 PINE STREET TIMMINS, ONT.

Timmins and District Notes

(Mrs. Kent Englehart and daughter of Kirkland Lake are visiting the former's sister, Mrs. Catty.)

(Mayor Ferguson of North Bay, officially announces the population of that southern town as around 12,000.)

(Mr. George Fairbairn, of Kirkland Lake, and his father who has a farm in Saskatchewan, were visiting in Timmins this week.)

(Rev. Mr. Little, formerly of Kirkland Lake, and now of Lake of Bays, Georgian Bay, was a visitor to Timmins this week.)

There are big bunches of hunters in the Night Hawk Lake area these days, game there being plentiful like the gold is. Mr. Dan O'Connor says: "Come on in, boys, the shooting's fine."

The Government announces that Oct. 31st. is to be the National Fish Day. Charley says it's all right to have an April Fool Day at both ends of the year in this country. But on the National Fish Day the idea is for each man to eat fish, not to be one.)

Mr. H. W. Hooker returned last Friday from the south, and is being warmly congratulated on all-sides as well as showered with good wishes. While away Mr. Hooker was married, but Mrs. Hooker did not return with him, the house problem making it impossible at the present time for them to secure suitable residence here.

When the vaults at the Haileybury Court House and Lands Titles office were opened last week, the contents were found to be but slightly damaged. The Provincial Police superintended the opening of the vaults, and the conveying of the documents, etc., to New Liskeard.)

The Northern News says: "There is a touch of grim humor in this next item. It is stated that when one of the Northern Development Branch, charged with replacing 19 bridges and 300 culverts in the district, went to one farmer, the latter, in conversation pulled out from his pockets three peas and said, 'Here is the 1922 crop.'"

On Hallowe'en, Tuesday, October 31st, the Kitchener Rebekah Lodge at South Porcupine are giving a Masquerade Ball in the I.O.O.F. Hall, South End. Dancing commences at 9 p.m. Music by Wolno's Orchestra Refreshments. The event is sure to be a pleasant and enjoyable success and will likely attract many from this end of the Camp.

(Cobalt Town Council is planning to instal a steam or gasoline engine as an auxiliary to the pumping equipment. With this other power available the town will have so much more protection in case of fire should anything occur to the electric power line. For years past Timmins has had a steam auxiliary for use in case the power goes off for any reason.)

Mr. J. F. O'Day, Inspector of the Union Assurance Company, of Montreal, was in Timmins last week making a report for his company on the town as an insurance risk. Mr. O'Day found conditions here much better than he anticipated, and was particularly pleased with the large measure of fire protection in the town and the efficient fire brigade. He thought, however, that the bush menace should be removed in justice to all concerned.)

(One of the Mountjoy settlers thinks he has MacLan, M.P.P., beaten to a frazzle as a weather prophet. The M. P.P. depended on the beavers for his advance information on the weather. The Mountjoy man pins his hope of fame on the wild geese. He says that when the geese go south it is a sure sign of winter. They go, he says, just before the first real snow—the snow that comes to stay. The wild geese were en route to the south last week several flocks of them passing through this district on their way from the North Land winter. So, brace up, says the Mountjoy settler, winter is upon us.)

(The whole North Land appreciates the kindness and generosity of the people of the south in hurrying forward clothing, supplies, etc., for the fire sufferers. But when it is learned that some Toronto people, kind-hearted of course, but not so nimble-witted, shipped on a number of straw hats and some dress suits for the use of the refugees, well, the folks up north just have to laugh out loud. Surely if these city folks had used their heads they would have known that the refugees would have no use for the present for straw hats or dress suits. Didn't they read of the refugees standing for hours in the waters of the lake? Isn't it a wonder that they sent on no bathing suits?)

(Mr. Thos. Lake, of Georgetown, Ont. is visiting his son, Mr. Geo. Lake.)

(Mr. A. Somerville, of Toronto, spent the week-end in town.)

(A very enjoyable Euchre was held last Thursday evening in the K. of C. Hall by the Ladies of Charity.)

(Mr. Albert Roy, of Timmins, is visiting at the home of Mr. and Mrs. Chas. E. Foster, of Keene, Ont.)

(BORN—In Timmins on Thursday, October 12th, 1922, to Mr. and Mrs. Jas. Grenier,—a daughter.)

Among the police court cases this week will be a charge against J. Deschane of illegally having home-brew.

Plain Sewing and Children's Dress-making, at reasonable prices. The Needlecraft Shop, No. 6 Marshall-Ecclestone Block. 43p

(Mr. Frank J. Kehoe, Barrister, Solicitor, etc., has opened an office in the Reed Block. Mr. Kehoe is a son of Judge Kehoe, of Sudbury, who was the judge for this part of the North Land previous to the establishment of the District of Temiskaming.)

Wednesday morning of last week the Elk Lake branch of the T. & N. O. was back in full running order. This branch suffered rather severely in the fire, the big trestle bridge being badly burned among the other damage done. The T. & N. O. did good work in having the damage repaired and the line in good order again in such a comparatively short time in view of the extent of the damage.

(L. Brunet, constable at Fauquier, was instantly killed recently when he stumbled on a stone and fell in front of the approaching Continental Limited, while hastening to meet Provincial Officer Kenney. An inquest was held and a verdict of accidental death returned, with the train crew and all others exonerated from any blame. The late Mr. Brunet was 49 years of age and leaves a widow and three children.)
