Bake Goodies like Mother Used to Make

Happy Thought Pipe and Combination Hot Air and Hot Water Furnaces for larger homes.

Happy Thought Heaters bring real comfort into the stove-heated house.

Forty years ago Canadian mothers were baking pies in Happy Thought Ranges. And all through the intervening years Canadian women have been preparing their daily meals and baking that delightful pastry, for which the Canadian home is famous, in Happy Thought ovens. Three hundred thousand Canadian homes have been made happy by Happy Thought Ranges.

Isn't this the range you want in your home? You are entitled to good results from your baking. Get them by doing your work on a Happy Thought. They embody every desirable feature—fuel economy, easy regulation, steady heat, large oven, good cooking surface, excellent appearance, water-reservoir or water-front as desired—and all those little labor-saving attachments that mean so much.

DANE WRECK CAUSED BY NEGLIGENCE TO GIVE ORDER

Not Likely That Crown Will Take Action in the Matter in View of the Circumstances.

Since the wreck on the T. & N.O. Railway near Dane on August 28th, the T. & N.O. Commission has been conducting a thorough and very careful investigation to discover the causes for this accident which resulted in three deaths and injuries to other employees of the road. The result of the investigation, it is understood, was placed at the disposal of the coroner's jury inquest held on Tuesday of last week in regard to the matter. In the last issue of The Haileyburian the matter of the inquest is well covered by the following article:—

"A jury empanelled by Coroner Arnold, of Haileybury, to investigate the deaths of Engineer Thos. Woolings and Brakemen Thos. Foulkes and Alex. Kirkwood, of Englehart, who were killed in the freight wreck near Dane on Tuesday morning of last week, resumed the adjourned inquest at Englehart on Tuesday afternoon. A verdict of accidental death was brought in, with a statement to the effect that the wreck was caused by the neglect of J. Gilice, relieving agent at Englehart, to give an order to the conductor of way freight 97, leaving Englehart at 8:30 on the morning of the wreck. It was further added that the tragedy might even then have been averted had the wires between Englehart and North Bay been in order.

"Mr. Gilice, Despatcher Dwyer, of North Bay, and Dr. Lehman, of Englehart, were the only witnesses called. In view of the evidence given by the despatcher, to the effect that the despatcher's telephone circuit was out of commission on the morning of the wreck, and that the telegraph wires were also down until close on 10 o'clock, thus preventing Gilice from receiving the benefit of the usual 'checking up' from North Bay, it is considered unlikely that action will be taken by the Crown.

"Gilice, who has acted as relieving agent at Cobalt, Charlton and Englehart during the summer, was evidently under great strain when he was giving evidence. He was on the stand nearly an hour. Examined by Crown Attorney Smiley, he told of coming on duty at 8:30 the morning of the wreck, and giving night operator McCleary a receipt for his orders. Among them was a schedule order giving coach extra 146 right-of-way over all but first-class trains. Conductor Lecky, of No. 83, leaving Englehart at 7:40 had been given a copy of this order and signed for it. When Gilice came on duty he forgot to give Conductor Robinson, of No. 97, the order, and the freight left without word of the approaching extra. Gilice discovered the order lying under papers on his desk, after hearing of the wreck.

"Despatcher Dwyer, of North Bay, said that it was impossible to get in touch with Englehart on the morning in question as the wires were down. There had been a storm the night before. When he did not get the conductor's signature over the wire on Order 13, the schedule order concerned under the standard railroad rules he assumed the train was being held at Englehart. The wires were not in order until 10 o'clock and he had so many other things to do he did not have time to enquire regarding the freight. Had the wires been in order all morning he would probably have detected the error in time to avert the wreck."

NEW SALVATION ARMY OFFICERS FOR TIMMINS

Thursday last Capt. and Mrs. Cornthwaite took charge of the Salvation Army work in Timmins and are carrying along the Army efforts here. Capt. Cornthwaite has had a long and useful service in Salvation Army work in the North Land, having been stationed at different times at Cobalt, Sudbury and other centres, so he takes up the work here well-equipped in experience of the country and its people.

Capt. Clague, who was formerly in charge at Timmins, has been transferred to Cobalt. Capt. M. Isherwood, another lady officer who did splendid work here for the Army, was married on Aug. 22nd at Toronto to Capt. R. Tidman of the Toronto S.A. Her many friends in this district will extend very heartfelt good wishes.

FAT MAN

On the way home to-night, Fatty stopped in front of a haberdasher's display window, I asked him if he was thinking of buying a shirt or pajamas or something, and he sighed when he said:

"Gosh, no! The only thing that fits me ready-made is a handkerchief!"

SUCCESSFUL EUCHRE AND DANCE BY TIMMINS L.O.L.

Last Wednesday evening the Timmins Orangemen held the first of what is intended to be a series of euchres and dances during the coming fall and winter, in the I.O.O.F. Hall here. This was the first attempt of the local members of the Orange Order to hold anything of this nature since the organization of the Lodge here a few months ago, and the large crowd present, and the enjoyable time spent by all, speaks well for the attendance at any future entertainment that the lodge may hold.

The evening opened with progressive euchre, there being nine tables of devotees of the game. Prizes for the winners were offered, Mrs. Tapperton winning the ladies' first, a handsome Community silver berry spoon; Mr. Pennington won the gentlemen's first, a smoking set. Prizes for the lowest number of wins were awarded to Miss M. Isner, and Mr. Ken. Donohoe. After the euchre a fine lunch was served by the wives of the local members. The dancing was much enjoyed, besides the modern dances there was an old-time square dance, which was done in real old time style. Scotty Wilson at the piano gave the best service and music.

The evening's entertainment closed after midnight, one and all voting it a very successful evening, and assuring the local Orangemen of a larger attendance at the next event of this kind held under the auspices of the Timmins L.O.L.

IS 'HAPPY' BLOSSOMING INTO A BLOATED CAPITALIST

The following is from the last issue of The Haileyburian:—"Mr. J. M. 'Happy' Woods, spent a few days in Haileybury this week on his way back to Timmins from a trip to Toronto. 'Happy' appears to be enjoying life in the gold camp, where he is employed at the Hollinger Mine, and has also become the owner of several houses in the town."

A DONATION

Mrs. Murphy was getting the supper for the children on Saturday night when a young woman came to her door.

"I'm a collector for the Drunkard's Home," she said. "Could you help us?"

"Come around to-night and I'll give you Murphy," said the housewife as she went about her work."

Better walls and ceilings

BEAUTIFUL PANEL Effects can be obtained through the use of Gyproc Wallboard.

Because of its unshrinkable and non-warping qualities, "Gyproc" can be used on the walls and ceilings of the most costly homes. Unlike ordinary wallboard, Gyproc stays put regardless of temperature to which it is subjected, forming a beautiful, perfectly flat surface without a wrinkle or roll.

Gyproc walls and ceilings can be painted, tinted or papered the same as any plastered wall. It is absolutely fireproof and a wonderful insulator against heat or cold.

Write for a sample of Gyproc and Booklet.
