SILVER CLAIMS MAY BE PURCHASED BY CLIFTON

Re-Organization of Porcupine-Clifton Planned, Promising Property Secured in Lorrain.

Last week Mr. Homer L. Gibson, Vice-President of the Clifton-Porcupine Mines, Limited, announced the details of a plan which it is hoped will solve the difficulties which have been encountered by that organization in the Porcupine field. The shareholders will still retain their interest in the gold mine, but they will be given an opportunity to participate in the development of certain properties in the South Lorrain field—an area that has recently come into much prominence.

ON HIS FEET AGAIN AFTER THIRTY-SEVEN YEARS' SUFFERING

Dreco helps Mr. Farley's weakened system despite his 59 years and the long standing nature of his troubles.

Mr. G. Farley, of 428 Gunns Road, Toronto, had scarcely known a well day for thirty-seven years. Today he is a different man, thanks to Dreco.

"For the past 37 years," says Mr. Farley, "I have suffered from the effects of pleurisy. This trouble has kept my system terribly run down. I tried many remedies right along, but the best I ever received from them was temporary benefit. I always felt weak and tired out and my rest at night never seemed to refresh me."

"Dreco has benefited me wonderfully. My system in general is much stronger. I sleep better and feel greatly refreshed in the mornings. I no longer have that tired out feeling and feel more energetic than for years. Dreco is the best general builder for the system I have ever heard of and I do not hesitate to recommend it."

Dreco regulates and restores the weakened organs so that they properly digest the food, retaining all the nourishing values to up-build the body. Dreco also purifies the blood. It contains no mercury, potash or habit forming drugs, being a thoroughly reliable remedy of purely vegetable content.

Dreco is being specially introduced in Timmins by F. M. Burke. It is also sold in South Porcupine by B. L. Pilsworth, and by a good druggist everywhere.

The five claims have an area of approximately 200 acres, located about 1 1/2 miles southeast of the Keeley, and are traversed for nearly three-quarters of a mile by the diabase-keewatin contact, closely adjacent to which all the important silver discoveries in the South Lorrain area have so far been made. Several "breaks" similar to those which have proven to carry high-grade ore in volume are known to exist in the group.

To acquire these properties a re-organization is necessary, and it is proposed to incorporate a new company under the name of Clifton Consolidated Mines, Limited, with an authorized capital of \$2,000,000 in \$1 shares. All the assets of Clifton Porcupine Mines, Limited, are to be sold to the new company for 997,651 fully-paid shares, or on a basis of one new share for each two shares now outstanding. The new company will then be in a position to purchase the five claims for the sum of \$205,000 by the issuing of 200,000 fully-paid shares, and the payment of \$5,000 in cash. There will be some 800,000 shares in the treasury to be disposed of as may be needed from time to time.

The subject will be discussed by the shareholders at the annual general meeting, to be held at the King Edward Hotel, Toronto, Monday, February 18, 1924, at 3:30 p.m.

STEAMSHIP LINES CANNOT REDUCE PASSENGER RATES

Many suggestions have been made during the past few months to the effect that "steamship rates will surely be reduced in the spring." As mentioned previously in The Advance the steamship companies have maintained that any such reduction is impossible. Mr. F. J. McClure, general passenger manager of the Robert Reford Company last week made a public statement reiterating the claim that there would be no reduction in rates for the British Empire Exhibition which is the big tourist attraction this coming season. He said:—"Every liner, old or new, has not earned expenses since the war, and a reduction in the eastbound passenger rates will not even bear consideration on the part of the steamship companies." In addition it may be noted that practically all the cabin space in the rush months, has been booked or spoken for at the current rates, and other passengers will probably have to either defer or advance their sailing dates.

WOMEN AND CHILDREN LIVE IN REVOLTING CONDITIONS

Chief Greer and his staff on Friday evening last raided a couple of houses in the Gauthier Townsite and as a result a woman named Mrs. Mason faces a charge of keeping a disorderly house and Neil Bell, Albert Adams and Earl Caron are charged with being frequenters of a disorderly house. Following a statement made by Mrs. Mason, another woman named Fitzgerald was arrested this week and is also to face serious charges on Thursday of this week. The police found the Mason family living in revolting fashion, with gross immorality apparent, involving one girl 14 years old and another 16 years old. Small children in the house are said to have been permitted to see most revolting immorality. Those concerned in the matter will come before Magistrate Atkinson at police court to-morrow (Thursday). It is understood that Mr. R. LeHeup, Children's Aid Inspector, will be here from Haileybury in connection with the cases, and the Crown Attorney, Mr. J. M. Greer, of Coburne, may also be present here to conduct the cases against the adults concerned.

Adeline Dupre will face a charge of being disorderly in the Club Cafe rooms this week. When Officer Martin visited the rooms in question this week he found two men in company with the woman, and one of these men, Paul LePache, he accuses of interfering in connection with the arrest of Adeline Dupre. Accordingly LePache was also arrested on a charge of disorderly conduct.

Mrs. Rosa Cosorona will face a charge of selling liquor, at Thursday's court. The same sort of charge will be preferred against Mrs. George Maloe. I. Sylvester will be faced with a charge of keeping liquor for sale. Three drunk charges were also included on the list yesterday.

Theodore Rose, alias Mayes, and believed to have other aliases, will face a charge of breach of the new regulations in regard to Standard Hotels. This man is accused of wrongful registration at a local hotel. It is said that he registered under an assumed name and then secured food and lodging under questionable representations. Magistrate Atkinson will talk to him in the matter to-morrow (Thursday).

The L.O.L. announce a Euehre and Dance to be held in the I.O.O.F. Hall, Timmins, on Friday evening of this week, Feb. 15th. Refreshments will be served and a pleasant evening is assured for all attending.

NINE FINED LAST WEEK FOR OBSTRUCTING STREETS

At police court last Thursday Magistrate Atkinson imposed fines of \$4.00 each upon nine different citizens for obstructing the streets by piling wood on the sidewalks or otherwise interfering with the public walks and roadways. Two drunks each paid \$10.00 and costs for their salubrication. A male vagrant paid \$10.00 and costs for being thus, while a girl picked up as a vagrant was allowed to go on suspended sentence with the understanding that she must behave and keep proper company. The first time in the next two years that she is found again with immoral people or out at improper hours, sentence will be imposed upon her. For a breach of the traffic by-law Wing Soon paid a dollar and costs. A. Mattson, on the charge of keeping a gambling house, paid \$50.00 and

costs, while four men in the place when the police caught a game in progress were taxed ten and costs. On each of three charges of selling liquor the Goldfield Drug Co. paid \$300 and costs—\$900.00 all told. For neglect to have a tail light on his motor, one citizen was asked to contribute \$2.00 and costs. Remands were made in the case of an alien charged with illegally having firearms, and in the case of another man accused of having weapons without permit. These latter cases will again be before the court tomorrow (Thursday).

At St. Andrew's Young People's Society at New Liskeard there was a debate recently on the question: "Resolved that a Radio is of greater value in a home than a Washing Machine." The negative won. It would naturally in New Liskeard, but there are some towns where it wouldn't.
