THREE NEW MINES LISTED ON EXCHANGE LAST WEEK

Consolidated West Dome, Davidson Consolidated and Herrick Now On List.

Three new securities were listed last week on the Standard Mining Exchange,—the Consolidated West Dome Lake Mines, the Davidson Consolidated and the Herrick Gold Mines.

The Consolidated West Domes Lake Mines, as its name implies, is an amalgamation of the West Dome and the Dome Lake, and has a capital of \$5,000,000, with a par value of \$1. The mine office is at South Porcupine and the transfer agents are the Securities Transfer and Registration Company. The property, which immediately adjoins the Dome Mines on the west and south-west, consists of nine shafts and contains five shafts, all of which have reached the 600-foot level, and one of which has been sunk to a depth of 630 feet. It is the immediate intention of the management to sink the main shaft to the 1,050-foot level. The company has the usual mining equipment and a mill.

Davidson Consolidated shares will be called for the first time this week. Arrangements for the financing of the company's property to place it on a producing basis were completed recently and were entirely successful. The sum of \$900,000 has been assured by the British interests, half of which has already been paid into the treasury, part of the remainder to be paid at stated periods this year and the residue on call of the directors on ten days' notice. Immediately electric power is available at the mine, a three compartment shaft will be sunk, 1,000 feet and a 500-ton mill erected. The mine has \$3,500,000 proven ore above the 600-foot level, averaging \$11 to the ton, and diamond drills have indicated the extension of the large ore bodies opened up at upper levels. Indicated average values between the 800 and 1,300-ft. levels are materially higher than at upper levels. A diamond drill has been started which will penetrate to a vertical depth of 2,000 feet. The most important recent development was the location at the 800 ft. level of a basis porphyry contact which will be further explored by the diamond drill being sunk now.

The Herrick property is in the West Shinningtree area. It is likely it will be listed on the New York Exchange as well as at Toronto. The Company,

WINNERS OF PRIZES FOR TWINS AT TORONTO FAIR

The prize winning twins at the Baby Show held last week at the Toronto Exhibition were Dorothea Eleonore and Donald Allen McInnis, the six-and-a-half-months-old children of Mr. and Mrs. Archie McInnis, 468 Clinton street, Toronto. Donald weighed 22 pounds and Dorothea 18 pounds. Judging from their pictures as published in The Mail & Empire and other Toronto papers these twins are handsome, healthy and happy and were winners all right. Their father, Mr. Archie McInnis, now of Toronto, is well known in the Porcupine, having spent some time here in the early days. He was also well known in Haileybury and Cobalt. Speaking of this The Haileyburian last week says: "Many people in Haileybury will rejoice at this news, as Mr. and Mrs. McInnis are well known and extremely popular here. Mrs. McInnis was formerly Miss Elora McKinnon, a daughter of Mr. and Mrs. John McKinnon, and a sister of Mrs. C. C. Green, and resided in Haileybury for several years prior to her marriage. Mr. McInnis was also a resident of Haileybury and Timmins, and is now Sergeant of Detectives at Station No. 3, Toronto."

Mr. Archie McInnis is a brother of Mr. Chas. McInnis, Chief of Police of Tisdale, and of Mr. Dan. McInnis, of Timmins. The prize-winning boy was named after the latter uncle.

which is capitalized at \$2,000,000, is under working option to the Tonopah Mining Company, which has large assets and is in a position to carry forward vigorous development to prove up the property. The Tonopah engineer is in charge at the mine and the sinking of a two-compartment shaft has already been started. The Herrick Company had completed a thorough diamond drilling campaign which indicated the extension at depth of well defined surface ore bodies of good commercial value and a two-compartment shaft had been sunk to a depth of 100 feet. The Tonopah Company has undertaken to sink the shaft to the 400-ft. level and do 2,000 feet of lateral work, which, in view of the knowledge gained by diamond drilling should serve to prove up the property. A report from the engineer this week stated that shaft sinking was progressing favorably.

The North Bay Nugget says that the Timmins tax rate this year has been reduced "nine miles." That's going some.

LADY PROSPECTORS GO INTO LIGHTNING AREA

Some days ago two lady prospectors left Cochrane for the Lightning River gold fields, so Lightning River may now consider itself as a real mining field. The two ladies were Mrs. Sainsbury and Mrs. Patterson. The former is the wife of Capt. Sainsbury, who has been interested for years in prospecting and mining in the north, and Mrs. Patterson is the wife of the President of the Canadian Gold Mining Syndicate, the corporation now developing Lightning River properties. The ladies are going to do real prospecting it is understood. At any rate they were dressed for the part, being garbed in riding breeches and khaki shirts. The mosquitoes and black flies will no doubt make special note of the fact that the ladies had not discarded their silk hose, but this fact will do the said mosquitoes and black flies little good on account of the other covering needed for bush travel.

Both Cobalt and Porcupine camps had lady prospectors in the early days. A lady prospector also created some notice in the Kirkland area some time ago. The lady prospectors in the Porcupine Camp were of the practical variety, and more than one of them actually staked out valuable properties. Mrs. Flowers was probably the best-known lady prospector in this district and she staked a number of

claims that have much promise. Mrs. Flowers has passed to the other Land of Gold, but a number of the claims she staked are being held by the estate as very valuable properties. A couple of these claims are alongside the Mattagami River near Timmins and are considered as very promising.

PORQUIS JUNCTION ANNUAL FAIR ON SEPTEMBER 19

For several years there has been a fall fair held at Porquis Junction, the event taking on more importance each year. This year the Porquis Junction Annual Show is announced for Tuesday, September 19th. It is open for livestock and vegetables, etc., and has also a Ladies' Work Section and a School Children's Section. Prize lists and entry forms may be secured from H. Berger, the secretary. Refreshments will be served on the Fair Grounds. A special baseball game, Porquis Junction vs. Ansonville, is advertised as one of the features of the day.

BOOK-KEEPER AND STENOGRAPHER; mining experience; wants permanent, temporary or part time job. Tradesmen's books kept at reasonable rates. Address Box R. M.A., Advance Office, Timmins. —35p
