One of The Big Reasons For Closed Car Popularity

ONE of the biggest reasons for the recent great popularity of the closed automobile among all classes of motorists is this Chevrolet Superior Sedan. Its low price and economy of operation have put it within the reach of all and have made it an ideal second car for the man with a large, high-priced car of expensive upkeep.

The tremendous sale of the New Superior Models has made them the fastest-selling, completely-equipped, quality cars in the world. This has meant that production costs have been lowered to such an extent that they are now the lowest-priced quality car in the world.

When it is also remembered that Chevrolet costs less to operate than any other car in the world, its phenomenal popularity is easily understood.

See Chevrolet first.

MR. A. F. KENNING TO HAVE CHARGE OF SUB-DIVISIONS

Last week Mr. A. F. Kenning took over the full charge of the sales of lots and collections for all the subdivisions owned by Mr. C. M. Auer. The business will be conducted from Mr. Auer's office, next to Shankman's store, at the foot of Third Avenue.

TORONTO PICKPOCKET TOOK WRONG TIME TO ESCAPE

Tuesday evening last week a man named Clarence Cook escaped from Burwash Prison Farm, where he had been serving a term for pocket-picking in Toronto. Clarence chose a poor time to escape. In the first place so much publicity was being given to the affairs of that other escaped prisoner, Leo Rogers, that the newspapers only gave a line or two to the escape of Cook. In the next place, the whole countryside is being so closely watched with a view to the capture of Rogers that the other prisoner would seem to have a slim chance of escaping detection. However, he is still at large. All signs fail in dry weather, and the country has gone dry. Cook is described as a man about 30 years of age, dark, with hair slightly grey at the temples, and with a scar on the first finger of his right hand. Anyone seeing him should notify the nearest police and watch their pockets till the officer arrives. In some cases it would be best to watch your pockets even after the officer arrives. If you have something on your hip, for instance.

\$10,000,000 BOND ISSUE TO FINANCE POWER PLANS

It is understood that a bond issue of ten millions is to be made almost immediately to finance construction of the Des Quinze power plant, to build the transmission line, to finance the lower Sturgeon development and to lift outstanding bonds of the Northern Canada Power Company. The issue will be secured jointly by the Des Quinze Power Co., Northern Canada Power Co., and the Lower Sturgeon Development, the latter being a Northern Canada subsidiary company. At first there will be an issue of four and a half millions. Of this, \$1,200,000 will be taken up in the redemption of outstanding Northern Canada Power Company bonds. About a million and a half will be needed for the construction of the transmission line from Des Quinze to Porcupine, and the balance of \$1,800,000 for Des Quinze development and Lower Sturgeon completion. The bonds will be of either ten or fifteen year terms, probably the latter, and will be at either six or six and a half per cent. They will be sinking fund bonds, according to information given out at Toronto. An endeavour is being made, it is said, to have them a purely Canadian issue, but if a sufficiently high tender is not received in Canada, the bonds will be New York payments.

OBSERVING THE HOLIDAY AT POLICE COURT HERE

It is said that this is the last year that the good old Twenty-fourth of May will be observed as a public holiday throughout the Empire. The people, however, may differ from the lawmakers in the matter, and it may not be any easier to legislate holidays than it has proved to legislate men to Heaven by statute. The twenty-fourth of May was in any event observed in a double way at the police court here last week. In the first place, in honour of the holiday, court was held on Wednesday, instead of Thursday. And in the second place, the holiday was recognized in the fact that there were not as many cases as usual. The only serious case was that of Mike Rayo, who was fined \$200.00 and costs for illegal purchase of liquor, if that may be termed a serious case. The police searched this Mattagami residence under search warrant, and they say the lady of the house ran out with a gallon crock of boozerina and dumped it into a hole in the yard. The police rescued this evidence, which the defendant claimed had been purchased that morning. Hence, the illegal purchase charge was admitted. There was only one drunk charge, one disorderly charge, and two assault cases. In the latter case, two foreigners got into a battle, and one had the other arrested for assault. Then the man under arrest laid a counter charge of assault against the other fellow. When it came to court, both withdrew their charges, and the cases were disposed of by the paying of the costs in the cases.

One day last week passengers on the bus coming out from Kirkland Lake to Swastika saw a big bull moose standing on the road about 50 feet ahead of them. This occurred about half a mile from Swastika. The big moose stepped off to one side and allowed the bus to go by.

DEWATERING IN PROGRESS AT ANKERITE PROPERTY

Work is in progress at the Ankerite property in DeIoro Township in the way of de-watering the shaft with a view to carrying on a development programme. Mr. Clifford E. Smith is the engineer superintending the work.

PROGRESS BEING MADE IN SURVEY OF POWER LINE

It is expected that the route of the power line from Des Quinze to Porcupine will be surveyed throughout in the next week or two. Already over fifty miles of the route is understood to be surveyed, leaving about 60 miles still to survey. A large part of the route to be used will be accessible the year round by existing roads. From Des Quinze the line goes west to Elk Lake and from there north to Indian Chutes, where the Great Northern Power Co. plant is located. From Indian Chutes the transmission line may be said in a general way to follow the route of the Great Northern to Porcupine.

TABLOID HISTORY OF MINING IN NORTH LAND

A gentleman with a facility for that brevity that is the soul of wit has condensed the history and salient facts of the mining industry in the North Land into the following three paragraphs:—

Cobalt,—discovered 1903; began production in 1904; output to the end of 1922, \$208,000,000; dividends paid to the end of 1922, \$94,013,820.

Porcupine,—discovered 1909; began production, 1910; output to Dec. 31, 1922, \$96,000,000; dividends paid to end of 1922, \$27,940,991.

Kirkland Lake,—discovered 1922; began production, 1922; output to end of 1922, \$8,000,000; dividends paid to end of 1922, \$1,491,125.

Yet, there are politicians who remark that the North Land has had more money spent on it by the Government than the dolgarn country is worth, or words to that effect.

And the North Land is not really rightly started yet. So far as gold mining is concerned, it is still true that the "surface has not yet been even scratched."

The Cochrane Post last week says: "The work of clearing the bush to the south of the T. & N. O. tracks is almost completed and has made a wonderful difference in the appearance of the country. If now only the land could be stumped and seeded down, the fire danger would not only be completely eliminated but it would add greatly to the impressions gained by the passengers in the through trains as to the agricultural possibilities here."

SAFE FOR SALE

The Township of Whitney has for sale a safe; height 4 feet 7 3/4 inches; depth 2 feet 4 inches; width 3 feet 3 1/2 inches; double doors, etc. Can be seen at the Township Hall at Porcupine. Price \$250.00.
