THORNLOE FARMER WANTS MORE ATTENTION TO NORTH

Little comment is necessary on the following letter recently published in The Farmer's Sun of Toronto under the heading "A Settler Protests." The letter is from the pen of Mr. Hugh Cook, of Thornloe, and he says: Kindly allow me space in your valuable paper to give our views re roads in New Ontario. I am not after the Drury Government in particular, as I myself am a U.F.O. supporter, but I think a little friendly criticism will not come amiss. I have been a settler here over twenty years, when both former Governments were in power, and I can say the Drury Government has used us as well as either of the former Governments ever did.

This year we have an expenditure of \$4,800 in our township, one half of which is paid by the Province, besides we have a straight grant of about \$3,500—quite liberal some people may say.

I read in one of the papers that last year they had spent \$80,000 on one mile of speedway in Old Ontario. If this is true, that means that one mile of road in Ontario has as much money spent on it as we receive to build roads in ten or twelve townships here, where we certainly need roads. Also those in this country who can afford autos and can only use them from four to five months in a year on account of bad roads have to pay the same license fee as they do in the older province, where they can use them ten to twelve months.

I am not in sympathy with those who are talking secession, yet is it any wonder when you consider the large sums which they receive every year in timber dues, timber limits, and royalty on minerals from this country?

The sooner those in control see this matter in a right light and give a little more thought to the needs of New Ontario, the better it will be for all concerned.

POSTPONED DISTRICT GAME AGAIN POSTPONED

Timmins District Baseball Team left here on Monday to go to Cochrane to play the postponed game with that team. The local boys, however, did not get any further than Pigeon Junction. Before they got that far the heavy rain was coming down as heavy as Hon. Mr. Raney on a boot-legger. A telephone message from Cochrane gave the information that the grounds there were not in shape for a game. Cochrane is a "clay belt" town and a little rain makes a lot of heavy mud. Consequently it was necessary to postpone the postponed game some more. There was rain in Cochrane on Sunday also, so perhaps it was as well that the Timmins team did not reach Cochrane, even if there had been no rain on Monday. The Sunday rain would have stuck to the Cochrane clay and the Cochrane clay would have stuck to the Monday ball-players. However, there will likely be a fine day some time this summer that will allow Timmins to go up to Cochrane and win from that team on their own grounds.
