**ANNUAL MEETING OF N.O. H.A. AROUND NOVEMBER 17**

Most Interesting Business Will be the Arrangement of "Groups" for the Season.

It is likely that the annual meeting of the Northern Ontario Hockey Association will be held at North Bay about the seventh of November. This session will be one of the most interesting in the history of the Association, the matter of the arranging of the group or groups in the Senior Series being one that has aroused much discussion, with much apparent uncertainty as to the best solution for the situation that seems to present itself. It has been taken for granted that Timmins would not have a Senior team this year. Of course, this is taking a little too much for granted. As suggested in The Advance recently, there is still a possibility that the Porcupine may have a team in the N.O.H.A. There is material for a team that would make the Falls travel some. Timmins has dropped out of the type of hockey followed for the past few years, but there is little question now but that there will be good hockey here this coming winter. There will be a Mines League in any event, and the interest in hockey might easily develop into a Senior team for the N.O.H.A. Hockey fans here believe there is the makings of a very creditable team that would give a very good account of itself in the N.O.H.A. It is all a matter of just what move will be made in the next week or two.

**ANOTHER CONCERT SUNDAY BY TIMMINS MALE CHORUS**

Another concert is to be given in the New Empire Theatre after the church services on Sunday evening, Nov. 4th, by the Timmins Male Chorus. Some weeks ago the Male Chorus delighted a well-filled house with the programme furnished, and Sunday evening's event promises to be even more attractive. There will be new selections if the Chorus, as well as vocal and instrumental solos, quartettes, etc.

**ATTRACTIVE HALLOWE'EN DANCE BY GIRLS' AUXILIARY**

The Halloween Dance held in the Masonic Hall here last Friday evening, under the auspices of the Girls' Auxiliary of St. Matthew's church, proved to be one of the most successful and enjoyable of the dances yet held under these auspices.

The Hall was decorated in a becoming manner, with black cats, jack-o-lanterns and coloured streamers of paper around the walls and across the ceiling.

The music for the dancing was provided by Wolno's Orchestra, who provided their usual high standard of dancing tunes. Refreshments were served by the members of the Auxiliary, these being an enjoyable feature of an enjoyable evening's programme.

**A.S.D. HAVING HALLOWE'EN PARTY THIS EVENING**

The usual weekly dance of the A.S.D. Club held last Wednesday evening in the Oddfellows' Hall here, was as usual in the club dances, a very enjoyable affair. Due to the inability of the regular orchestra to be present Scotty Wilson at the piano provided the music for the dancing. Refreshments served during the evening by the lady members of the Club were up to the usual high standard set at previous dances. It was announced that due to other events this evening, the Club would not hold their usual dance, but on discussion it was decided to hold the usual meeting this evening, the majority of the members signifying their intention to take in the Club affair. The programme this evening will most likely take the form of dancing with games and other amusements appropriate for Halloween night.

**NEW BISHOP ENTHRONED IN NEW LISKEARD CHURCH**

Right Rev. Louis Rheame, Roman Catholic Bishop of Haileybury, made his official entry into his new diocese last Wednesday afternoon, when his Lordship was enthroned in St. Theodore's church at New Liskeard.

Addresses of welcome on behalf of the clergy and laity of the diocese were read to the new prelate, who made his solemn vows and gave the solemn benediction of the Blessed Sacrament. At the conclusion of the religious ceremony, the Papal bulls appointing him to the diocese were read in the presence of a large congregation.

Bishop Rheame arrived from the East on the 2 o'clock train on Wednesday of last week, and was met at New Liskeard by many of the church dignitaries and representative laymen, while the pupils of the separate school were grouped at the depot. A procession from the T. & N.O. station to the church was formed, headed by the Ville Marie Band, and after the services the clergy and a number of laymen of the district were guests at a banquet.

**GROWING IMPORTANCE OF THE MINING INDUSTRY**

In a thoughtful article on the mining industry as a favourable force in the economic life of the Dominion, The Toronto Globe last week said:—

"As a factor in Canada's economic welfare the mining industry is establishing itself in a position of considerable importance. Apart from the actual return of gold and silver and other minerals of commercial value, there is the additional fact that the mining industry is developing new territories in Northern Ontario, British Columbia and Quebec. Employment is in turn provided for thousands of citizens, and a great market opened for not only food and clothing, but for all the equipment incidental or necessary to modern civilization. Developments in Northern British Columbia have been spectacular in character, and the results from the working of the Premier Mine have been phenomenal. New capital is entering Northern Ontario in a steady stream, and there is every possibility that this particular section of the Dominion will in time be recognized as the world's richest gold centre."

The Haileyburian last week says:—

"Mr. F. A. Leslie returned on Tuesday after spending a few days in Timmins and South Porcupine on business."

**KLIM BRAND POWDERED WHOLE MILK**

If You Like Milk You'll Like Klim Whole Milk.

Klim is the food part of milk dried to a fine white powder. By adding Klim to water it becomes liquid, with the consistency and taste of fresh cows' milk. All the cream and the flavor is there. Takes but a moment to prepare. Keeps fresh in the tin for months.

Sudbury seems to have decided that the chances are for only three N.O.H.A. Senior teams—Sudbury, the Sault and Froquois Falls. Sudbury seems anxious at present to coax North Bay into the Senior series, but the Bay appears to be too absorbed in winning the Junior Championship. Sudbury is inclined to look a little too patronizingly upon Froquois Falls. Fear is expressed that the Falls will not present fast enough hockey to suit the Sudbury boys. Sudbury need not unduly worry along that line. Before the season is over the Falls is very likely to give Sudbury something to worry about in an altogether different direction. The Sudbury Star says that "Sudbury fans, in particular, don't care to see games where the Wolves have any walkaway victories." No? And the Sudbury fans, in particular, don't care to see games where the other team has a walkaway victory over the Wolves. So there you are!

In the two or three weeks between now and the annual N.O.H.A. meeting almost anything may happen to completely alter the hockey situation. Froquois Falls does not appear to be worrying any over the position of affairs. Sudbury claims a similar attitude of "let the other fellow worry." The Porcupine is simply considering the whole situation as it appears in this Camp with a view to formulating a plan that will assure the best hockey and the most good sport here. As the season approaches interest will no doubt increase and expand, and definite plans will be worked out for N.O.H.A. hockey in Timmins this season.

**WORK ON WEST DOME LAKE SHOWS GOOD RESULTS**

A correspondent writing from South Porcupine last week says that most favourable results have been disclosed by the development programme on the Consolidated West Dome Lake Mine, and that the Porcupine Camp is accordingly assured of another substantial gold producer.

One already in sight as a result of having merged Dome Lake and West Dome is already nearly sufficient to warrant starting up the 100-ton mill already on the property. Lateral work along the line which formerly marked the boundary of the merged properties is steadily adding to the amount of ore in sight.

In the meantime shaft sinking is progressing rapidly below the 600-ft. level, and is now below a depth of 700 feet. Once the objective is reached at a depth of 1,000 feet the intervening levels will be opened up as rapidly as possible.

The powerful mining plant is adequate to develop the mine in an exceptionally big way, while the results already obtaining are such as to encourage big hopes for the future. Added to this is the fact that the property immediately adjoins the Dome Mines, and is situated right astride the westerly strike of the big mineralized zone on which the Dome Mine is producing at the rate of approximately \$5,000,000 a year.

A writer in The Toronto Star last week asks: "If Henry Ford runs for President will he meet his Sedan? Or will he achieve a coupe?" Why no, Little Wolf, the answer is that he will likely prove a flivver!

**REAL SERVICE IN THE MINING MARKET**

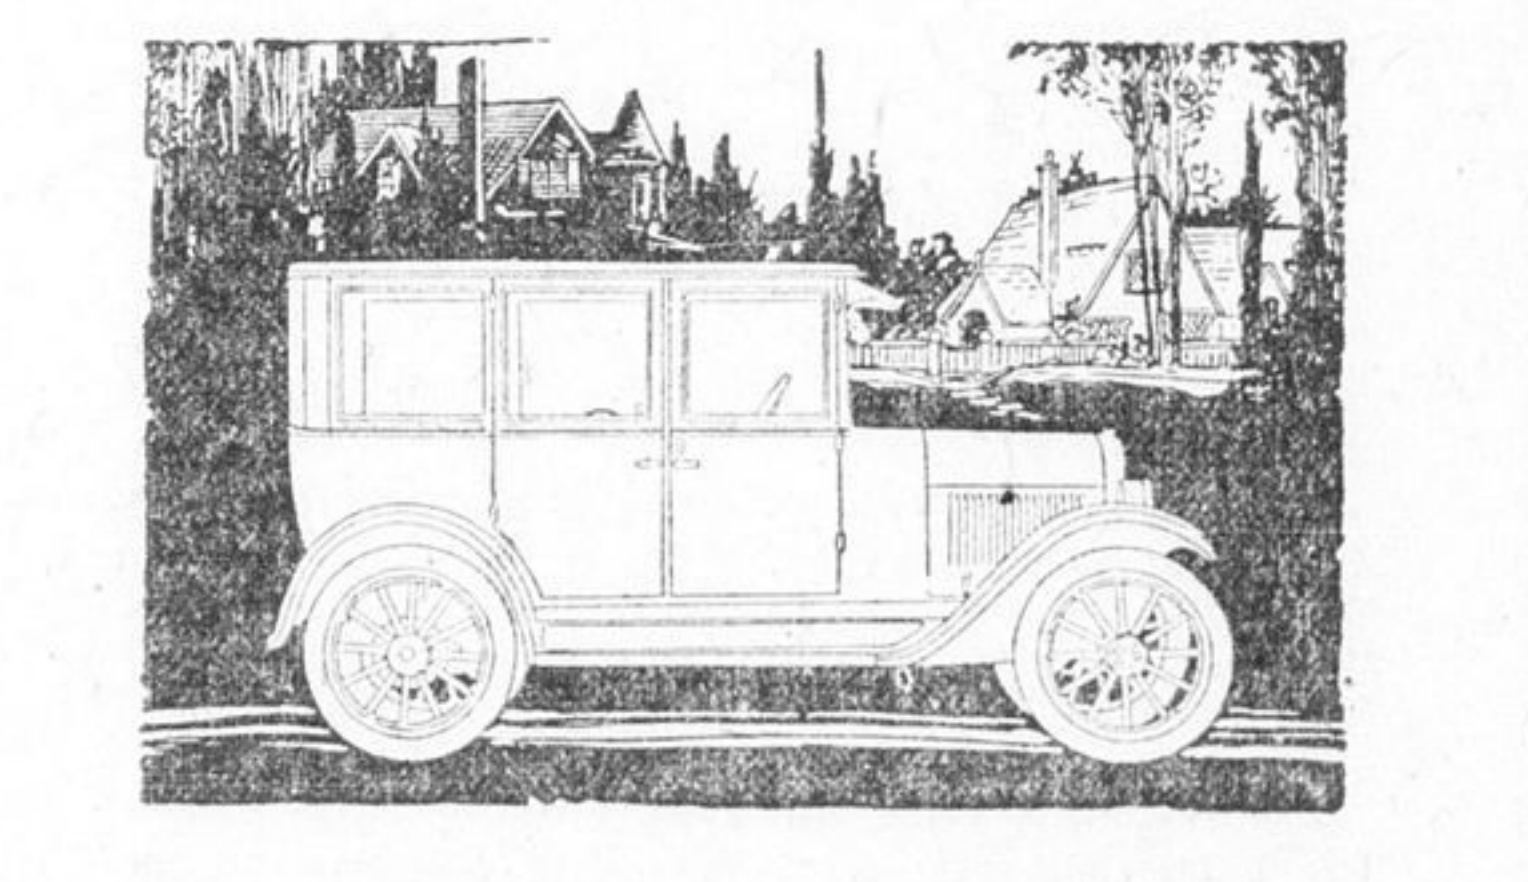

A service based on seventeen years of direct connection with Northern Ontario's mines.

A service fortified by the knowledge this long experience has given us.

A service that hundreds of clients have tried and found satisfactory in every particular.
