SALE of LAND IN THE PORCUPINE GOLD AREA ONTARIO.

NOTICE is hereby given that under and by virtue of an Order-in-Council dated the 11th day of December, 1923, that part of the bed of Porcupine Lake in the townships of Whitney and Tisdale, in the Porcupine Mining Division, remaining the property of the Crown and containing 539 acres more or less, together with the mines, minerals and mining rights therein and thereunder, is offered for sale by public tender on the following conditions:

Tenders to be received not later than 12 o'clock noon on Thursday the 15th day of May, 1924.

Tenderers to name a lump sum for the said land, payable in full within fifteen days of the acceptance of the tender.

A certified cheque for ten per cent. of the price offered to accompany each tender, forfeitable upon non-payment of the balance of the purchase money within the prescribed time.

The sale is subject to the provisions of the Mining Tax Act and any amendments thereto, and to an additional charge in favour of the Crown of two per cent. on the net profits calculated on the basis contained in the said Act.

The boundaries of the parcel to be surveyed and delimited on the ground by the Department of Mines before the day of sale.

The highest or any tender not necessarily accepted.

Tenders to be enclosed in sealed envelopes, marked on the outside in plain letters "Tender for Porcupine Lake" and forwarded by registered mail to the Minister of Mines, Parliament Buildings, Toronto, Canada.

CHARLES McCREA,
Minister of Mines,
Toronto, 17th December, 1923.

N.B.—No unauthorized insertion of this advertisement will be paid for.

GOVERNMENT PLANNING DEVELOPMENT OF NORTH

Deputation from North Land Favourably Received. Ferguson Govt. Has Great Faith in the North.

About 50 representative citizens from the North Land, chiefly from Sudbury and the western section of the North, waited upon Premier Ferguson, Hon. C. C. McCrea and Hon. Jas. Lyons, last week. Their mission was to secure expenditures and action for the better development of the North Land. The Government not only gave the deputation a favourable reception but also showed that each matter advanced by the deputation was already receiving intelligent consideration. It was evident that not only are the Premier, the Minister of Mines and the Minister of Lands & Forests favourably disposed to this part of the Province, but they also have studied its possibilities and its needs and have an intimate personal knowledge of the North. The deputation was informed that the Government was substantially in accord with its views. It was promised attention in the matter of colonization roads such as it has not had hitherto; an aggressive policy of bounties and the encouragement necessary to foster the iron industry of Algoma was pledged; and a re-organization of the forest fire protection service such as will make it more efficient and economical was declared to be impending. Other projects which the deputation urged were declared to be under review by the Government which was collecting the data necessary to the formulation of a policy towards them. Chief amongst them was the T. & N.O. spur line connecting Swastika and West Tree, a distance of 60 miles, for which the Sudbury Board of Trade asked. The deputation as a whole, furthermore, urged the construction, if only in the interests of national unity, of the missing link in the Trans-Canada Highway between Sault Ste. Marie and Nipigon.

From despatches and from interviews with members of the deputation on their return to the North it would appear that Premier Ferguson expressed himself to the effect that generally his Government was preparing a comprehensive scheme of development for Northern Ontario which had regard not to sectional interests but to the progress of the district as a whole. The whole territory, he said, was being brought under a systematic survey which would serve the Government as a basis of a broadly planned scheme of general development. When that had been evolved the Government would invite men and capital to the North Country to participate in an era of prosperity of which he was unqualifiedly confident. He emphasized the intention of his Government to supply the requisite conditions to make investment in the North Country profitable. He realized, he said, that the Government in order to attract capital must not only assure

it of stability, but also of assistance in making it as attractive as possible.

The deputation was introduced by Mr. G. B. Nicholson. Other speakers included: J. S. Doherty, of the Algoma district; J. C. McMillan, who spoke of the North's needs in educational facilities; W. A. Evans, of the Sudbury Board of Trade, who spoke in support of a T. & N.O. spur line from Swastika to West Tree; Mayor Gill, of Sudbury; J. Morrison, D. A. Smith and J. J. McFadden.

LAKE SHORE MILLED \$29.70 GRADE ORE IN DECEMBER

The monthly report of the Lake Shore Mines at Kifkand Lake, just issued for December, shows that the mill ran 98.25 per cent. of possible time. The mill handled 1870 tons of a total value of \$45,563.20. The average grade of ore accordingly was \$29.70 for the month. The regular 2 per cent. dividend has been declared payable Feb. 14th to shareholders of record Feb. 1st.

FAVOURABLE DEVELOPMENTS AT VIPOND CONSOLIDATED

In an official statement given out at Toronto last week, Dr. J. McIntosh, Bell, managing director of the Vipond Consolidated said:

"Operations below ground at the Vipond Consolidated continue to give gratifying results. Most of the work in the mine during December and the present month has consisted in the widening to the walls of the various ore bodies on the No. 9-14 system of veins, at the 300, 400, 500 and 600-ft. levels, along which for the most part only pilot drifts and crosscuts had hitherto been advanced. This work has had the effect of materially increasing the proven ore reserves, a recalculation of which will not be made until the end of February. Development is proceeding on the same system at the 733-ft. level with hopeful results. Similar operations will not be undertaken at the 866 and 1,000-ft. levels until work at the 733-ft. level is completed. Apart from the work on the No. 9-14 system, the reserves have been further augmented by the favorable development of No. 5 vein at the 600-ft. level.

"The operation of the mill during December may be considered mainly as preliminary tuning, the tonnage treated—which was purposely mainly of low-grade—rising to approximately 135 tons a day at the end of the month. A total production of \$24,846 was made, derived partly from material passed through the mill and partly from the treatment of a special parcel of high-grade ore. The mill is now operating at a capacity of about 150 tons per day, on material of normal grade."

Only one member of the 1923 Council was re-elected this year in Bucke Township. R. Howard was elected Reeve with 166 votes, J. Brown only receiving 99, and Mrs. J. H. Davis, the other candidate for Reeve, obtaining but 11 votes.

RICH ORE AT HATTIE JUST BEFORE CLOSING DOWN

Work has been discontinued at the Hattie Gold Mines near Matheson. The workings are being allowed to fill with water, and there appears to be uncertainty as to the future development of the property, at least for the immediate present. It is understood that plans are under way for another underwriting agreement as a means of replenishing the treasury and going on with the work of development. It is also understood that the work so far met with good results. Just before the closing down of the property it is said that some unusually rich ore was encountered in the workings.

A.S.D. CLUB GIVING SPECIAL DANCE ON FEBRUARY 15

With the best attendance recorded at any of the recent meetings of the A.S.D. Club, the Bridge Party followed by a dance held in the Club rooms in the I.O.O.F. Hall here last Wednesday evening, was a decided success. Cards started sharp at nine o'clock, about fourteen tables being filled. Prizes were awarded by the Club for the winners during the evening, Miss Barnett and Mr. Wm. Andrews being the successful players.

Following the cards, refreshments were served by the young lady members of the Club, these as usual being an enjoyable feature of the programme.

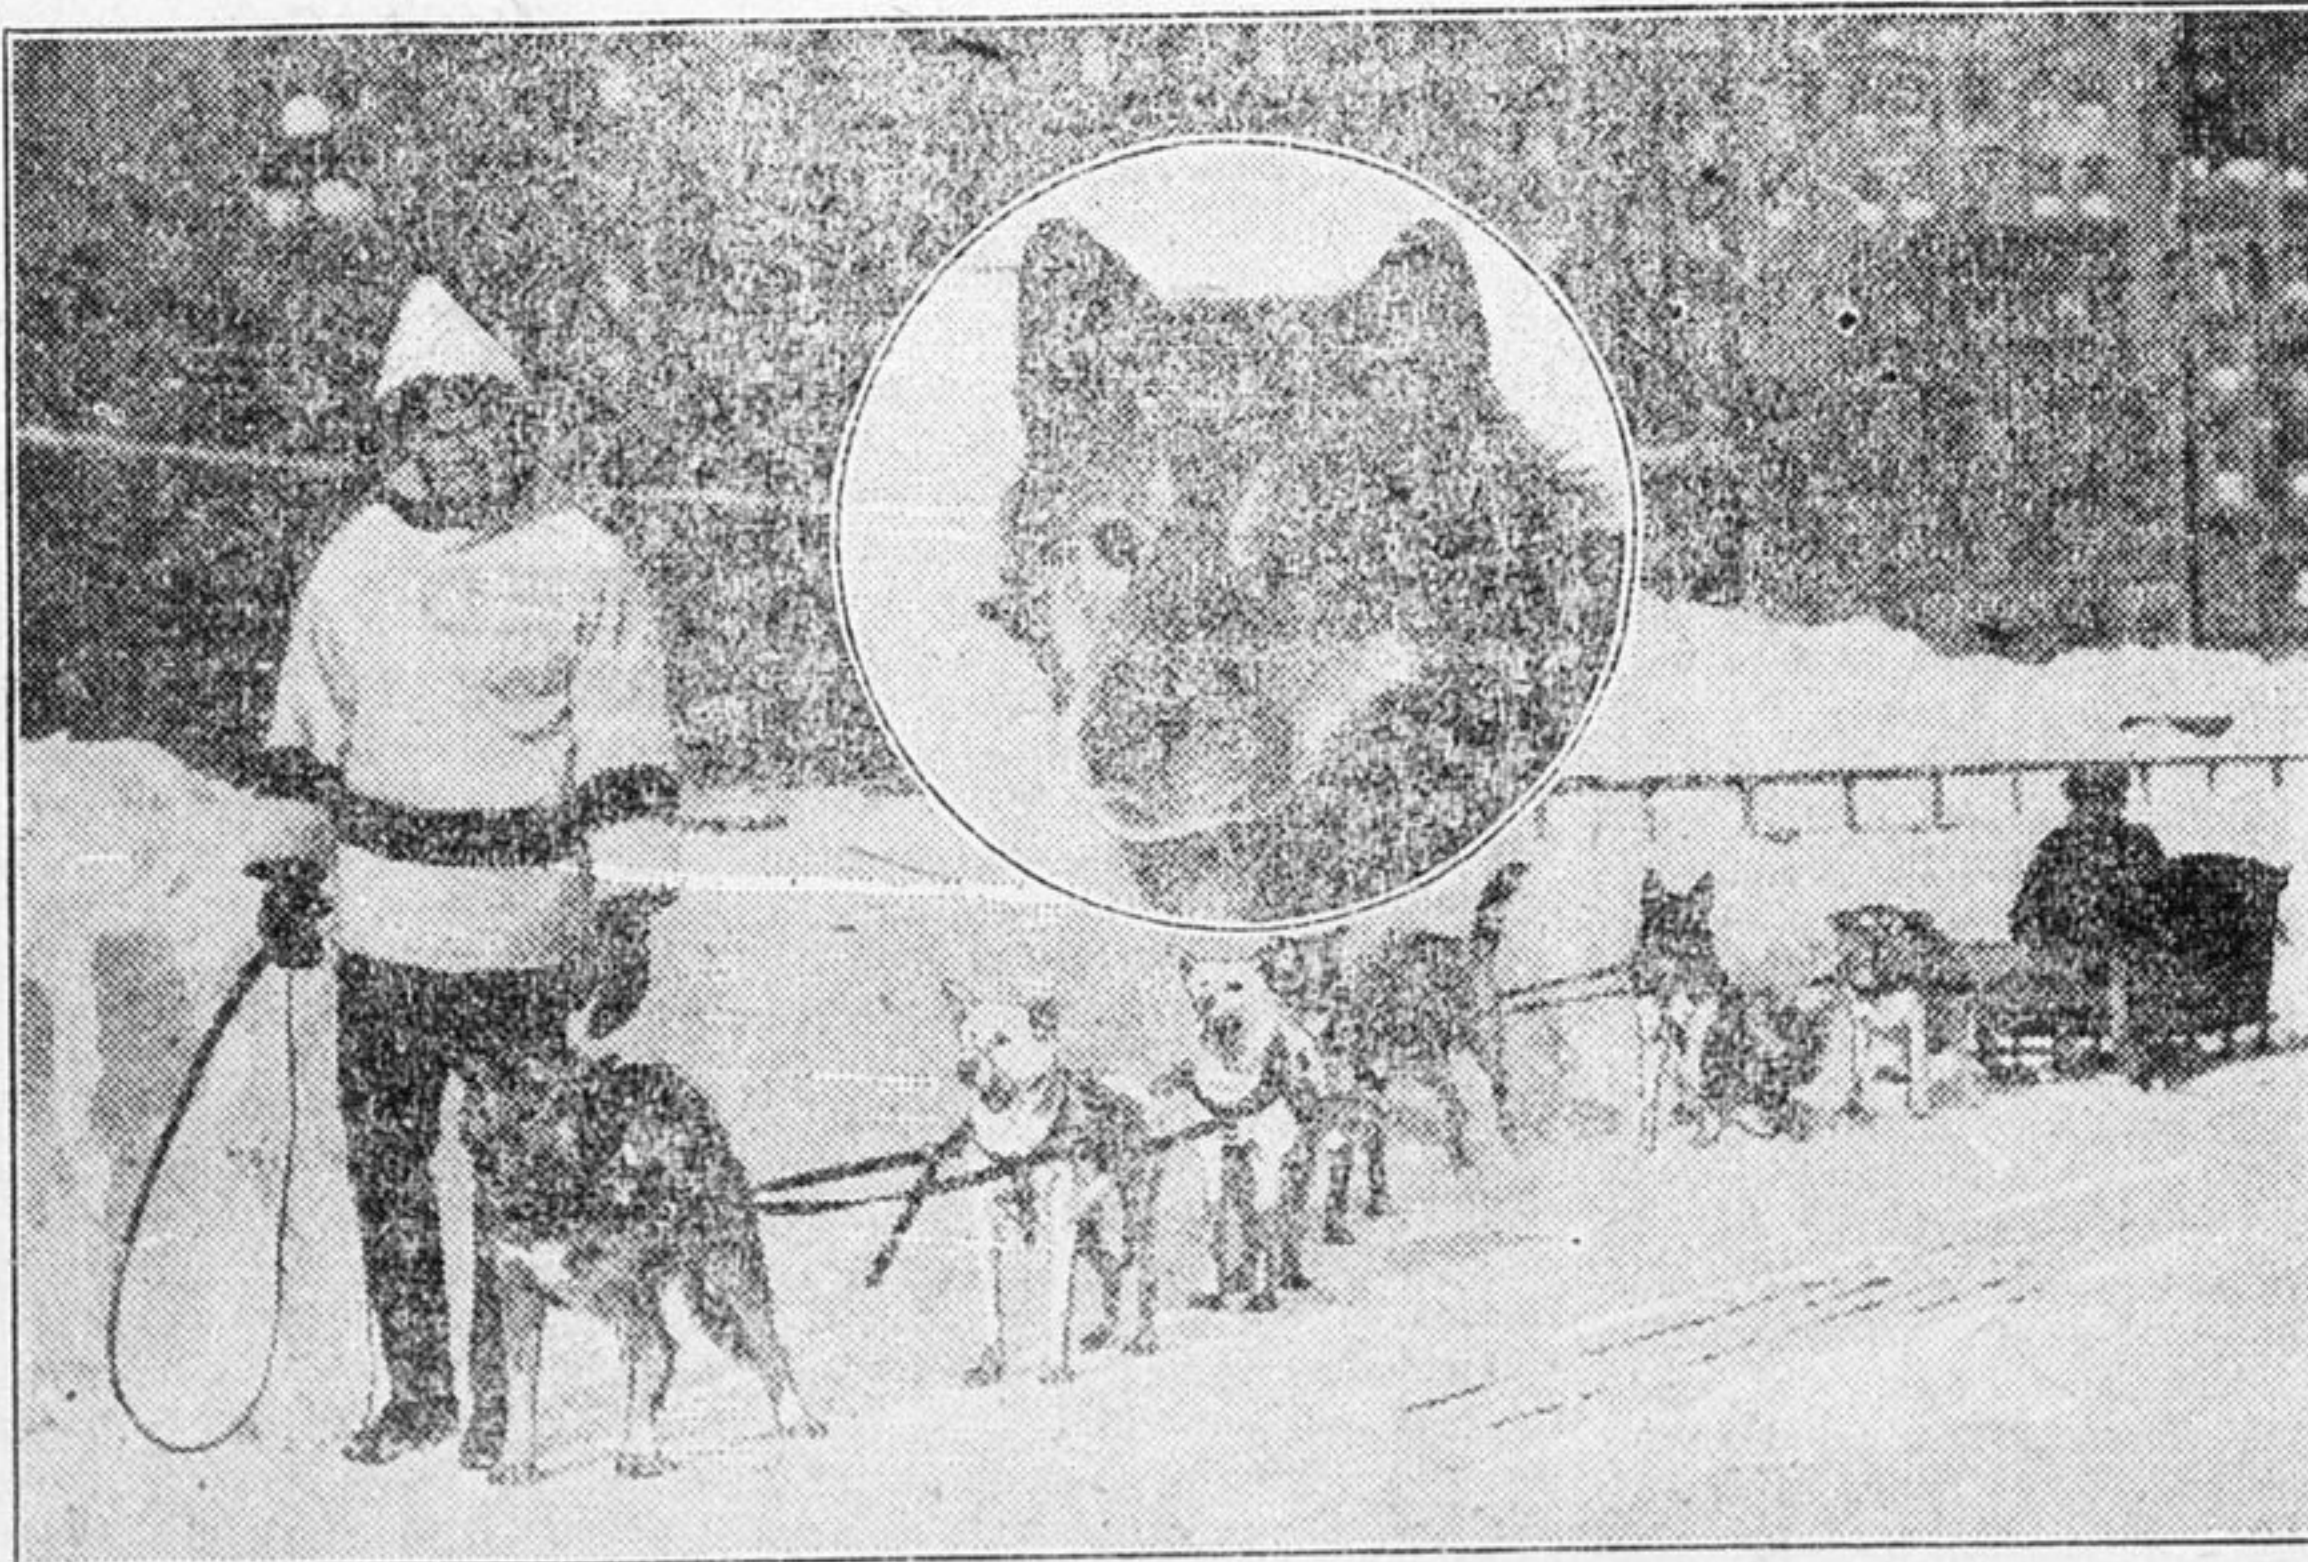

Mr. R. Hoggarth, the president, then announced that arrangements were being made for a dance, to be held on February 15th in the Masonic Hall. All members of the Club are privileged to invite two persons, non-members of the Club, and are asked to hand in the names of those guests to any member of the executive, so that invitations may be sent them. While occupying the floor, Mr. Hoggarth again impressed on the members the necessity of keeping their dues paid up. While there were not many backsliders there were a few, and it was necessary that all dues be kept paid promptly. In order that all may help to meet the expenses that were caused by the weekly dance.

The floor was then occupied by the dancers, Messrs. Wolno, Wilson and Rodger providing the music for this part of the programme. At one o'clock, one of the most successful of any of the Club meetings ended with the home waltz, followed by the National Anthem.

The meeting this evening will be in charge of the lady members of the Club, and a good time is assured all attending.

By defeating the Cobalt N.O.H.A. team at New Liskeard on Tuesday evening of last week, with the score of 7 to 2, New Liskeard Intermediates won the Central group championship. The group started with North Bay, Cobalt and Liskeard, but the Bay dropped out. Liskeard beat Cobalt Intermediates twice and did the same to North Bay's team in the group.

Chateau Frontenac Team Leader's Long Journey

Mountie, veteran husky, leading the team, outside Chateau Frontenac. Inset, Mountie.

A breath from the freezing winds of the Canadian Arctic, with something of its loneliness, its savagery, its call upon the elemental qualities of courage and endurance and a dash of the romance of the long trails are embodied in Mountie, veteran hero of the wilderness and new leader of the Chateau Frontenac dog-team at Quebec.

Sergeant Grennan of the Royal Canadian Mounted Police, and trained by him. He put in nearly five years as a member of that famous force running patrols on His Majesty's Service with the red-coated heroes of the waste.

The journey from Le Pas, in Northern Manitoba, where he was purchased, to Quebec, a distance of well over two thousand miles, was an exciting and extraordinary experience for Mountie. He spent Christmas Day at Winnipeg, where the kind-hearted officials of the Canadian Pacific offered him seasonal fare, which he did not like much, except as a dessert following a meal of his accustomed fish and biscuits. He made friends with the baggage men, who were more than sorry to part with him. At Montreal, he had a day's

rest and there adjusted himself comparatively easily to the strange turmoil of the great city. His driver, Arthur Beauvais, an Indian from Caughnawaga, took him for a short stroll through the streets, where he created a tremendous sensation. And no wonder, for Beauvais says he is without exception the finest husky he has ever seen, while the Mounted Police report that he has always been greatly admired wherever he has been, both for his appearance and his capacities.

Now he is at the Chateau Frontenac, working comparatively easily at giving visitors a ride and is one of the big attractions of winter-time Quebec and will no doubt shine brilliantly at the forthcoming carnival there.
