

FIRE SALE

The recent fire at this store did considerable damage, but large sections of the stock were practically unharmed. Some of the goods are absolutely untouched, some have wrappers discolored by smoke or water, and some are slightly affected in appearance, but not really injured for practical purposes.

No really damaged goods are being sold at this sale, but big bargains are being given in practically every line. The public expect a Fire Sale after a fire of any proportions, and we are staging a real hot one--just watch our smoke!

Big Values in Every Department

Space will not permit of a list of all the big bargains offered, but the following samples will indicate how you can save money and make money by doing your buying here during
