REPORT THIRTEEN CASES SMALLPOX AT COCHRANE

Disease Said to be of Very Severe Type, but No Danger Now of Epidemic. Two Deaths. Vaccination General.

Thirteen cases of smallpox have been reported from Cochrane but apparently there is no danger of an epidemic, the disease being confined to the three houses in which the disease first started. The disease at Cochrane is reported as "Black Smallpox" and said to be of particularly virulent type. The type of smallpox in the North Land in recent years has usually been of mild form, but the Cochrane type like that at Chapleau and one or two other points is of a more serious kind and so should be the more closely guarded against. There have been two deaths in Cochrane, a woman and a little girl being the victims. Close quarantine is being observed, with guards on the houses, and other precautions taken. Free vaccination clinics have also been opened and a general call issued to the citizens to protect themselves and others by using all possible safeguards against the spread of the disease. From latest reports it would appear that Cochrane has the situation well in hand and there is little danger of the disease now assuming epidemic form. While no cases have been reported at Iroquois Falls that town is also taking precautions, general vaccination being recommended by the Board of Health of the Paper Town. "Better be sure than sorry," is the good hint given by the Iroquois Falls Board of Health in urging all the townspeople to be vaccinated so as to avoid danger of infection from any who may come in from Cochrane or other outside places.

One case of smallpox is reported from Matheson, but this case is now well on the way to recovery and appears to be completely isolated with no other cases developing.

There is an unfortunate heading in the last issue of The Sudbury Star in regard to smallpox at Cochrane. This heading says: "Cochrane Has Thirteen Cases of Black Smallpox," while a sub-heading bears the words in display, "More Deaths Than in Past Twelve Years." To glance at the heading one would get the idea, of course, that Cochrane has had more deaths recently from smallpox than in the past twelve years. A reading of the article, however, shows that this is not meant. The article quotes Dr. George as saying that since Christmas there have been more deaths in Northern Ontario than in the twelve years previous. Cochrane has only had the two deaths, and the disease can not be said to have assumed epidemic form. It is now well under control and not likely to spread beyond the three places where the earliest cases were located. Cochrane has had so many difficulties in the past year or two that wishes will be sincere for a happy issue out of the present trouble.

WISHES TO LOCATE HER BROTHER, THOMAS O'NEIL

Mrs. A. Lowthian, Box 641, Port Hope, Ont., has written The Advance as follows:—

"Can you assist me in locating my brother, Thomas O'Neil, who formerly owned property in and around Matheson, Ont. O'Neil is over 50 years of age and walks with a decided limp. He is a prospector, one of the old-timers, and no doubt is known to most of the older residents in the district, especially around Matheson. Anything you can do to assist in locating him will be appreciated."

Anyone having information in regard to Mr. O'Neil would be doing a kindness by writing Mrs. Lowthian or The Advance.

MANY FINE FLOATS FOR CARNIVAL PARADE SATURDAY

The Carnival Parade, commencing at 1 p.m. on Saturday in connection with the Porcupine Dog Race and Carnival event, promises to be the best yet. Many have planned to put in floats and other features. Mr. J. D. MacLean has the float for the Carnival Queen practically ready now, and it is a good one. There will be a number of attractive trade floats, Marshall-Ecclestone Limited being among those planning this class of float for the parade. It is understood that the Vipond Mine will also have a float that will be among the most attractive. Another novel feature will be King Tut's float. This is a novelty planned by a couple of ingenious gentlemen who have proved expert in the past in successful work along this line. King Tut, coffin and all, and so on and so forth, will no doubt be one of the interesting and amusing features of that parade.

To be a gentleman does not depend upon the tailor or the toilet.

PRELIMINARY HEARING IN PERJURY CHARGES TOMORROW

Preliminary hearing will be given to-morrow (Thursday) at South Porcupine before Magistrate Atkinson in the perjury charges preferred by the Provincial authorities against Mrs. Josephine Thomas and son, Matthew Thomas, Jr. The charges arise from affidavits in connection with mining lands. The cases have been remanded from week to week for some weeks past, but it is understood both sides will be ready to proceed to-morrow. In the meantime Mrs. Thomas and her son have been out on bail of \$5,000 each.

MEETING FRIDAY PORCUPINE POULTRY & PET STOCK ASSN.

Friday of this week, March 7th, at 7:30 p.m. there will be a meeting of the Porcupine Poultry and Pet Stock Association for important business. The meeting is to be held in the Council Chamber, Timmins, and all members are earnestly requested to attend. The Porcupine Poultry and Pet Stock Association has proven a great success and beneficial to the whole district. The way to keep up its usefulness is by maintaining and increasing the active interest. The meeting Friday night will be another opportunity for all to show their interest and it is hoped and expected that there will be a large attendance of members Friday evening in the Council Chamber at 7:30.

BIG CROWD AT SCHUMACHER FIREMEN'S ANNUAL BALL

The annual ball of the Schumacher Fire Brigade was held in the McIntyre Recreation Hall on Monday evening of this week and proved successful and enjoyable after the manner of its predecessors. There was an unusually large attendance and all spent a very pleasant evening. The music for the dancing was good, the refreshments were up to the usual high standard set by events in Schumacher and everything else about the affair contributed to make it a most enjoyable evening. The proportion of attendance from Timmins was large. Schumacher events always making popular appeal to Timmins people. The Schumacher Fire Brigade can add to their records one more enjoyable and successful annual ball in the event of March 3rd, 1924.

SAVED FROM AN OPERATION

Restored to Health By Taking
 "Fruit-a-tives"

Made of Fruit Juices and Tonics

The most convincing proof of the true worth of "Fruit-a-tives" as a medicine for women is found in the letters written by them to "Fruit-a-tives". For instance:

"I suffered with all the symptoms of female trouble, pains low down in the back and sides, constipation and constant headache. I started taking "Fruit-a-tives" and this fruit medicine completely relieved me of all my misery".

Mrs. M. J. GORSE,
 Vancouver, B.C.

50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

JOSEPH PLEBLIN WINS THE \$100 GOLD PIECES

Mr. Joseph Pleblin was the winner of the \$100.00 in gold given by the Goldfield Drug Store to the customer holding the lucky number. Drawing was made at the New Empire Theatre Saturday evening, and it was the number held by Mr. Pleblin that was drawn from the sealed box. Mr. Pleblin is a machine helper underground at the Hollinger. He came here from Barry's Bay, Renfrew County, and he has now more than one good reason for knowing that this is a real Gold Camp.

This week the Goldfield Drug Store is starting another contest in which five \$20.00 gold pieces will be given away. In the full page advertisement elsewhere in this issue announcing the anniversary of the establishment of the store here, particulars are given of the new contest in which customers will be given more gold pieces.

An enjoyable time was had by the A.S.D. Club at their regular weekly meeting and dance last Wednesday evening. The best of music was provided for the dancing, and the refreshments served during the evening were as usual of a high standard. The meeting this evening will be a Snowshoe Party, with lunch served at the I.O.O.F. Hall after.
