**SUFFERS NO MORE WITH HEADACHES**

"Fruit-a-lives" freed her from years of pain

The Fruit Treatment seems to be the only way of completely ridding the system of the cause of Headaches. Miss Annie Ward, of 112 Hazen St., St. John, N.B., says: "I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, but nothing seemed to help me until I tried 'Fruit-a-lives'". After taking several boxes, I was completely relieved and have been well ever since."  
Practically all Headaches come from poisoned blood—that is, the blood is laden with impurities which should be carried from the body by the kidneys and bowels.  
"Fruit-a-lives"—made from the juices of oranges, apples, figs and prunes—regulate the vital organs of the body—insure a pure blood supply—and completely relieve Headaches. 25c. and 50c. a box—at druggists or Fruit-a-lives Limited, Ottawa.

The man who attends strictly to his own business generally has plenty of business to attend to.

**FREIGHT AND PASSENGER SERVICE AT CONNAUGHT**

Passenger Boat Leaves for Night Hawk Peninsular Every Morning on Arrival of 8:20 Train From Timmins.

A very complete and convenient freight and passenger service is being carried on this year by the Connaught Navigation Co., of which Mr. Dug Warren is the manager. The service is of the very best and the interests of those travelling in the Night Hawk area is well looked after. The passenger boat leaves Connaught for Night Hawk Peninsular every morning on the arrival of the 8:20 train from Timmins. The returning boat arrives at Connaught in time to catch the 6:10 p.m. train for Timmins. Excursions and special trips may also be arranged for. The service offered by the Connaught Navigation Co. appears to be of special advantage not only to the Night Hawk area but also to the public in general. Connaught and the Night Hawk district offer unusual advantages and attractions for excursions and lake trips, and any who wish particulars as to the service along these lines can secure same by phoning or dropping a line to Mr. Dug Warren, the manager of the Connaught Navigation Company.

**DR. J. H. KNOX, V.S., OPENS PRACTICE IN TIMMINS**

Dr. J. H. Knox, D.V.S., of Toronto, has opened practice in Timmins, his office being in the Manion Block. Dr. Knox has had fifteen years experience in practice as a Veterinary Surgeon, and has the highest recommendations. His office here should prove of value and convenience to owners of horses, cattle, and other domesticated animals.

The Marter news last week in The New Liskeard Speaker included this item:—"Mrs. W. Johnston and son, Robert, of Timmins, are spending a few weeks' holidays with her parents, Mr. and Mrs. W. Hounslow."

**THE NINTH ANNUAL BALL OF THE TIMMINS FIREMEN'S NINTH BALL**

The Ninth Annual Ball of the Timmins Fire Department held in the Masonic Hall last Friday evening was not as largely attended as some of the previous events held under this auspices, but those present had a very enjoyable evening. Music for the dancing was provided by Wolno's Orchestra. Refreshments were served during the evening.

**LOSS OF EYE RESULTS FROM FALL AGAINST CABIN WINDOW**

Some days ago Mr. Harvey Wheeler, a farmer in the Night Hawk district, met with a most unfortunate accident whereby he has lost an eye. He was getting off the boat when his foot slipped and he fell through the window of the cabin. A piece of glass pierced his eye. He was brought to the hospital here and all possible done for him, but the eye had to be removed, the operation being successfully performed, with the injured man making excellent progress to recovery, though suffering the serious loss of an eye through an unusual outcome of a simple accident.

**LESS THAN A DOZEN CASES AT LAST WEEK'S COURT**

Thursday last was a comparatively easy day for Magistrate Atkinson after some of the recent strenuous and busy police courts that he has had to preside over here. The cases Thursday were neither numerous nor very important.

On a charge of the illegal transportation of liquor, J. Petonett was fined \$200.00 and costs.

Mar Bigras faced a charge of illegally keeping liquor for sale, and was fined \$300.00 and costs.

A charge of disorderly conduct against A. Charette, a newcomer to town, resulted in a fine of \$5.00 and costs. A similar charge against A. Tremblay was dismissed.

There were five drunks who were awarded the standard fine of \$10.00 and costs each.

**NIGHTINGALE'S SONG BROADCASTED IN BRITAIN**

More than the radio fans should be interested in the programme broadcast in Britain one evening last week. It is to be regretted that this unique programme could not have been heard on this side of the ocean. If 3G.G. at Sandy Falls, near Timmins, could have listened in on this programme like that station did on British broadcasting on some occasions last winter it would have been another feature, surely, in the cap of the pioneer of radio in the North Land. Speaking of features, it was certainly a bird of a programme. It was the broadcasting of the songs of nightingales. Despatches from London, England, point out that thousands of persons who had never heard the notes of a nightingale listened to the songs of these shy little birds broadcasted from the depths of a Surrey wood. Great precautions had been taken to keep the local residents far enough away so as not to frighten the birds who were tempted to sing at the right moment by notes sounded on a cello by a musician seated in the wood, it having been found that they respond to musical tones resembling those with which they habitually begin their songs. A sensitive microphone and amplifier were used to transmit the notes to the London broadcasting station, whence they were relayed to other stations throughout the country and to the radio listeners.

**TECK-HUGHES HOLDS RECORD FOR MONTH'S HIGH GRADE**

The records of the Lake Shore Mines and the Teck-Hughes show these two Kirkland Lake properties to be running neck and neck in the race for the record of being the richest producer of gold in the Dominion, or, rather, the producer of the richest gold in the country. Hollinger, of course, has them all far out distanced in the production of gold, no matter how it is figured,—by value or by tonnage. Accordingly, Hollinger may be set down as "the richest producer of gold in the Dominion." For grade of ore, however, the two Kirkland Lake properties hold a record each. In this connection a despatch in a Toronto newspaper last week set out the two records as follows:—  
The March achievements at the Lake Shore showed ore averaging \$42.60 per ton, and which was believed to have constituted a record for ore treated continuously for a full month on any gold mine in this country. Examination of the records of Teck-Hughes for 1922, however, shows ore treated in September, 1922, to have averaged \$43.79 per ton.

For consistency of high-grade content from the commencement of milling operations, however, the Lake Shore so far easily holds the lead among the gold producing mines of Northern Ontario.
