SALE of LAND

IN

THE PORCUPINE GOLD AREA ONTARIO.

NOTICE is hereby given that under and by virtue of an Order-in-Council dated the 11th day of December, 1923, that part of the bed of Porcupine Lake in the townships of Whitney and Tisdale, in the Porcupine Mining Division, remaining the property of the Crown and containing 539 acres more or less, together with the mines, minerals and mining rights therein and thereunder, is offered for sale by public tender on the following conditions:—

Tenders to be received not later than 12 o'clock noon on Thursday the 15th day of May, 1924.

Tenderers to name a lump sum for the said land, payable in full within fifteen days of the acceptance of the tender.

A certified cheque for ten per cent. of the price offered to accompany each tender, forfeitable upon non-payment of the balance of the purchase money within the prescribed time.

The sale is subject to the provisions of the Mining Tax Act and any amendments thereto, and to an additional charge in favour of the Crown of two per cent. on the net profits calculated on the basis contained in the said Act.

The boundaries of the parcel to be surveyed and delimited on the ground by the Department of Mines before the day of sale.

The highest or any tender not necessarily accepted.

Tenders to be enclosed in sealed envelopes, marked on the outside in plain letters "Tender for Porcupine Lake" and forwarded by registered mail to the Minister of Mines, Parliament Buildings, Toronto, Canada.

CHARLES McCREA,
Minister of Mines,
Toronto, 17th December, 1923.

N.B.—No unauthorized insertion of this advertisement will be paid for.

ASTHMA NEVER CAME BACK

Since Taking The Fruit Treatment in "Fruit-a-tives"

Read this letter from Mrs. J. M. Pennington of New Rockland, P.Q. "In 1919, I was taken with Bronchial Asthma and no one knows what I suffered during the winter. I began having choking spells and would just gasp for breath and could not speak. The doctor said he could do nothing for me.

In the spring of 1920, I started taking "Fruit-a-tives" and soon the choking spells became easier and I have not had one since May 7th, 1920. It is such a relief to be able to go to bed and have no thought of having to get up in the night for an hour or more as I did all that winter, but never have to now, all because I take a "Fruit-a-tives" tablet every night.

25c. and 50c. a box—at all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

A Toronto firm of undertakers are carrying on an extensive campaign of advertising for business. Toronto needs such a campaign. There have been too many dead ones walking around in that city to avoid funeral expenses. One of the advertisements of the firm referred to concludes as follows:—"Let us refer you to our innumerable list of satisfied clients." Local undertakers also say they have never had a complaint yet from any of their clients.

GOLF—FROM MANY ANGLES

By W. J. THOMPSON

CANADIAN AMATEUR CHAMPION

No. 4—THE LONG GAME

It was reported of Roger Wethered at the time of his winning the British Amateur Championship, that his drives were not as long as they once were. The reason given for this was not that he had lost the knack, but rather he had designedly sacrificed distance for accuracy. For several years he had been reckoned one of Britain's longest drivers, and still he had never won a championship.

Abe Mitchell is another golfer who apparently is not driving the ball as far as he once did. He was considered at one time the "siege gun" of Great Britain, but during the last couple of seasons there have been several who have out-driven him. On his last tour with Duncan the latter's average drive was longer than Mitchell's. Recently, in the professional championship of Britain, a young Irish professional, Michael Bingham, passed Mitchell from the tee on an average of 20 to 30 yards; and yet Mitchell won the match several up.

The Desire for Distance

The desire for distance with golfers is an insatiable one, and yet here are two famous golfers who, apparently, have overcome this ambition.

What a paradox golf is! Players as a elsss, remind one very much of stout and lean people. Each longs for the other's estate and does not appreciate his own gifts.

During the last few years there has been a decided change in the methods of attack in golf. In the United States the change is quite noticeable. The Americans have concentrated on distance from the tee. In fact an orgy of swatting has set in. Hard hitting has its rewards and penalties. So much so that it is difficult to say whether it pays or not, unless one knows the course and weather conditions.

Advantages of Long Hitting

Duncan once said that if all the holes were 550 yards long, Mitchell could give strokes to any golfer. Certainly the man who can pass another by thirty yards, possesses a great advantage, other things being equal, for he is playing a course easily 500 yards shorter than his opponent. But there is just the rub. Other things oftentimes are not equal. The long driver, that is the unusually long one, hits the ball with tremendous speed, and it is a notorious fact that most heavy hitters are quite often wide of the mark.

Then again on some courses, except on one or two holes, very little if any advantage is gained by driving beyond certain distances, and it may just happen that much may be lost. The experienced golfer sizes up the course and particular shot, and decides when to let out and when to go easy. As a general rule, the short accurate player is no match for the long accurate one, and when both are wild the long player has still an advantage.

Where Canada Lags

In Canada, I think, we have as a rule, played the accurate game. We have not developed any exceptional long drivers. This, I think, has been our one great defect. The reason for this may be that we have had a different ideal, but the time has arrived, at least until the ball is changed, when we must throw caution to the wind and systematically hit the ball vigorously from the tee.

Vigorous hitting is not necessarily pressing, nor is it incompatible with direction. It is possible to hit the ball very hard and yet do it smoothly. It simply means that one concentrates on distance, and develops the habit of systematically speeding the swing at the right place. Playing with long drivers is a great help, for if one plays several games with long hitters one unconsciously lengthens his own shots. Example is the great teacher, and in Canada we have been unfortunate in not possessing many shining examples in this respect.

Next—The Secret of Long Hitting.

FAMOUS TOM LAWSON TO SPECIALIZE IN NORTH

According to articles in Toronto and other newspapers Tom Lawson is coming to Canada and will specialize in Northern Ontario promotions. Lawson has had a spectacular career and has made several fortunes in promoting mining and industrial companies of various kinds. He has lost as many fortunes as he has made, according to all accounts, Wall Street breaking him on a number of occasions. He is the kind of man, however, that it is impossibe to keep down, and he is no sooner "smashed" than he is back in the ring again ready to clear up another fortune. Speaking of "rings" he does not apparently get along very amicably with any of the financial rings, and on more than one occasion it has appeared as if he had more than one "ring" trying to do with him what Hon Premier Ferguson did with the U.F.O. Government, though up to date with much less success apparent. Some years ago there was a report that he intended to turn his attention to Northern Ontario. Nothing came of this report, and many were not sorry that this was so, for it was thought that his methods of promotion would not be the best for the North Land's ultimate interests. He uses the "high-power salesmanship," the hectic type of advertising, and the other features of promotion associated in the public mind with some oil promotions. People are liable to be swept off their feet by the Lawson campaigns, but are just as liable to head the other way on catching their breath again. It is said that Lawson intends to make his headquarters in Toronto, and have branches in various cities, while he will specialize in the promotion of Northern Ontario gold claims. If he can secure capital for actual mining work on any of the promising claims in the North, he will, of coure, be doing a noteworthy service in the development of this country. On the other hand, if his campaigns should simply start a wave of speculation with thought of actual mining work secondary or worse, no one in the North Land would have any reason to be pleased at the Lawson activities. The North Land needs capital for development and if Mr. Lawson's work results in supplying that need he will be highly praised.

He—I was an intimate friend of your late husband. Can't you give me something to remember him by?

She (shyly)—How would I do?—Punch.

SMOOTH ROCK FALLS HAS LIVE BOARD OF TRADE

The latest centre in this part of the North Land to organize a Board of Trade is Smooth Rock Falls, where no doubt the activities of the organization will prove of special value to that community. Each community has problems of its own and with an energetic Board of Trade much may be done to induce advancement and to remedy conditions that may be undesirable. If the people of Smooth Rock Falls continue to stay actively and wholeheartedly with their Board of Trade they will find it a great power for good. The first President of the Smooth Rock Board of Trade is Mr. B. L. Cope. Dr. Wright is Vice-President. The Secretary-Treasurer is Mr. Claude Bolton. The Directors are:—W. Foster (Jacksonboro), A. F. Seymour (Driftwood). Rev. N. Rawson, Rev. Fr. Renaud, W. S. Merchant, Col. J. E. Mills and H. C. Atkinson.

ANNUAL A.S.D. JUVENILE PARTY PLEASING SUCCESS

The annual Juvenile Party of the A.S.D. Club last Wednesday evening proved a very successful affair. The attendance was not as large as it could have been, but those present enjoyed themselves. The majority present were in the dress of childhood, and games played during school days, with dancing, were the features of the programme for the evening.

Music for the dancing was provided by Messrs. Wolno, violin; C. E. McDonald, piano; Torrance, drums; Dr. Byers helping out this part of the programme until the arrival of Mr. Torrance. Refreshments were served during the evening.

The resignation of the president, Mr. Robt. Hoggarth, necessitated an election of a new president, Mr. A. E. Riddell being the unanimous choice of the meeting. Mr. Riddell having occupied the position of Secretary-Treasurer of the Club, made the election of a new secretary necessary, Mr. A. W. Pickering being elected to occupy this position. Mr. Harry Austin was elected to the Executive to occupy the position made vacant by Mr. Pickering's transfer to the secretaryship.

The meeting this evening will be a Novelty Masquerade, all the members are requested to be present as an enjoyable time is assured all.

What a lot of men know about driving would fill a big book and it is what they don't know that fills the hospitals.
