Timmins and District Notes

The next regular meeting of the Timmins Town Council is scheduled for next Monday afternoon, Feb. 12th.

(BORN—To Mr. and Mrs. Fred Read, 62 Balsam street, Timmins, on January 31st,—a daughter.)

Sudbury fire department had ten fire alarms to answer during the month of January. Last year the same month had only four alarms. But as The Sudbury Star has said, "Business is picking up in Sudbury."

Englehart has a fine new hotel called the Commercial House and under the management of Mr. Bert. Cooley who has successfully conducted a boarding house in Englehart in past years.

In a game last week, described as one that sent the fans home talking to themselves, Liskeard nosed out Cobalt in the final overtime period and won the championship of the central group of the N.O.H.A. Intermediates.

Councillor Robert Rankin of North Bay has resigned as President of the North Bay Hockey Club in protest against the action of a clique in the executive whom he says have been attempting to conduct affairs in a way not conducive to the good of hockey or sport in general.

Cochrane Town Council is considering plans for assisting Mr. Buchanan in the erection of an ice skating and curling rink, the assistance to take the form of a free site and special fixed assessment. The matter will be dealt with further at the next meeting of the Cochrane Council.

Miss Bona Rowe, of Buckingham, Que., is visiting her cousin, Mrs. Alf. Prout. Miss Rowe is a graduate nurse and Mrs. Prout, who has been ill for some little time past, is making excellent progress to recovery under Miss Rowe's care.

With the heading, "Can You Beat It?" The New Liskeard Speaker last week tells of a Barred Rock hen, owned by Mr. John Stevenson, of Dymond Township, laying an egg weighing four ounces and measuring 8 1/4 inches in length and 6 1/2 inches across.

A gentleman, described in the press puffs as "a motion picture naturalist," advertises (free) that he intends single-handed to make an attempt to photograph with a motion picture camera a real wolf pack roaming at large in the wilds,—"a feat never before essayed." And further, "the main purpose in undertaking this unique experiment is to register, if possible, on motion film, just how wolves will act when they have human prey at bay." The Toronto Star will page its college professor in another minute or two to find out by psycho-analysis whether somebody is spoofing or not.

North Bay was greatly upset last week by the rumor of threats to burn down or blow up the Cathedral in that town. A telephone message was sent to a man named Turner living near the Cathedral, warning him to get away from his home as it might be injured when the Cathedral was destroyed. Mr. Turner notified the police and then took his family down town for the evening. Nothing else particular happened. The authorities, while taking precautions, were inclined to treat the affair as a practical joke played upon Mr. Turner by some person or persons unknown, and who had better remain unknown.
