**VIPOND PRODUCTION WAS
\$53,500.00 IN JANUARY**

Physical Condition Largely Improved
in Last Six Months. Pleasing
Report Issued.

At the Vipond Mine in January this year production was \$53,500.00, as compared with \$24,946.00 for December, according to a report of J. MacIntosh Bell, consulting engineer of the Company. The report states that during the last six months the physical condition of the Vipond Mines has continued to improve, largely through the opening up of substantial reserves on veins Nos. 9, 10, 12 and 14 in the central part of the property. The ore reserves, which were estimated at 210,885 tons of an average grade of \$6.62, or a gross value of \$1,396,058 on July 15, had risen to 256,981 tons of an average grade of \$10.19, or a gross value of \$2,618,636, on November 15. Since this date comparatively little actual new development work has been in progress, the mining operations consisting largely in the widening of the known ore bodies to the walls and in stope preparation. The mill, which commenced operations in December, began working early in January on a daily capacity of about 150 tons of material of normal grade.

A statement of receipts and expenditures shows a balance on hand on August 1, 1923, of \$6,098. Receipts from August 1, 1923, to January 31, 1924, are as follows: Sale of stock, \$198,351.20; sale of gold, \$42,538.23; exchange earned, \$1,165.35; sundry debtors, \$745.20. Total receipts, \$242,799.98 making a total amount of cash for the six months of \$248,898.85. The expenditure was \$212,203.06, leaving a balance on January 31 of \$36,695.79. Capital expenditure for the six months was \$59,692.72.

**DEATH OF ARTHUR JOWSEY
WELL-KNOWN PROSPECTOR**

J. Arthur Jowsey, a well-known prospector of the North Land, died last week in Toronto General Hospital following an operation for intestinal trouble. He was a native of Aylmer, Quebec, and was only 37 years of age at the time of death. He had spent several years prospecting in the North Land. He made the original find on the Kirkland Lake Gold Mines property and was one of the real discoverers of the Kirkland Lake field. He served overseas with the Canadian Engineers, being one of eight brothers all of whom gave military service to the Empire in the late war. His widow (formerly Miss Georgina Haig) is among the near relatives surviving.

**TO INVESTIGATE DUBIOUS
BROKERAGE BUSINESSES**

Evidences coming to the notice of the Ontario Government that there are signs of an invasion of Toronto and other Ontario cities by a group of high pressure mining brokers from U.S.A. centres, a quiet but thorough investigation is being carried on. The Government realizes that the mushroom type of brokerage house is liable not only to cause loss to the people doing business with this class of broker but also is practically sure to have the effect of injuring the development of the North through the losses that usually follow dealings with questionable firms. It is said that several of the "curb" brokers recently failing across the line have planned to establish themselves in Ontario. The Government is planning otherwise. The Government is investigating the past history of the new brokerage and investment houses with a view to protecting the public. In this good work the Government is having the heartiest co-operation of the Standard Mining Exchange, the members of the Exchange as a body being anxious to have the business kept legitimate and honourable.

KINDLY NOTICE

My Photographic Studio having now been taken over by Mr. A. Tomkinson, I take this opportunity to sincerely thank the people of Timmins and District for their generous support during my several years in business here, and ask that the same consideration be given to A. Tomkinson, my successor, who I can confidently state will give excellent service as photographer of your town.

All owing me accounts are asked to please pay same to my credit at Imperial Bank or to me personally not later than Feb. 29th, after which date my attorney will take care of these collections.

With many thanks,

BILLIE BROWNE
