly a hundred. Cochrane has a telephone exchange with a number of phones in commission. At present the telephone system in the town of Cochrane is being taken over by the Town. Then the Iroquois Falls and district phones, the phones at Matheson and other centres must be remembered and mention may also be specially made of the wireless telephone established by the Abitibi Power & Paper Co., for use between Iroquois Falls and Twin Falls. Altogether, there will be 3000 telephones in use in Temiskaming, which is a pretty good showing for a young country where there are so many difficulties to surmount and so much to do. The member of phones in towns like Cobalt, Haileybury, New Liskeard, Timmins, etc., indicate the modern and up-to-date style of the citizens and business people generally.

On Friday evening of this week, Nov. 26th there will be a pleasing dance in the Masonic Hall under the auspices of the Ladies Guild of St. Matthew's. Dancing will commence at 9.30. The best of music will be furnished for the occasion, and all other features will be up to the usual high standard.
