Timmins and District Notes

The ice," says Jack Marshall, "is still perfect at the Rink."

Mrs. A. Haughland is up from Toronto for a visit.

Mr. Brown, of Utterson, Ont., has been visiting his son, Dr. R. H. Brown.

Mrs. C. S. Carter returned last week from a visit to the south, where she was called owing to the serious illness of her father.

The next regular meeting of the Timmins Town Council is scheduled for Monday next, March 26th, at 4 p.m.

A Hot Supper will be served in the basement of the Presbyterian Church on Thursday, April 5th, under the auspices of the Ladies' Aid.

Mr. Elie Riopelle, for thirteen years past a resident of Cobalt, died at the home of his son there recently, at the age of 93 years.

Many sales of promising property have been made recently in Whitney Township and also in other sections of the area. Great activity in mining may confidently be expected here, commencing with the early spring.

Mr. Chas. Sandrelli, who is very widely known in the districts around North Bay and Sudbury, has taken a five year lease of the Hotel Cecil at North Bay, assuming the management of the hotel on Monday this week.

In one of the exploitation booklets issued by the Goldwyn Motion Picture studio appears the following striking sentence:—"The foundation for every campaign should be newspaper advertising on as big a scale as you can afford." The Goldwyn people know. It has cost them money to find out. And what applies to the motion picture exploitation applies equally to general mercantile affairs.

It is understood that the T. & N. O. Commission has plans in mind for the erection of a large hotel at Moose Factory in connection with the station at that terminal of the extension to Hudson Bay. The expectation is that Moose Factory will become an important port and that the hotel accommodation there will be fully warranted once the line is completed to the Bay. "From Bay to Bay, in every way the T. & N. O. will be getting better and better."

DO NOT THROW GLASS ON THE STREETS OF THE TOWN.

Complaint has been made to The Advance this week regarding broken glass on town streets. In several places bottles have been carelessly thrown on the roads. It is hard to understand how anyone, even a drunken man joyful on squirrel whiskey, would be so careless as to throw a bottle on the side of the road, but the fact remains that the bottles have actually been flung on the streets. The result is patches of broken glass—a menace to auto tires and horses' feet and to children who perform must play on the roads for want of a better place to play in this good town. For the love of the autos, for the love of the horses, for the love of the kiddies, for the love of Mike,—don't scatter the menace of glass on the public roads. One little piece of glass on the roads is the famous one glass too many.

Eye Glass Comfort

Glasses properly fitted should rest comfortably on the bridge of the nose, close to the eyes. Sometimes you see a man with glasses on the end of his nose. There is a reason for this. In such cases we can supply glasses that will be close to the eyes and efficient for wear and for seeing. "Ducking" and "peering" over the rims of glasses make many men of forty look fifty. Wearing the right glasses—our invisible double vision glasses—makes men of fifty look forty and gives them the keen sight of young men. If suffering from eye troubles, see us.

Dr. E. F. Armstrong has been elected by acclamation as Mayor of Cobalt, to fill the vacancy caused by the disqualification of Mr. Taylor Pipe.

The Northern News of Cobalt last week says—"Miss Louise McDermott, of Timmins, has been visiting her brother, Mr. J. E. McDermott."

Famous sayings of men who might like to be famous:—Magistrate Jones—"Hands off Toronto detectives! Shame, boy, you might have hurt the man!"

A meeting of the Reeves of Temiskaming has been called for Saturday, March 24th, at 1 p.m., in the Library Hall, New Liskeard, to discuss the desirability of establishing a House of Refuge in the District.

Arthur E. Moysey and Company have opened an office in North Bay, where the public will have the advantage of the Arthur E. Moysey Co. general stock-broking service, as well as daily market quotations and up-to-date bulletin service. Mr. A. A. Amos of Cobalt, will be in charge as manager of the North Bay Office.

The Toronto Star had a special representative here taking notes and making pictures of the Dog Race and Carnival, and a number of interesting pictures of the event have appeared in recent issues of The Star. It is interesting to note, however, that practically all of these pictures were taken by Timmins' own photographer, and the official photographer of the event—Billie Browne. The pictures were fine.
