

**Rheumatism Gone,
Claims Mr. Merlinger**

Rheumatism is said to be due to acid in the blood. Whatever its cause, only those who have it know the suffering it produces. While Carnol is not claimed as a specific for rheumatism, it did wonders for Mr. Merlinger. Sufferers from rheumatism may profit from his experience which follows:

"For the past two years I have been a martyr to rheumatism. It affected my muscles and joints which at times became quite swollen. I suffered excruciating pain. I tried several "sure cure" remedies for rheumatism. Some of them gave relief for a time. Others were of no use. At times the pain was more than I could stand. Some nights I only got a few hours sleep. I was completely run down. I felt that if the rheumatism continued I would have to quit work. I was becoming worried. In reading the Hanover Post one day I noticed an advertisement for Carnol. I started taking it and shortly afterwards got ease and relief from pain. It helped me wonderfully. I was able to sleep soundly, something I hadn't been able to do for months. I can recommend Carnol to everyone suffering from rheumatism."—G. Merlinger, Hanover, Ont. 5-9
Carnol is sold by all good druggists everywhere.

SENIOR BRITISH TRADE COMMISSIONER

Mr. F. W. Field, an author and journalist of some note, has been British Government Trade Commissioner in Ontario for the past six years. Now he has been appointed His Majesty's Senior Trade Commissioner in Canada, in succession to Mr. R. W. Dalton, Mr. Dalton having been appointed Senior British Trade Commissioner in Australia. Mr. Field is now in the Old Country to confer with British manufacturers with regard to the Canadian market, branch factories, general trade, etc.

Some sensational developments are expected from the report made by Deputy Fire Marshal Jordan on his investigation into the recent fire that wiped out the old townsite of Kapuskasing. The report is understood to be now in the hands of the authorities at Toronto. Deputy Fire Marshal is well known in this district and knows the North Land well, having been Provincial Police Officer at South Porcupine years ago.

THE SEEDING OF STUMP PASTURE IN THE NORTH

Some Helpful Suggestions from Superintendent of Experimental Station at Kapuskasing.

Mr. J. P. S. Ballantyne, Superintendent of the Dominion Experimental Station at Kapuskasing, Ont., sends The Advance the following article which should prove of benefit to the settlers in this district:—

Pasture for live stock in Northern Ontario and Quebec is an important consideration in connection with the development of these districts, therefore, the settlers will be well advised to make provision for the summer feeding of live stock by seeding an area for pasture land.

In the preparation of pasture land in new districts such as Northern Ontario, when the land clearing operations are under way all brush and fallen timber should be piled in windrows in order to insure a burn which will clear the ground of everything that might interfere with seeding and grazing.

Seeding operations on stump pasture as conducted by the Experimental Station, Kapuskasing, Ont., have been found to give excellent results. During the latter part of April, just before the snow has completely gone, a seed mixture of red clover 4 pounds, alsike 2 pounds, timothy 1 pound and white dutch 1 pound is sown on each acre. Just at this season of the year the soil will be in a honeycombed condition, and the melting snow will carry the seed into the porous soil where it is well protected until germination takes place. This method of seeding has been followed at this Station for a number of years and splendid success has been obtained. Pasture land seeded in this manner in 1919 has provided, and is expected to provide, an excellent stand of red clover. In addition to supplying live stock with ample pasture at a minimum cost this crop has at the same time built up the soil fertility. It has been found each year the task of removing the stumps from pasture land becomes easier, due to the action of vegetation on the stump roots.

Red clover for seeding of stump pasture has given such excellent results and has proved such a good soil builder, that its use is strongly recommended to the settlers of Northern Ontario and Quebec.

ROOF FIRE ON BROADWAY CAUSES LITTLE DAMAGE.

The Fire Brigade had a call on Monday morning to 57 Broadway, to a house owned by Mrs. Carpovitch. The fire was in the roof and apparently caused by a defective chimney. The damage done was slight, the fire being promptly extinguished by the use of the small chemical tanks.

TIMMINS FANS RESERVE SEATS FOR BOUT ON MAY 2ND

Reservations have been received from Timmins, London, Oshawa and Brockville, among other widely separated places, for the ten-round bout on May 2nd between Young Stribling, the sensational High School boxer and Tony Burns, who claims the Canadian Lightweight Championship, the event being under the auspices of the International Sporting Club of Toronto. In two recent bouts with Mike McTigue, Stribling beat McTigue decisively, and had the last bout in Newark not been a no-decision affair Stribling would now be Champion as he won every round. Burns looks like a well-matched opponent. He is 22 years old and very strong. He acts and fights like Jack Dempsey whom he resembles very much generally in appearance.

EIGHT TEAMS IN DISTRICT FOOTBALL LEAGUE NOW

The Porcupine District Football League seems to be making unusual progress and to promise a particularly interesting season for local football. The latest team to officially enter the League is a Schumacher team to be known as the McIntyre. There are now eight teams assured for the Porcupine District Football League for the season. They are as follows: Cornish One and All A. F. C. Lancastrians. Hollinger. Town of Timmins. Last Year's Juniors. Most of the boys being over the Junior age, this bright team is to be kept together for this season by having them in the district League.

The Dome will be represented in the Porcupine District Football League by two teams.

The Kirkland Lake page of the Northern News last week says:—"Mrs. Dave Cramp and young daughter visited Timmins over the holiday."
