

JUNE ATMOSPHERE IN JANUARY

Our booklet, "Live Air Heating," shows how your home can be heated with live, healthy, sterilized air—at the smallest possible cost.

It shows you how heat acts; how we get the benefit of it; how to ventilate your house; how to dispel the odors of cooking and smoking; why moist air is best; why a heating system is often the ally of disease.

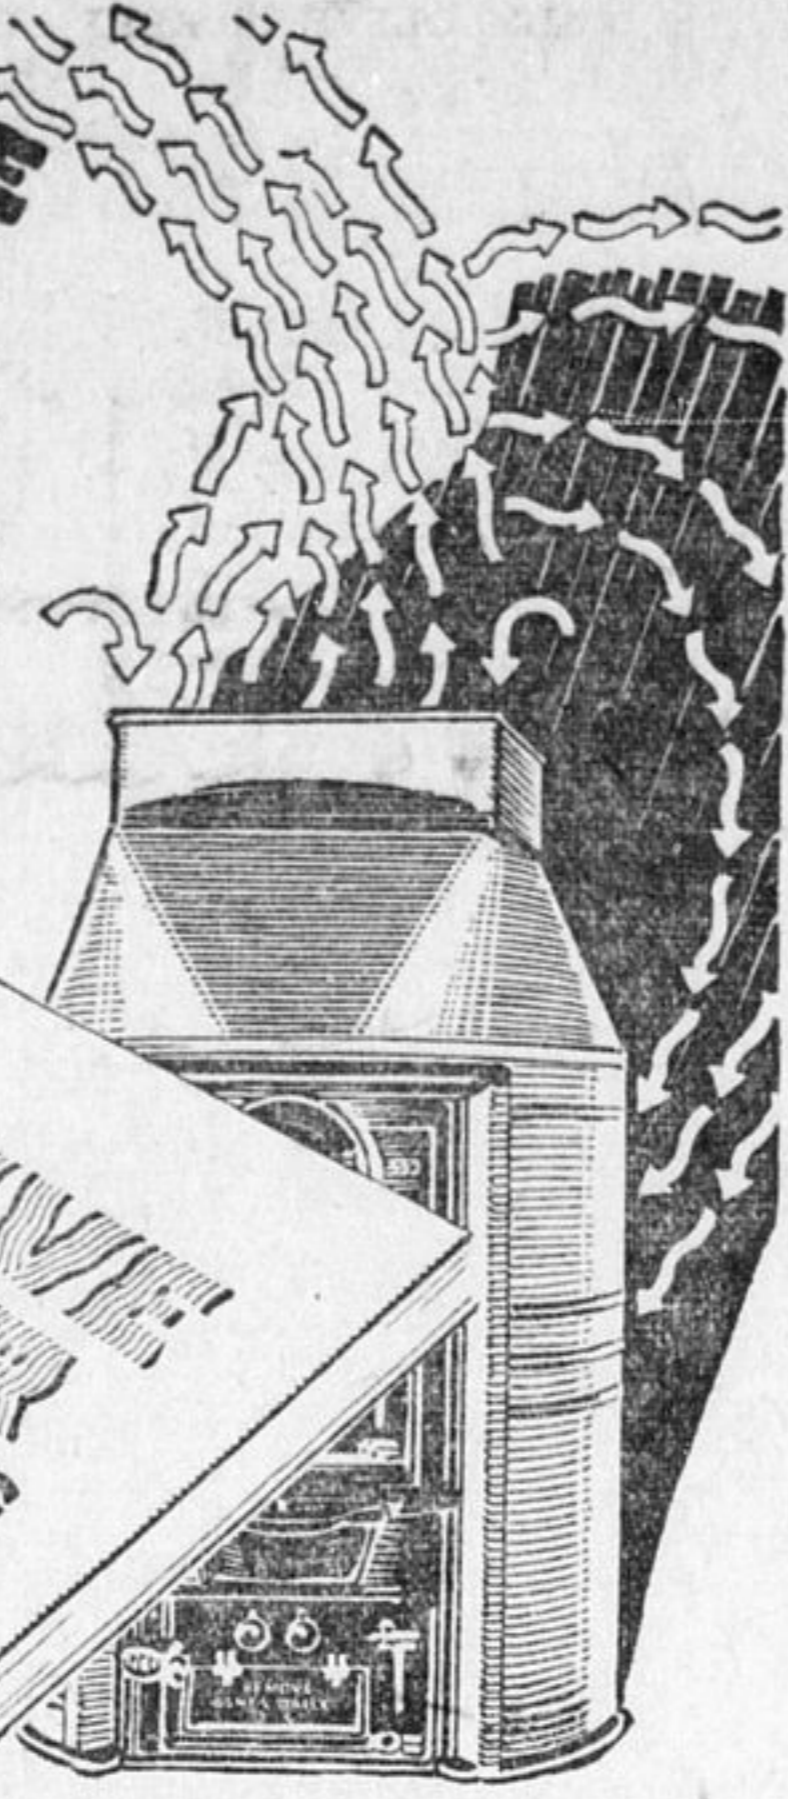

It will show how to keep the air in your home just like the outdoor atmosphere of June. Send direct to the factory for your free copy to-day.

WILD ANIMAL LIFE in JASPER NATIONAL PARK

Famous for its ever-fascinating natural beauty, Jasper National Park has other claims to distinction. It is the largest wild animal sanctuary in the world. It is marvellously rich in plant life, its streams and lakes abound in fish, and a great variety of birds are found there. The grandeur of its mountains—there are over 100 lofty peaks in its area—the sheen of its glaciers, the glory of its woodlands and its valleys, the flashing brightness of its waters, all combine in allurements of eye and mind, not found elsewhere in Canada.

All the main animal families of this country are found in Jasper National Park. The list of them reads like a section of a work on natural history. There are the Big Horn Mountain Sheep, Mountain Goats, Wolves (black and grey), Coyotes, Foxes, Mule Deer, Moose, Caribou, Elk, Lynx, Cougars—or as many call them Mountain Lions,—Beaver, Martens, Musk-Rats, Squirrels, Rab-

bits, Porcupines, Weasels, Ermines, Minks, Martens, Fishers, Otters, and Grizzly, Black and Cinnamon Bears.

Some of these have grown accustomed to mankind and accept its presence without fear. Hence black and brown, or cinnamon bears, do not hesitate to come near the lodge and the camps in search of dainties which add to the variety of the diet nature provides for them. Deer, Elk, Beaver, Rabbits and Porcupines are also frequent visitors to points where they are readily observable, or are permanent residents in places easily reached by those who do not care about hunting, but are yet interested in animal life.

With all this prodigality of wild animal life, it is assuring to know that no poisonous snakes or reptiles have ever been found within Jasper Park, and that the greater part of the area is almost entirely free from mosquitoes and insect pests.

The bird life of Jasper National

Park is another attraction that every visitor appreciates. No less than seventy different species of birds have so far been recognized.

Outside of the Park confines there is plenty of hunting for those to whom the chase is as the wine of life. There are many trails to the areas where big game abounds, and the hunters who scorn "easy killing" may have all the thrills and excitement they desire. Experienced guides are always available for hunting and exploring parties, or for those who simply desire to wander leisurely through a never-ending succession of scenic beauties.

With its majestic mountains, Mount Edith Cavell being the highest (11,033 feet) its numerous glaciers, its beautiful stretches of woodland, valley, streams and lakes, and its unrivalled wild animal life, Jasper National Park is an alluring prospect alike for the seeker for health, the searcher for recreation, the angler or the hunter of big game.

WORK FOR ALL HERE NOW SAYS EMPLOYMENT OFFICE

"No man who wants to work need be long out of a job in this town these days," says Mr. H. C. Garner, in charge of the Ontario Government Employment Bureau here, in discussing the employment situation in the district last week. Mr. Garner pointed out that for some weeks now there had been more positions to be filled than men applying for positions. Indeed, only a comparatively few men now seem to be looking for work while the various activities in the district could easily take up quite a few more men.

FIRST GOT A BLACK EYE AND THEN THREE MONTHS

In a row at a Pine street boarding house party some days ago Nick Wallace got a beautiful black eye. Last Thursday in police court he was also given three months in jail from incidents arising from the same party. He and Naum Kurk were charged with assaulting P. Paulosky. The charge against Kurk was dismissed, but Nick Wallace was sentenced to jail, black eye and all. According to the evidence he went after Paulosky with a heavy iron ball, Paulosky's head being badly cut in the fracas. Magistrate Atkinson rightly believes in discouraging the use of weapons like this ugly iron ball in friendly fights, hence the jail term. Sam Nortkin was fined \$300 and costs for illegally keeping liquor for sale. The seven owners of certain cows were each fined \$4.00 and costs for allowing said cows to run at large. Chief Greer and his staff still are insisting that cows be not allowed at large contrary to the by-law. The result is the saving of many gardens and lawns from injury and the enrichment of the town treasury from the fines imposed. Two were fined Thursday for passing funerals. One autoist paid \$1.00 and costs for passing on the wrong side of the silent police. There was a lonesome drunk, just one, no company, the proverbial ten and costs being the verdict.

FOLKS FROM LAND OF GOLD AND SILVER GATHER IN SOUTH

The following paragraph from a recent issue of The Hamilton Spectator will be of general interest:—

"Mr. and Mrs. Napoleon Servais, of the Village Inn, Grimsby, entertained a large number of old-time friends from the mining country over the week-end. Fathers Theriault, pastor of St. Anthony's church, Timmins, and Father Pelletier, St. Theodore's church, New Liskeard, stopped off while on an auto tour. They are now returning north. Father Pelletier said the Sunday mass at Smithville, while Father Theriault said the 11 o'clock mass at Grimsby for Father Sneath. Mrs. Charlebois, principal of Cobalt separate school, accompanied by her little daughter, was another of the visitors. Thos. Flynn, Timmins, was in Toronto on business and came over for the week-end. B. W. Graham and daughter, Ottawa, formerly of Grant, Holden and Graham, and well known in all the mining camps, were also in the party. Hugh Mulheron, Gravenhurst, who in the early days of Porcupine managed the Goldfields Hotel, Timmins, and who assisted at the opening of the Village Inn, also joined the gathering. Miss Helen Kearns, Peterboro, a sister of Mrs. Servais, came down for her vacation. Included in the party were Mr. and Mrs. D. E. Cushing, son and daughter, Toronto, formerly of Cobalt. It was quite a gathering of northerners who swapped many stories of the pioneer mining days of the gold and silver camps."

TIMMINS NOTES

School re-opened on Tuesday after the summer vacation with noteworthy attendance for both the public and separate schools.

After the regular meeting of the Timmins Lodge, I.O.O.F. next Tuesday evening refreshments will be served. All members and visiting brethren are invited to be present.

Owing to the rain it was impossible to give the open air band concert on Friday evening last. Early next year provision should be made for a proper covered band stand. With such a stand the Timmins Citizens' Band would be able to carry out their programme of weekly band concerts. Out of the twelve open air band concerts planned for this summer, there were two made impossible by wet weather. The band concerts this summer proved very popular with the public and were evidently much appreciated. The Band is now planning to give a band concert every second Sunday evening after the church services, the event to be held in the New Empire Theatre. The first of this series is scheduled for Sept. 30th.

A New Novel By Booth Tarkington

The Midlander

A novel by Booth Tarkington is always the literary event of the year. You can read his newest one before it is published in book form! For it begins in the October issue of

THE LADIES' HOME JOURNAL

It will be complete in four installments! In fact, each of the eight full-length novels coming during the next 12 months will finish in four or fewer issues!

Generous installments of serial, so that you're not reading one story for many months. Isn't that what you've always wanted?

Following "The Midlanders" come novels by Zane Grey, Sophie Kerr, Joseph C. Lincoln—and others. And, of course, fiction is only one feature! Besides the serial and four short stories in October,

Otis Skinner begins his reminiscences and Margaretta Tuttle begins her series on women successful in business.

There's a lesson on how to make your afternoon dress, and fashions for the business woman who buys her clothes. May I call and tell you about still other features? Only \$1.50 pays for 12 such numbers!
