ASSOCIATED BOARDS OF TRADE MEET THIS WEEK

Immigration and House of Industry For Temiskaming to be Among Special Questions Before Annual Meeting.

The annual meeting of the Temiskaming and Northern Ontario Associated Boards of Trade is to be held this week at New Liskeard, Thursday, Friday and Saturday, September 14th, 15th, and 16th,—the days of the Liskeard Fair.

As this is the annual meeting of the Associated Boards of Trade one of the chief items of importance will be the selection of a president for the ensuing year. Mr. R. A. McInnis, of Iroquois Falls, who has given unusually effective and advantageous service as president of the Associated Boards has resigned, the resignation to take effect at the meeting this week. Mr. McInnis put life into the work of the Associated Boards of Trade and made an excellent start to transforming the body into the real voice of the North Land. It would be a good thing, indeed, for the general advantage of the North Land if he could be induced to reconsider his resignation and again take the position as head of the Associated Boards. He is the ideal man for the post, having courage, vision and energy, together with unusual capability and public-spiritedness. Under his presidency the Associated Boards developed an outstanding usefulness and became especially representative of the North and its spirit of progress. The Associated Boards of Trade include all the Boards of Trade of all the towns in this part of the North Land from North Bay to Cochrane. Recently Cobalt, Haileybury, New Liskeard, Kirkland Lake and Swastika, Englehart, Charlton, Matheson, Iroquois Falls and district, Timmins, South Porcupine, Schumacher, and Cochrane have been well represented at the Associated Boards of Trade gatherings.

At the meeting to be held on Thursday, Friday, Saturday of this week at New Liskeard, in addition to the election of officers and the discussion of such general matters as roads, forest fire protection, agricultural development, etc., etc., two special questions will be forward. Both the topics referred to will be introduced by representatives from Charlton Board of Trade. One of these topics will be a further discussion on Immigration. This question was brought up at the last session at Kirkland Lake in June, but in view of the Ontario Government's unsympathetic attitude, Charlton wishes a further consideration of the matter. Charlton, in brief, contends that Temiskaming offers as attractive a field for British immigrants as does Old Ontario, and thinks that this district should be grouped with the southern part of the Province in taking advantage of the British Empire Settlement Act, instead of including Temiskaming with the newer parts of Northern Ontario.

The other special topic is a proposal from Charlton Board of Trade that the Ontario Government establish a House of Industry for Temiskaming. It is expected that there will be a number of prominent speakers on agricultural topics for the annual meeting of the Associated Boards this week, the meeting being classed as an agricultural session. For some time past while general matters of interest have been fully dealt with, meetings have been made special "mining," "agricultural," or "forestry industries" meetings according to the chief interest of the centre where they might be held. Thus meetings at Timmins and Kirkland Lake and Swastika were special mining meetings, the meeting at Iroquois Falls dealt largely with problems of the forest industries, and the session at Liskeard will be a special agricultural meeting.

NATIONAL "5c.-TO-\$1" STORE TO OPEN HERE OCT. 4th.

As Charlie keeps on saying, Timmins gets more like Nu Yawk every day. The Woolworths haven't opened here yet, but nearly so. The National "5c.-to-\$1" Store is to open here in the new Bardessono block about Oct. 4th. Some years ago Timmins had a 5, 10 and 15 cent store and recently this was re-opened here. The store, however, does not carry on up on the large scale of the Woolworths. The latter plan of big operations is only possible in large centres of population. Now that Timmins is in the city class, the National 5c.-to-\$1 Store is warranted in opening. This Store follows the Woolworth plan of offering a wide range of goods at stated prices, all ranging from 5c. to \$1. It

FAIR AT GOLDEN CITY TO BE BIG EVENT THIS YEAR

Five Valuable Cups in Competition. Cash and Other Prizes. Attractive Programme of Sports, Etc.

Last year the first Fall Fair at Porcupine (Golden City) proved an attractive and pleasing event. This year's Fair on September 28th. will outclass last year's success in attractions, exhibits and attendance.

The Porcupine Fair, Sept. 28th. will attract exhibit from all over the district, and will in pleasing fashion emphasize the possibilities and actualities of this country along agricultural lines.

There will be exhibits of horses, cattle, poultry, vegetables, fruits, flowers, grain, dairy products, home-cooking and canning, fine arts, etc. In addition there will be races, sports, novelties, etc., to add to the pleasure of the day.

Special bus, jitney and train service will make it easy for all parts of the Camp to gather at Golden City for the big day on Sept. 28th.

Cash prizes will be awarded for heavy draft horses, driving horses, cows, calves, sheep, pigs, fowl, garden produce farm produce, home cooking and canning, needlework, art. There will also be a baby show for children 15 months and under. Another feature will be the sports for boys and girls.

The following cups are offered for competition:—

Mr. Reamsbottom's cup, to the party taking the most first prizes for three years in succession.

Mr. W. D. Pearce's cup for the winner of the first prize for heavy draft team for three years in succession.

Mr. A. C. White's cup, for the party winning first prize three years for the best pen of utility fowl any breed raised in New Ontario.

Dr. J. A. McInnis' cup, for the owner of the cow winning first prize for three years in succession, best points for milcher.

Mr. Gordon H. Gauthier's cup to the party producing the best garden exhibit at the Fair for three years.

SUDDEN DEATH GAME FOR FIRST HALF BASEBALL

To be Played Between Cochrane and Timmins at Iroquois Falls Tomorrow (Thursday).

A "sudden death" game between Timmins and Cochrane district baseball league teams will be played tomorrow (Thursday), Sept. 14th at Iroquois Falls to finally decide the championship of the first half of the baseball schedule. The winner of this game will play off at an early date with the winner of the second half, for the championship of the league and the possession of the Hamilton B. Wills & Co. trophy.

By its victory over Cochrane last week in the postponed first-half game, Timmins tied up the first half of the series with Cochrane. In view of the lateness of the season, instead of home and home games with a deciding game if necessary, it was decided to settle the matter with a sudden death game at the Falls. Hence the match tomorrow will give the winner of the first half to either Timmins or Cochrane. The winner of this first half then will have to play Iroquois Falls, the winner of the second half.

Baseball fans from here will no doubt go down in force to-morrow to the Falls and the boys here are confident that they will win out in this important game. Then it's only a step more to the winning of the handsome Hamilton B. Wills & Co. trophy for this year.

WINNERS OF ENTRANCE PRIZES EXPRESS THANKS

The happy winners of the special prizes awarded to the successful Separate School candidates on the High School Entrance Examination wish to extend their heartiest thanks to their generous benefactors in the persons of Rev. Fr. Theriault, Rev. Fr. Meunier, Sisters of Providence, Ladies of Charity, Altar Girls' Society, Mr. L. S. Newton, Chairman of the S. S. Board, and Messrs. Pommier, Brazeau, Doucet and Laporte.

is remarkable the number and variety of articles to be found in such a store. Stores of this type have been eminent successful in all the more up-to-date cities.

TO INSTALL ADDITIONAL STREET LIGHTS IN TOWN

New Walks and Other Questions Discussed by Council.

The regular meeting of the Town Council was held Monday afternoon with the Mayor, Dr. J. A. McInnis, in the chair, and all the Council,—Messrs. J. H. Bacon, E. L. Longmore, E. S. Noble, L. S. Newton, J. E. Sullivan and J. E. Morin,—present.

There was a brief discussion of the question of the Hollinger being granted right to use the town streets for the laying of the proposed new water main for the mine. The Mayor referred to the conference with the Hollinger management and looked upon the proposed agreement as favourable to the town in every way. Under the proposed plan, the Town could secure all the water it might need from the Hollinger main at cost price and the new main would also be available as an auxiliary to be used in case of need for fire protection purposes. No rights or privileges of the town were given away. The Hollinger simply wanted complete control of its own water service and to this end asked permission for a right of way for the main through the town. The Hollinger showed every disposition to deal generously with the town in the matter. The question was laid over until the legal formalities were attended to.

The by-law for the annexation of Mattagami was formally read and duly passed.

A resident on Balsam street, east side, asked the Council to have the proposed new walk laid close to the buildings as some of them were being used for business purposes. Council pointed out that this was a residential street and it would have to follow the rule of having the walks out 15 feet.

"If you won't put the walk in near the buildings, the ratepayers there don't want it at all," the resident said. "All right," was the answer, "get a petition to that effect signed and that will be one walk that we won't need to put in this year."

The Mayor called attention to the noticeable need for better lighting of the streets in town. On most of the streets there were not enough lights. The result was that the comfort and safety of the people were endangered. Following a discussion of the matter, Councillor Newton moved a resolution ordering the installation of 20 more lights. This passed without dissent.

Councillor Newton again brought up the question of a walk on the south side of Third Avenue from Balsam to Birch. After a general discussion it was decided to put a four-foot board walk there for the present. This would serve the purpose until the lowering of the houses in that block permits of the joining up of the cement walk on that side of the road. The lumber from the walk on the other side of the road (now being replaced with concrete) will be used for the temporary sidewalk on the south side.

The Mayor reviewed what had been done in regard to the coal situation. People might be inconvenienced here by the lack of coal but there would not be serious suffering on account of the wood available. The coal dealers had been put in touch with firms offering to supply Welsh and Western coal and the probabilities were that there would be enough coal available here by winter to fill the more pressing needs.

The Town Solicitor, Mr. D. W. O'Sullivan explained to the Council the greatly increased legal business of the town and pointed out that the remuneration paid the town solicitor was not now equal to the demands made upon the solicitor's time. This condition would continue, and likely increase, in view of the rapid growth and expansion of the town and the many public works, etc., being entered upon. The position of solicitor also prevented the taking of much good paying business, especially in the Division Court. He suggested the doubling of the present salary of \$100.00 the solicitor to pay his own outside agents' fees. The matter was referred to the Finance Committee to report at next meeting. Several members of Council spoke of the good services of the Town Solicitor and emphasized the idea that the plan of retaining his services had proved very good business for the Town.

The account of Mrs. Moffat for hospital services and attention to the late Martin Crawford, was ordered paid, the dead man having apparently no friends or relatives ready to pay the charges.

Last week the ratepayers of North Bay defeated a by-law to expend \$25,000 for park purposes.

MONTREAL CHAMBER OF COMMERCE TO VISIT HERE

Another Important Body of Business Men to See Timmins on September 28th.

On September 28th. the Montreal Chamber of Commerce will pay a visit to Timmins. This representative body of business men from the East will be accompanied by a number of Members of the British House of Commons who are making a tour of the Dominion. During their stay in town the party will be the guests of Messrs. N. A. and L. H. Timmins. On account of the short time at the disposal of the party for the covering of the Dominion the time available for any section is limited, and the party will not be able to spend more than two or three hours here. During that time, however, with hosts like the Timmins Bros., the visitors undoubtedly will be given a noteworthy view of the mining industry and this immediate district. Such visits will do much to spread the truth about the resources and possibilities of the North Land in general and the Porcupine in particular.

CASE DISMISSED RE MAN WHO TOOK RING FROM P.O.

While dismissing the case against W. H. Moore, a young man from Ottawa, who was brought back here in connection with the taking of a registered parcel from the post office here, Magistrate Atkinson at police court last week pointed out that one young man had himself to blame for the trouble that ensued. The registered parcel contained a very valuable diamond ring and was intended for a lady in town. The young man had signed for the parcel and then had left for Ottawa. When it was found that the parcel had been received by the wrong party, enquiries were made and eventually the young man was arrested at Ottawa, and brought back here. The young man's defence was that he thought the ring might possibly be for his wife and he had written her to find out. Letters to uphold this were produced in court. He had not preserved the wrapper or taken other precautions to assure the right destination of the ring, however, and so had left himself open at least to the charge of carelessness. On the evidence, however, it appeared that the young man did not realize the value of the ring which was a diamond one in platinum setting. He had made no effort to dispose of the ring and his character and record were of the best, so the case was dismissed. The case may well be taken by all to emphasize the fact that the greatest care should be shown in taking mail matter from the post office when there is doubt as to its ownership.

S. Swetzyk and Mike Mackovitch were each fined \$5.00 and costs for allowing their cows to run at large. It will be noted that by a continuous series of such fines Acting Chief O'Connor has impressed the lesson that this town is now too large and civilized to be used as a pasture ground. The citizens in general, and owners of gardens and flower beds in particular, are grateful for the attention that has rid the town of stray horses and cattle at nights.

The charges of contributory negligence in connection with a recent accident at the Hollinger as preferred against two of the employees of the mine, S. Jay and B. Cain, were heard. A fine of \$50.00 and costs was imposed upon Jay, and the charge against Cain dismissed.

MCINTYRE PRODUCTION FROM OPENING OF MILL

The following is the production of the McIntyre Porcupine since the commencement of milling operations in 1912, as set forth in the annual report for the period ending July 30, 1922:—

Year	Tons milled	Recovery per ton	Total
1912	14,500	\$5.25	\$ 76,166
1913	31,979	7.05	225,752
1914	85,654	8.39	718,331
1915	105,758	7.38	779,990
1916	195,307	9.55	1,864,914
1917	178,327	9.61	1,714,258
1918	179,874	9.29	1,671,646
1919	188,835	11.02	2,080,178
1920	171,916	11.08	1,904,326
1921-22	193,971	9.99	1,937,105

Total .. 1,346,121 \$9.64 \$12,972,669

Each year is for a twelve-month period with the exception of 1914 which was from Jan. 1, 1914 to March 31, 1915, and 1916 which was from April 1, 1916, to June 30, 1917.

TIMMINS WELCOMES VISITING BUSINESS MEN

Party of Eighty, Under Auspices of Toronto Board of Trade, Here To-day on Tour of North.

The business men of the south touring the North Land this week under the auspices of the Toronto Board of Trade reached here by special train this morning, and as the guests of the Timmins Board of Trade are being shown the town, the mines and the country generally.

They were heartily welcomed here and it is trusted that they will carefully "size up" the town and district and carry with them to the south again a comprehensive idea of the resources, industries, possibilities and progress of the North Land.

The party left Toronto on Sunday and have already visited the Sudbury district, also North Bay, Cobalt, Haileybury and New Liskeard. They leave here at 1.30 p.m. to visit Iroquois Falls. Thursday they visit Cochrane and then start south again stopping at Swastika and Kirkland Lake on their way down.

There are about 80 in the party, including the following:—

BRANTFORD—W. F. Cocksbutt, of the Brantford Oven and Rack Co.; Jos. H. Hamm, Hamm Bros.; Geo. S. Matthew's Niagara Silk Co. Ltd.; W. W. Nobbs, Happy Thought Foundry Co.; John T. Shanahan, Niagara Silk Co., Ltd.; Chas. M. Thompson, Brantford Roofing Co.; L. M. Waterous, Waterous Engine Works.

GUELPH—Lt. Col. W. Simpson, Lightning River Gold Mines, Ltd.

HAMILTON—Geo. C. Martin, T. H. & B. Railway Co.; W. E. Skelton, Canadian Shovel & Tool Co.

LONDON—W. N. Manning, Sherlock-Manning Piano & Organ Co.

ST. THOMAS—E. A. Norton, The Ontario Oriental Flour Co.

TORONTO—W. H. Alderson, Gutta Percha & Rubber, Ltd.; A. H. C. Bearisto, R. A. Daly & Co.; Lt.-Col. H. Brock, W. R. Brock Co., Ltd.; Robt. A. Bryce, Mining Engineer; A. J. Burbridge, Wm. Davies Co. Ltd.; C. H. Burgess, C. H. Burgess & Co.; E. C. Burton, Canadian Link Belt Co.; D. A. Cameron, Canadian Bank of Commerce; David Colville, Colville Cartage Co. Ltd.; E. F. Crossland, Steele Briggs Seed Co. Ltd.; A. Dawson, The Toronto Iron Works, Ltd.; H. J. S. Dennison, Patent Attorney; W. A. Denton, Denton, Mitchell & Dunean, Ltd.; W. M. Douglas, Gordon, Mackay & Co.; F. W. Evans, Canadian Fairbanks-Morse Co. Ltd.; John J. Fee, Wholesale Produce; Fred W. Field, H. M. Trade Commissioner; R. J. Fleming, Toronto Railway Co.; R. Russell Fleming; E. H. Gurney, Gurney Foundry Co., Ltd.; G. I. Hamby, Imperial Oil, Ltd.; B. N. Hargraff, Geo. R. Hargraff & Co.; A. G. Hayes, Consolidated Plate Glass Co.; F. G. Haynes, Canadian Surety Co.; John C. Hodge, R. G. Dun & Co.; A. O. Hogg, Hogg & Lytle, Ltd.; Wm. Inglis, The John Inglis Co., Ltd.; C. A. Kemp, The Sheet Metal Products Co. of Canada, Ltd.; W. T. Kernahan, O'Keefe's Beverages, Ltd.; J. B. Laidlaw; Norwich Union Fire Insurance Society; R. A. Laidlaw, R. Laidlaw Lumber Co.; Fred J. Lucas, Purdy, Mansell, Ltd.; L. O. Lumbers, Jas. Lumbers & Co., Ltd.; A. Roy MacDougall, A. R. MacDougall & Co.; E. H. Minns, Gutta Percha & Rubber, Ltd.; J. A. McPeeters, The Toronto Creamery; B. Neilly, Ontario Mining Association; W. J. Nicholson, National Fire Proofing Co. of Canada, Ltd.; W. C. Noxon, Agent-General for Ontario in London (Eng.) C. R. Peckover, Peckover's Ltd.; A. R. Porter, Addressograph Sales Co.; R. F. Reid, Consolidated Optical Co., Ltd.; E. L. Ruddy, The E. L. Ruddy Co. Ltd.; Douglas S. Robertson, "The Evening Telegram"; Walter J. Scott, Gutta Percha & Rubber, Ltd.; R. L. Seythes, Seythes & Co., Ltd.; E. M. Snell, Erie Railroad Co.; T. B. Speight, Speight & Van Nostrand; R. A. Stapelle, The McElroy Mfg. Co.; F. Sturgeon, Sturgeons Ltd.; F. C. Sutherland, F. C. Sutherland & Co. Ltd.; H. H. Sutherland, F. C. Sutherland & Co. Ltd.; F. A. Warren, Gutta Percha & Rubber, Ltd.; Frank C. West, Canadian Oil Companies, Ltd.; Norman Wittet, Imperial Publishing Co.

WINDSOR—W. F. Morgan Dean, Canadian Seal Co., Ltd.

FREE GOLD FOUND ON THE ROCHESTER PROPERTY

Work at the Rochester property, adjoining the Hollinger is making very satisfactory progress. Some days ago some rich ore was uncovered in the workings, free gold being in evidence and the ore encountered being very promising.

PAYMASTER SAMPLES RICHER THAN CRESUS

Spectacular Finds Made Last Week At Promising Deloro Property.

While work was in progress in the east drift of the 300-ft. level at the Porcupine Paymaster Mine last week, spectacular gold ore was encountered in quantity. The find probably surpasses any similar find in this Camp. In a large body of good grade ore there was a pocket of ore of unusual richness. Samples would run from the hundred of dollars a ton in gold to \$150,000 to \$200,000 per ton in gold. Samples brought into town astonished and delighted all who saw them. These samples just picked at random from the workings had even the famous samples from the Cresus Mine beaten. The spectacular gold was encountered first on Saturday and the same kind of unusually rich ore has continued since then. On Monday about \$3000 worth of ore was shipped from here, and the ore is so rich that the parcel was not a very large one at that. The President and some of the directors of the Paymaster happened to be here at the time and to say they are pleased is to put it mildly. Manager A. S. Fuller was also among those specially delighted by the find and his pleasure was all the more because the workings of the Paymaster have been located right along good bodies of good grade ore and laying sure foundations for a mine of importance. The samples from the Paymaster on Saturday created a sensation by their richness. "They beat even the Cresus," was the general verdict. Prof. Haultain of the University of Toronto, who is in town, was shown the samples and his comment was, "Wonderful! You have a country here the possibilities of which can scarcely be gauged." Prof. Haultain visited the Paymaster this week to look over the property and that section of Deloro.

MONTHLY GOLF MEDAL HANDICAP ON SATURDAY

Next Saturday there will be the monthly medal handicap at the golf course here.

Last Saturday there was flag golf, Messrs. G. Schaeffer and W. H. Wylie making a tie.

HOME AVERAGED \$10.08 PER TON LAST MONTH

August was a big month at the Dome Mines but it is generally believed that the Dome is just getting into its stride and that the months to come will put August in the shade. In August the Dome milled 35,000 tons of ore, the average grade of ore being \$10.08 per ton, and the production for the month totalling \$352,774. June's record was \$351,531 and July showed \$335,254.

TIMMINS WINS 6 TO 3 FROM COCHRANE BALL TEAM

On Thursday last the tie game between Cochrane and Timmins in the first half of the district baseball schedule was played off at Cochrane, Timmins winning in a good game of ball, 6 to 3. Timmins and Cochrane are now tied for the first half and play off to-morrow at the Falls in a sudden death game.

To the Visiting Business Men from the South.

Welcome and Greetings

Timmins and the Porcupine salute you, and ask you to "look us over."

Then you can "tell the world!" Timmins is the home of the world's greatest individual producing gold mine—the Hollinger,—and the centre of a rich gold area with a radius of at least forty miles. In this area are such proven properties as the Hollinger, McIntyre and Dome, and a host of mines in the making.

Five hundred miles from the nearest city, we are building a city of our own. In 1912 the population was 753 and the assessment \$246,550. For 1922 the population and assessment alike are more than ten times the figures of 1912.

In mining the "surface hasn't been scratched yet." The lumbering industry is an important factor and the agricultural possibilities are surprising.

"Look us over" and "tell the world!"
